

QUIMPER 5 \$105

Henroit Quimper rooster cup and saucer in fine condition. Just a wonderful set in an unusual design and rare to find. One photo shows a surface glazing imperfection that looks like a crack, but you can see from the other photos that it is not. The cup measures 5 ¼" across at the handle and is just over 2 ½" high. The saucer measures 6 ½" across. Both pieces are marked Henroit Quimper France 6/A and date from 1968.
