

QUIMPER 69 \$245

Wonderful HB Quimper round platter in yellow, which is much brighter than in the photo, with a floral and bird hand painted in the center and floral design around the rim. Very rare to find, it measures 11  $\frac{3}{4}$ " across and 1  $\frac{3}{4}$ " high and is in fine condition with only a few very small firing flea bites that do not detract. Has holes in the base ring for hanging. Marked HB Quimper R and dates from 1935. We acquired this at a fine antique shop in Brittany over 30 years ago.
