

QUIMPER 15 \$155

Henroit Quimper Coffee Cups and one saucer beautifully hand painted in décor Soleil pattern in yellow background in outstanding condition with only a few very minor glaze pops on the back of the saucer, which do not detract. One cup has a Breton man and the other a Breton woman. Saucer measures 7" across, and the cups measure 5 5/8" across at the handles and are 2 3/4" high. Marked Henroit Quimper France 724 and are from about 1968. We acquired them in France at a roadside flea market over 30 years ago. Unfortunately, we lost one saucer to breakage in shipping.
