

QUIMPER 65 \$1,150

We purchased this fine and rare to find pair of HB Quimper bellows (souflut) in Brittany, France over 25 years ago. They are in fabulous condition, and we can find no chips, cracks or repairs. One has the image of a Briton woman, the other a man, and both are marked HB Quimper on the front and back and the number 377. They, of course, have holes for hanging. They measure 12 5/8" high, 5 1/2" wide and 3 1/2" deep and date from 1943.
