

Dear James

I have yours of the 15th and am glad to find you conclude" that you may have misjudged your cousins" to use your own words. I trust you will find a reward in this favourable view. Many older motives than the one you attributed to them may readily be found for the indifference that you say they manifest to you. They may really think you should be solvent without their aid & may think it beneficial to you to act as they have

All this I let pass and come to the business matter I certainly would advise you to get the BK to extend for goods or some paying what you can. & not to borrow for the Commons Merchant who will charge for advance more than the BK Int. I send you a check for 200\$ wh is the quota promised Your BK & other claims reached at 1000\$ I think & wh you reduced to 500\$ I hope you will get thro this pinch. and be tled to avoid in future any deficiency by means of success. yrs truly

A M Jones
