

March 2, 1994

Mr. Timothy J. Siebert, President
Portage County Historical Society
2933 Kozy Street
Stevens Point, Wisconsin 54481

Dear Mr. Siebert:

ANR Pipeline Company (ANR) is proposing to construct a meter station to provide an interconnection with Wisconsin Public Service Corporation. The proposed meter station site is located in Section 29, T24N, R9E, Portage County as depicted on the attached portion of the USGS Topographic Map (Polonia, Wisconsin).

The work associated with construction of the meter station includes installation of an interconnection with the customer and measurement facilities to monitor the transfer of natural gas. An approximate 250' x 250' area located just east of County Trunk Hwy. J is needed to accommodate the planned facilities.

Attached for your information is a copy of the letter from the State Historical Society of Wisconsin which indicates that they have no record of historic properties in the project area, however they recommend contacting you to gain further information in the event that the State's records are incomplete.

ANR is requesting that you review this project and provide a determination regarding historic properties. Should you have any questions, please do not hesitate to contact me at 313-496-3622.

Sincerely,

Gayle M. Konik
