

SADDLE 31 \$1,200

This exquisite c/1920's high back saddle, that we purchased from a collection 25 years ago, has incredible detailed craftsmanship, and we can hardly believe that it is not maker marked. The saddle measures 26" front to back, 14 ¾" from the base of the horn to the top front of the cantle and the cantle is 7" high. The seat skirts measure 19" across. The horn is tight and all six star conchos are original to the saddle as is the superb sheepskin. A dark chocolate color that can only come through honest age, this fine saddle has obviously been well cared for and will be a superb addition to any high quality collection.
