Common abbreviations for names of States and months are also used.  
 H. or S. followed by a number stands for House bill or Senate bill, respectively.  
 \* Document for sale by Superintendent of Documents.  
 † Distribution by office issuing document, free if unaccompanied by a price.  
 ‡ Document not obtainable.

## Explanation

Words and figures inclosed in brackets [ ] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 61st Congress, 2d session, is to be understood.

## GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents can not be supplied by this Office free to individuals, nor can they be forwarded in advance of payment.

Documents entered in this catalogue that are for sale by the Superintendent of Documents, Washington, D. C., are indicated by a star (\*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions, and unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to over a million, of which several hundred thousand are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

### MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, \$1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.
