

CLOCK 11 \$545

This superb vintage clock has been in our collection for over 25 years and is the nicest we have ever seen. Still bearing its original Lanshire tag, it is in just amazing condition. The base is 15" wide and 6" deep and the measurement to the top of the horse is 12 1/2". The back of the clock is marked Clock Movement by Lanshire. Of course, it currently runs flawlessly, and the photos accurately show you the condition, but we are not in the clock business and do not warranty these vintage pieces. You will never find another genuine vintage western clock in this fine condition. It is heavy.
