

INDIAN 2 \$3,150

We acquired this incredible fine large beaded cape from a Ute woman who was over 100 years old and an avid collector most of her life. It is exquisite and has been in our collection for over 25 years. The cape measures 48" across as shown and 20" long to the bottom of the tassels. The beadwork is simply amazing, and we can find no bead loss. There is a beaded tortoise on the front of the cape. The quality and condition of this piece are astounding. It would be a wonderful addition to any serious collection.
