

QUIMPER 42 \$1,050

We purchased this fine HR Quimper soupier directly from Joan Datesman over 30 years ago. The piece has the image of a Briton woman on the front and has a bright and vivid floral pattern all around. On the lid is the image of a man. There are only a few very minor flea bite chips shown in the photos and some slight wear from light use around the rim of the lid, but we find no cracks or repairs. The piece measures 10 $\frac{3}{4}$ " wide and 9" high with the lid and is marked HR Quimper. It dates from 1904.
