

CLOCK 10 \$445

This incredible rearing horse clock has been in our collection for over 25 years. It is simply stunning, measuring 10" wide, 4" deep and 12 1/2" to the top of the horse. The condition of the piece is superb, and, of course, it has run flawlessly, but we are not in the clock business and do not warranty these vintage pieces. Even the original reins are intact! You will rarely find another genuine vintage western clock in this fine condition. It is heavy.
