

The commemorative gifts of the 59th Inaugural Ceremonies represent the artisanship of small businesses across the United States. *Ortmann Woodcraft* in Patton, Missouri, designed and created the engraved Missouri walnut box. *Ozark Leather Supply Co.* in Ozark, Missouri, handcrafted the embossed leather pouch. Within the pouch is an American-made compass and sundial instrument. This instrument is a replica of a tool used for exploring in 18th century America.

To use the sundial on a sunny day, raise the gnomon and hold the compass level facing north. The shadow cast across the dial will show the approximate time.
