

CHAPS 43 \$450

Child's ranch batwing chaps made for some young cowboy just like dad's. These are quite old and in very good condition for their age. Four original conchos per leg and leather button front pockets, and they measure 27" long and 25" wide as shown. The leather is somewhat stiff but the chaps are terrific for display. Two of the eight clips are missing from the back side. We purchased these from Bill Welch many years ago. Very rare to find survivors like these.
