Seniors Entertained by Sophomores

DR. ARNETT TALKS ON "SPARE TIRES"

If anyone thinks the Sophomores don't know how to entertain, just ask the Seniors. Tuesday night, Oct. 4, they entertained the learned seniors with a theater party. They saw "The Magic Flame" at the California Theater in Pomona. Afterwards the entire group made their way towards the Idylwild, where refreshments were served.

The tables were attractively decorated with autumn leaves and berries. The place cards and favors also carried out the fall motif. The college and both class colors were skillfully worked out in the ice cream special, and the letters "L. V. C." adorned the icing of the cake.

Dr. Arnett had been requested to make a talk and he chose "Spare Tires" as his subject, inferring that no matter what we do, we must have resources at hand.

Stunt Program

The Y. M. C. A. stunt and reading program at the chapel hour last Monday was well attended. While the stage was being arranged, those assembled sang under the direction of Harold Hoff. The first number on the program was a reading by Webster Albright. Following this, Joe Roy-non, Dale Stutzman, and Ed Cunningham staged a one-act pantomime descriptive of the pains and sorrows attending the theft of the family hen-fruit by one of the younger generation. Several of the acts had to be omitted, due to the temperamental non-appearance of the actors. Watch the bulletin board, "Y" members. This is only one of the many good stunt programs for the year.

Student Volunteers

The Student Volunteers enjoyed an extraordinary treat Wednesday evening, Oct. 5. Miss Alice Hughes from S. C., the president of the Student Volunteer Union of Southern California, was the guest of the local organization.

The first thing on the program was a big feed which was very appropriate. After all appetites had been brought into subjection and a few lively songs had been sung, the meeting was turned over to Miss Hughes. She told of coming conventions, namely, the Quadrennial Convention of Student Volunteers to be held at Detroit, and the Southern California Student Volunteer Union Convention to be held at the University of Southern California in Los Angeles, Oct. 21 and 22.

Miss Hughes urged that our local organization send as many students to both of these conventions as possible. She also commended LaVerne College for her comparatively large group of Student Volunteers.

After a few interesting remarks and announcements by President Melvin Rothrock, the meeting adjourned and all went home feeling that the Student Volunteers is a truly worthwhile organization.

Still more interest can be shown in the Student Volunteer organization, so don't forget to come at 8:05 next Wednesday night—everybody!

Every man would live long, but no man would be old.

"BEWARE OF THE TEMPTER"

By Evelyn Gage Browne
"A bird in the hand is worth two in the bush,"
Is a saying that's old but true,
And if you're full of pep and "push"
It surely applies to you.

The job you have that is sure today
Is worth your very best,
And if you give it—it's bound to pay
A whole lot more than the rest.

They are only promises, hazy and dim,
In fields untried and new;
And your present boss, if you stick to him,
Will as surely stick to you.

So beware of the man who hands you a line
Of bluff and flattery stuff,
To tempt you to leave a job that's fine,
With the words, "You're not getting enough."

For that's the time when it isn't wise
To see yourself as a star,
Through some one else's nearsighted eyes—
You're Just What You Know You Are!

It's what's within that makes success,
And can't keep a good man down;
And it rests with you—no more, no less—
And not with the job nor the town.

So Give Your Best Right Where You Are,
Your brain, your heart and soul—
Then "hitch your wagon to a star"
And you're bound to reach your goal.

Women and Athletics

LaVerne College women are standing behind the men in athletics. Since they have no organized athletics, what energy they might otherwise put into their own teams is put into the men's. In other words, the feminine portion of the College can spend its energies in supporting the men's teams by organized and efficient rooting from the sidelines. They also cooperate with the coaches by helping to enforce training rules and keep up the morale by sending the boy friends home by 10 o'clock each evening and keeping them from eating cake, pie and candy.

Athletics which put L. V. C. on the map mean just as much to the women of the College as the men. They have just as much pride in their Alma Mater and in seeing her take her place with the leading schools of the South as their brothers.

A woman's interest in athletics lies primarily in the results of the game rather than in the long process which must be gone through to get these results. To the men the coach is a vital part of athletics but to women he is of interest only as he may be able to turn out winning teams, a means to an end.

Experience is a hard teacher.

Traveling College

One might wonder at the four tents that were pitched east of the gymnasium Thursday afternoon, October 6, but they proved to belong to the McPherson College Natural History Trek which is to make its headquarters in LaVerne during the next two or three weeks.

Professor H. H. Nininger, who is the instructor of biology at McPherson, received a traveling professorship to enable him to leave his work and lead the party.

The purpose of the expedition is to gain a more thorough knowledge of biological science by travel and observation. The definite studies taken up are of birds, botany, zoology and paleontology. Special notebooks, designed by Professor Nininger, are used in studying (these subjects, and form a systematic basis for analysis and classification. Field work with occasional help and advice by the instructor is the dominant method. For this course so pursued, regular college credits of eighteen hours in biological science will be awarded by the mother college.

Professor Nininger is accompanied by his wife and three children besides the thirteen young people taking up the course, who are Mr. and Mrs. James Elrad, Vera Cade, Louise Muck, Hovey Lehman, Kenneth Rock, Glen Rothrock, Ora Huston, Horner Eby, Alex Richards, John Harnley, George Swank and John Lehman. Leaving Palmer Lake, Colorado, where the group gathered, a rapid journey was made to Yellowstone Park. The four Pontiac sedans were turned towards Salt Lake City after a ten-day visit at Yellowstone. At Salt Lake the main study was of water and birds.

Cedar Breaks, Bryce Canyon, Kaibab Forest, Grand Canyon of the Colorado and Zion Canyon were visited in turn. A study was made of the geology of these regions as well as of the flora and fauna. Several days were spent at Las Vegas, Nevada, in search of fossils, meteorites and cave dwellings.

After traveling through California the party intends to explore Arizona, New Mexico and Mexico, Texas, and on over to Florida, perhaps visiting Cuba also. From Florida the party will travel up the Atlantic coast to New York, and from there back to McPherson.

This trek is a sequel to a similar one taken by Professor Nininger two years ago, and his happy idea of taking a group with him is proving of great value to his students.

Clarion Four Program

The Clarion Four Male Quartette will give a concert on Thursday evening, October 12, in the Church of the Brethren at 7:30 p. m.

This concert in the home church is an annual event. No admission charges will be made but an offering will be lifted.

GREEN

(To the "Freshies")

Don't get sore if they call you green.
Stop and think what they really mean—
That you're young, growing and full of life,
Ready for anything, battle or strife.
Come back strong and say, "You bet!
Hope I'm green a long time yet."
This should never be forgotten,
Right after ripe comes rotten.
—Pasadena Chronicle.

REDUCTION BY EXERTION

Several days ago we came across a very interesting news article in one of the daily newspapers. It had to do with reducing of excess weight by means of the football method. When this article reaches the notice of many of our college women, Dr. Arnett will probably be swamped with applications for a co-ed football team. So much for that.

Some college team in the East played football last Saturday very wisely and too well, it seems. They went on the field in a normal condition and came off the field with a loss of weight amounting to 267 lbs. for the eleven men. There is only one explanation — they simply melted down from excessive heat superinduced by violent exercise and a high climatic temperature.

This reduction amounted to exactly 388 4-11 ounces apiece—an extreme reduction for such a short time.

If the game had been played just exactly 5 hours, 48 minutes and 9 3-4 seconds longer, the whole team of eleven men would simply have been reduced to nothing. Of course such a condition would be embarrassing to any coach, as he would have to go out on the field and gather up the empty suits. Also the other team would be able to dodge between the inanimate suits and make countless touchdowns.

When the last player had been reduced to the last ounce it would be very romantic, though, as he could cry out in those famous last words of Nathan Hale: "My only regret is that I have but one more ounce to give for my school." Thus, with our hero gasping out these last brave words, we will close these solemn remarks and depart.

Coach Van Cleave

I. H. Van Cleave, coach at LaVerne College, says that he believes athletics trains a person for future life; teaches obedience, clean play and to act instantly both physically and mentally.

Coach Van Cleave's first football experience was hard, at Central University of Iowa. He played three years.

With much study and practical experience, Mr. Van Cleave started on a long and successful career as a member at Kansas State Normal. After coaching there for a number of years, Mr. Van Cleave came to California and coached three years at Whittier College. He then went to Pomona High School, where for the next six years his Citrus Belt teams were very well known in the South because of their exceptionally clean playing and fighting spirit.

"Hey, Wayne, why did you stop singing in the choir?"
"Because one day I didn't sing and some one asked if the organ had been fixed."

CALENDAR

Oct. 12—Carfort Co. at the College Auditorium, 8 p. m.

Oct. 13—Clarion Four at the Church of the Brethren, 7:30 p. m.

Oct. 14—Frosh vs. Redlands at Redlands, 3:30 p. m.

Oct. 14—L. V. C. Radio program over K N X, 7 to 8 p. m.

Oct. 15—Leopards vs. Sagehens at Pomona, 2:30 p. m.

Frosh Play in County Park

JUNIORS SUPERVISE GAMES AND SERVE REFRESH- MENTS

On Monday evening, Oct. 3, the Juniors took their small proteges to the San Dimas foothill county park, an ideal spot at the foot of the mountains.

The Freshies enjoyed the swings and teeters and then the group was divided into smaller groups for a series of snappy games and contests. Candy and animal crackers were awarded to the winning sides.

The call to refreshments was greeted with enthusiasm and a rush was made for hot tamales, coffee and apples. Loud cheers rang out for the Juniors.

After many explorations of the moonlit grounds in which more swings, slides and teeters were discovered and put to good use, the party broke up.

It was an evening of keen enjoyment for the seventy-five or more students who were there.

"Trees"

Prof. Hollenberg gave an interesting talk in chapel, Oct. 6, his subject being "Trees." In opening his address he told how important a tree is in art and in poetry. The heart of most scenery is a tree, and a landscape that lacks trees seems to be bleak and barren.

He used the vicinity of LaVerne and the mountains near LaVerne as typical of the zones and altitudes for various trees. The first zone is the valley floor and the coast live oak is the most typical tree of this group. The sycamore is found in the washes and arroyos. In Southern California the alder is found in the lower canyon and the big cone spruce in the upper canyons. The pine belt is next and there are three divisions. The yellow pine is found in the lower pine region, the knobcone pine in the middle belt and the sugar pine, white fir and incense cedar in the upper pine belt. Above the timber line in the higher altitudes the tamaracks are found.

Prof. Hollenberg closed his address with these words:

"Poems are made by fools like me,
But only God can make a tree."

Science Club

The Science Club is a new organization in the College and is composed of the "scientific intelligentsia" of the science classes. Alton Kurtz is the president and Stanley Weddle the chairman of programs; Chet Shirk, secretary and treasurer.

Prof. B. L. Griffing is responsible for the organization of the club, to which he lends his capable assistance. Professor Griffing has had a great deal of experience along this line in his relations with other clubs and organizations of this nature.

The Science Club is composed of a homogeneous group of scientific students who wish to promote the interests of science and further the development of scientific fields. The club gives the students an opportunity to show their ability through lectures and experiments, made before the club at the meetings.

The club is only in its infancy now, but expects to accomplish great things in the future.

SHOULD WE PAY MR. X, MR. Y, AND MR. Z?

Recent conversations have brought to light the fact that certain students of LaVerne College have given their time and talents to the college. They have not thought of capitalizing their work but have given it unstintingly to the college. In return they have seen the college win in spite of handicaps. It is because of this willingness to work without pay that LaVerne's past has been so bright.

However, it seems that certain individuals who are connected with La Verne's entrance into the radio contest under the auspices of Desmond's of Los Angeles desire to get a "rake-off" for their efforts in the program, especially if they win. Should these students win the first prize the college could afford to pay them for their work. There would still be a large profit left to the school.

Still, this is not the heart of the situation. If we pay them for their efforts in one program, although they win us much money, we believe that every person holding a student body office should likewise receive remuneration for his efforts.

Let us take the president of the student body, for instance. He works throughout the whole year and gets nothing more than a pin and the honor which goes with the position. Yet, some insignificant money lovers who have more talent than sense come along, and because their talent becomes of some use to the school, they demand pay for the service of that talent while others are giving unstintingly of other talents.

If we allow these fellows to receive money for their work we are taking first steps towards LaVerne's ruin. If the students attending this college do not love the college enough to use every talent available for the college without pay, LaVerne College will cease to be what she has been. One of her fundamental ideals will be gone. If the students will work for no other purpose than to fill their own pockets, the college will immediately lose its unity. Everyone will stop pulling for the college and pull for himself. No college, no nation can win in this manner. "United we stand, divided we fall," is a principle which will live from now until eternity.

Just for a sum of \$700 LaVerne cannot throw away a future. Just for three or four fellows who do not have the LaVerne spirit but the selfish desire to make some money off their Alma Mater, LaVerne cannot and should not kill her future.

For our part, if these fellows do not wish to put the program on unless they make something off of it, we would rather see no program given although we do lose the chance for a good prize. If these fellows want to be so lacking in school spirit, we do hereby state that we believe they should not be allowed to participate in the contest, for any student who does not represent LaVerne's true spirit is a greater detriment than help to the college and is either invited to change his ways or get out. There are other colleges that like their type.

DON C. MILLER.

McPhersonites

Enter California

"So this is California!" Such was the remark heard in Pontiac No. 4 of the McPherson College Natural History Trek as it crossed the line from Nevada. The route was a dusty road over a parched desert, and on the right and left horizons were low hills whose only life was sage brush, yucca and lizards. The prospect was one of utter desolation.

The thought of walking over this desert, or even of traversing its arid expanse made us shudder, but we admired in the next thought the intrepidity of the gold-seekers of '49.

A glance at Rand-McNally told us that we had not yet seen California in its entirety, and the gentle rhythmic purr of the six cylinders in the hood of our product of General Motors assured us of safe arrival at La Verne, nee Lordsburg.

As our gasoline mingled the effluvia of its combustion products with the purple air and dust of the Sierra Nevadas, we found ourselves entering a region of gradually increasing fertility and beauty. Sage brush gave way first to junipers and mesquite, later to oranges, peaches, apples and grapes. The ever-increasing frequency of filling stations and fruit stands evidenced a land of tremendous fertility and fabulous wealth.

San Bernardino, Pomona, Claremont; ah! here we turn south to La Verne. A courteous traffic cop guided us to friends and a grand reception as warm as—a fresh hot-dog sandwich. After formally receiving the freedom of the city of LaVerne we proceeded to erect a city of our own on the ample space afforded by a diamond, a tent to cover each base.

Home-sickness, more correctly college sickness, struck to the vitals of one of the group, as the sight of a number of strolling couples brought sharply to mind visions of an all too well recollected past at the Alma Mater in Kansas. Familiar with college life, this aching soul was not long in finding the remedy for his illness, and bears heartfelt witness to the efficacy of California's sunny climate, delicious fruit and kindly society in healing maladies of the heart.

EXCHANGES

An iris garden is being laid out on the plot east of the science building at McPherson College. All of the plants are being furnished by the prairie Gardens Company.

California Tech beat Redlands University 46-0 at Pasadena a week ago Saturday.

Lawson Cooper, of Pomona College, received first prize of \$250 in an English contest sponsored by Mr. Jennings of San Diego.

The Y. W. C. A. of Pomona College is giving a Shishkabob, October 10. They seem to prefer not to state just exactly what that big name is good for.

Whittier College will put on the first of the radio programs sponsored by Desmond's College Men's Store, October 8. Whittier took first place in the series of rallies last year.

The Sophomores of Whittier College won the Freshman-Sophomore sack race which took place Tuesday evening.

Registration closed at U. C. L. A. with an enrollment of 5,000.

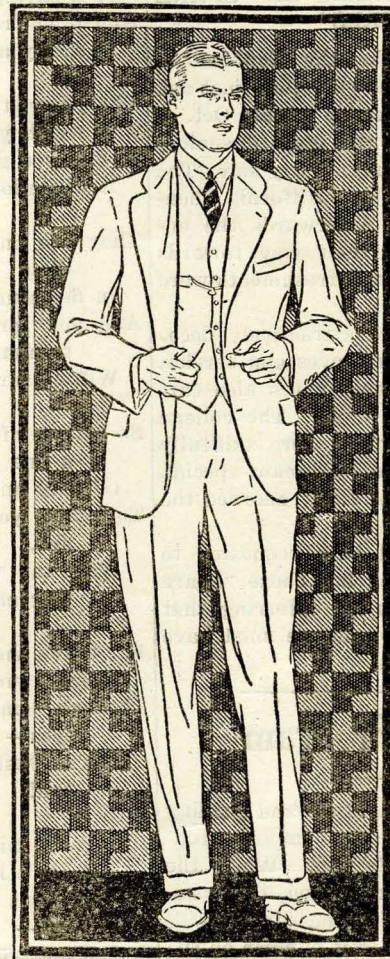

The Y. W. C. A. at McPherson College held their candle-lighting service a week ago last Tuesday evening. Fresno State College student body is holding court for its Freshmen three times a week.

Whittier College had a student parade of seventy cars, Monday morning. The object of the parade was to arouse public interest in the \$100,000 campaign now being carried on by friends of the college.

"What you give, you have; what you keep, you lose."

Cupid Is Good Marksmen

The year is beginning well for Cupid, so they say. At least, one fair victim has already fallen as the dainty arrow did its deadly work. Yes, Cupid drove the shaft home with all his characteristic cunning and artistic craftiness.

A diamond revealed on the slender hand of a fair maiden told the story to her classmates and friends when, a few days ago, Kathryn Hanawalt casually disclosed the secret to all in LaVerne College.

The romance began a couple of years ago when Miss Hanawalt was a student in Bonita High School and Mr. Crites was a Freshman in La Verne College.

Does anyone know when the wedding bells ring? That is yet to be discovered, so they say.

Another whom Cupid claims for his own is Marguerite Teeter of Santa Ana, who was formerly a student of LaVerne College. She recently announced her engagement to James Corbet. The wedding is to be very soon.

Thus starts one of Don Miller's novels: "A small coupe drew up to the college and eleven passengers alighted."

Bride: How do you like the soup, dear? I got the recipe over the radio.
Ellis Colbuhn: I can taste the static.

Aileen Rothrock: Father, did you enjoy yourself when you were a freshman in college?

Pastor R: Did I? Why, those were the happiest years of my life!

Harvey Brubaker (showing his diploma to his father): Here's your receipt, pop.

Autumn

Queen Fall, in bright colors all arrayed,

Greets us on every hand
O'er all this happy land,
In gorgeous colors of every hue and shade.

Leaves of scarlet and brown,
Dancing in the breeze,
Fluttering from the trees,
To the earth are falling down.

Soon the trees all stripped will be,
Standing, smooth and grey,
Without a leaf for one to see—
Standing still all day.

R. Massey.

PERSONAL

Thursday evening, Oct. 6, Verda Brubaker and Ernie Carl took dinner with Mr. and Mrs. Bertram Betts at Pomona. Mrs. Betts is a sister of Mr. Carl.

The Misses Mary Platt and Ruth Gible spent the week-end at their home in Hemet.

May Chronister and Carl Rupert motored to Los Angeles Friday evening to see "Ben Hur."

Miss Erma Saladin spent the week-end in Pasadena.

Louis Huff, Neva Snell, Ellen Edmister, Jay Fyrock and Ivan Edmister attended the home-coming services at Covina Sunday.

Sad But True

"Who steals my purse steals trash."
—Shakespeare.

All is not gold that glitters.

Better not be at all than not to be noble.

Dee (by the sea): You little thought a week ago that you'd be sitting on a lovely seashore with a man then unknown to you.

Naomi M: Oh, yes, I did.

Dee: But, dear, you didn't know me then.

Naomi: Of course not, but I knew myself.

Presence of mind is greatly promoted by absence of body.

A sultan at odds with his harem Thought of a way he could scare 'em.

He caught him a mouse
Which he freed in the house,
Thus starting the first harem scare.

Olive Throne Honored by Seniors

On Sunday, October 9, members of the Senior Class and President and Mrs. Studebaker were guests at a surprise chicken dinner given by Mr. and Mrs. J. E. Throne at their home in Glendora in honor of the birthday of their daughter, Olive.

At 1:00 o'clock the innocent and unsuspecting Olive arrived at home with three Senior girls whom she had invited to spend the day with her. She entered the house only to find it gayly decked out in red and white and filled to overflowing with laughing Seniors. Those who were in on the fun will testify that she was not merely surprised but that she registered astonishment, wonder, amazement and all the rest of the surprise family in varying shades and degrees. When the excitement had calmed a bit, the guests found their places at jolly little tables adorned with red and white sweet peas, the class flowers, and miniature red pennants which waved from upright standards and bore the inscription, "LaVerne, '28." A most bounteous and delicious three-course dinner consisting of perfection salad, chicken with its numerous and savory accessories, and red and white ice cream and cake were served.

Enjoyable entertainment was provided during the course of the meal in the form of readings and music given by Eunice, Mary and Mina, talented members of the Throne family.

After dinner the class president, Merle Butterbaugh, presented the honor guest with a LaVerne College memory book as a gift from the Seniors to one of their most loyal and appreciated members. Olive asked each member of the class to autograph the book as a fitting initiation into its service of recording Senior memories.

The afternoon was whiled away with friendly chatter, picture-taking and games. The affair was a happy success and it is only to be hoped that the shock of the surprise will not scare the victim out of a year's growth. She cannot spare even an inch of her height.

Absent-minded history professor: "For the next lesson take the next 400 pages."

Class in unison lets out a very audible groan.

Voice from the rear: "Give me liberty or give me death."

Irate teacher: "Who said that?"

Another country heard from: "Patrick Henry."

Leopards Defeat Chaffey J. C.'s

The LaVerne Leopards came through with a win last Friday over the Chaffey J. C. team by an 18-0 score. The game was not without a great deal of ragged playing by both teams. There were numerous fumbles and several passes intercepted, two of which were responsible for LaVerne's touchdowns.

In the opening minutes of the first quarter it looked as though the Jaysees would score. LaVerne fumbled on their own 38-yard line with Chaffey recovering. By completing two or three passes the ball was placed on the LaVerne six-yard line. Here the LaVerne line tightened up and held the Chaffey team for downs and kicked out of danger. The rest of the first quarter the ball seesawed from one team to the other.

To start the second quarter the Jaysees attempted a pass on the Leopard 40-yard line. Boots intercepted and with a clear field before him ran 60 yards to a touchdown.

The other touchdowns came in the fourth quarter. With the ball on the LaVerne 49-yard line Chaffey attempted a pass. Brooks intercepted and ran 52 yards, making the second touchdown. Later in the fourth period the Leopards started a rally on their own 25-yard line. A pass, Shirk to Lehmer and then Shirk to Brooks netted the Leopards 37 yards gain. On an end around play Lehmer made first down on the Chaffey 20-yard line. Then punching the line brought the ball to the 2-yard line and on a fake play Brooks carried the ball across, making the score 18-0. The rest of the game was just a matter of passing the ball by both teams.

The game left much to be desired. LaVerne looked good at the art of breaking up passes and showed up well on end runs, but there must be a great deal of practice in hanging on to the ball before the Pomona game next Saturday.

Sports Snorts

Pomona defeated Caltech Saturday in a hard-fought contest, or perhaps one should say "Poke" Hartman did, for Poke was the whole show. He called signals, passed, punted and packed the ball almost perfectly for Coach Nixon's outfit. Merritt played well but was completely overshadowed by the new Pomona star, Poke Hartman. It is interesting to note that the L. A. Times shows much respect for the Leopards and expects a tough game Saturday when Pomona and LaVerne clash at Pomona.

The Frosh, the first ever to be in the Southern Conference from LaVerne, do battle with the Redlands Frosh this Friday afternoon at Redlands. The writer predicts a strong victory for our Frosh with no "ifs" or "ands."

The varsity squad attended the Pomona-Caltech game Saturday and got the dope on their opponents this Saturday at Pomona. They enjoyed a pleasurable afternoon, for it was a good game. Both coaches also attended.

From the games played, the San Diego "Wild Cats" have a formidable team, for they have defeated both Redlands and C. C. C. by large scores, but neither has a strong team, so no real dope can be "doped" on their team.

Whittier went down to defeat at the hands of U. C. L. A. fighting hard. U. C. L. A. has a good team and will be a strong contender for the championship this year.

The lineup:

LaVerne	Chaffey J. C.
Lehmer	LE..... Benson
Hartman	LT..... Farrell
Hollinger	LG..... Robertson
Carl	C..... Goetz
Brownsberger	RG..... Woodhead
Leonard	RT..... Hees
Vaniman	RE..... Wright
Brooks	Q..... Leech
Mahoney	LH..... Totman
Boots	RH..... Smallwood
Shirk	F..... Wilkinson

Score by quarters:

LaVerne	0	6	0	12	—18
Chaffey J. C.	0	0	0	0	—0

Substitutions—Too numerous to mention.

Mrs. Merritt says that we have religious freedom. She said, "Why, you can get out there in the street and yell, 'I'm an atheist, I'm an atheist,' and no one will bother you unless you disturb classes, then Dr. Hoover would stick his head out of the window and say, 'Tut, tut!'"

Wit is a dangerous weapon.

LaVerne to Tackle Pomona Varsity

Next Saturday, October 15, the Leopard Varsity pigskin toters will match brain and brawn with the representative squad of the neighboring school, Pomona College, on the Alumni Field at Claremont.

The Leopards have as a remembrance the 27-6 defeat that the Sage Hens administered to them last year. This will add impetus to the Orange and Green Squad and probably make the Blue and White squad a little "cocky."

The Pomona backfield is greatly bolstered by the addition of Colley and Hartman from the '26 Frosh squad. This backfield is not heavy but is one of the shiftiest in the conference. The Sagehen line, however, is lighter than last year's line, but they make up in effectiveness in their speed. The backfield of Merritt, Manildi, Hartman and Colby is the new "Four Horsemen" that the Leopards have to meet.

While the Pomona squad is in good shape, the Leopard squad is bewailing the fact that three first string men were out of the last game and may not be ready for the Saturday encounter. Wayne Bohn has been in bed with the "flu" but will probably be ready to play Saturday in order to give the Sagehens a seventy-yard run as he did last year. R. Mahoney will probably take Bohn's place if he is not able to play.

Harold Brownsberger, who holds down left end, has had a badly infected arm and will be greatly missed if he doesn't recuperate in time. Glen Vaniman has been broken in for Brownie's end.

The greatest casualty, however, is Ivan Betts, center. In practice last week Betts pulled a tendon in his hip and will probably be out of the Pomona game. Betts is both a good offensive and defensive player and will be greatly missed. Ernest Carl is the most fitting person to take his place. Dope points to a Leopard defeat, but dope doesn't win ball games.
