

INDIAN 9 \$1,075

We acquired this amazing genuine early Native American Otter pipe bag from a Ute woman who was over 100 years old and had been an avid collector most of her life. It has been in our collection for over 25 years. This fine quality pipe bag is decorated with superb quill detail and other adornments and measures over four feet long at 49 ½" and 9" wide. The quality of the fur is outstanding, and we can find no detractions from the piece. This exquisite piece would be a fine addition to any serious collection.
