

QUIMPER 84 \$3,535

Incredible massive pair of Henroit Quimper ewers that we purchased in Brittany over 25 years ago, each with hand painted couples on the front and superb detailed floral images on the reverse side. One ewer has the Quimper coat of arms painted on the neck and one the Bretagne coat of arms. They both have blue décor riche on yellow background bands at the base and below the neck as well as blue décor riche bands at the base and spouts. There are large orange handles which bring the ewers to an impressive height of 23" and they are 8 ½" across from spout to handle. The mid-section of each ewer measures 7 ¼" across. These pieces are extremely heavy and are in remarkable condition. They are both Henroit Quimper 134 and date from 1922. Incredibly rare to find together.
