I AM MOST INTERESTED IN THE  
 VARIETY OF THE SPECIES FROM THE  
 THE WESTERN PART OF THE  
 HOLLY COLLECTIONS

Wing Holly = *Cornuta* # 2 = *foecum*, compact  
 & bases back to the plant in Winkington Hall Botanical  
 more from D. A. Thorne  
 Garden

Burfordi = (from Chapel Hill) = *Cornuta* in Atlanta  
 lower than wing holly
