M.E.D.

REPORT FOR NUMBERED STOCK UNDER ROW TEST
(to be returned to Blueberry Office when completed by shed supervisor)

Date July 17, '41 Field West Lower Blue

Row# I Variety 29-28B Light

Quantity Sent to Packing Shed 1 Pt. Crates 5 1/2 Pts.

Cup Count 78, 91, 85 Quantity Packed " " "

Disposition to be made of berries

1 crate, 2 pts. sent to Stanley Couille
The remainder to go with regular commercial berries.

Remarks and Signature of Shed Supervisor

These regular in size.
M.E.D.

(over)

The berries of this third picking have developed much better flavor than I have previously noted. The scar is broad and a considerable proportion of the berries are rain cracked, the cracks radiating from the scar E. C. White

Light color, which cuts easily, rather soft texture, a few stems, a few rain cracks, radiating from scar. Flavor fair, not outstanding.

Rows U Variety 29-45A

Quantity Sent to Packing Shed _____ Pt. Crates 4 1/2 Pts.
Cup Count 111, 111, 123 Quantity Packed _____ " _____ "

Disposition to be made of berries

Put with regular commercial berries

Remarks and Signature of Shed Supervisor

Best blue of the 29-45 series, very good flavor
nice firm texture, fair scar, hardly any rain
cracks.

Very good flavor, light blue, somewhat rubbed,
not so good looking as 29-45 B. Some very large
berries but irregular in size. A few rain cracks
radiating from scar.
