

QUIMPER 44 \$675

We purchased this exquisite HR Quimper swan shaped open planter directly from Joan Datesman over 30 years ago. It is in superb condition with one minor chip inside the rim and a very small crack at the left rear base, neither of which detract or affect the piece. It measures 8" long, 6 ¼" high and 4 ¼" deep. It is marked HR Quimper under the image of the Briton woman sitting on the breast of the swan. A rare piece to find, the piece dates from 1910.
