

HOLSTER 1 \$845

This serious collector's double gun rig was custom made and marked by Clark Holster Los Angeles, Calif. For some very lucky young cowboy, most likely in the early 50's.

The holsters and belt are basket weaved design and each holster sports a T monogram. The leather is in fantastic condition, and the belt is strong and is in fine condition, with two mounted 1" conchos and strings. The belt measures 35" from the tip to the leather loop through the buckle. The buckle is marked "Solid Bronze." The included two large cap guns are both in superb condition, all tight and with sound operating action, and the breech opens for easy loading. The grips are carved longhorn look with no cracks or chips that we can find. Each six gun is marked COWBOY and measures 11 1/2" total length. The holsters measure 12 1/2" from the top of the belt to the bottom of each holster. This is no ordinary vintage young cowpoke's gun rig. This was expertly custom made just like the big boys. Not cheaply made and not cheap, but why would you want anything else?
