Splendid Program of Student Activities for 1931-32 Many New Conveniences and Sports to be added to Present Program

Horseback Riding and Hockey feature New Additions to Girls Sports

Mrs. Dorothy Merritt, Popular English Prof. to Direct Girls Athletics

Corrective Gymnastics to Be Offered Also Next Year

Perhaps the greatest changes for the better made in any one department are those in women's athletic and recreational activities, hockey and horseback riding being the features of an otherwise strong program to be directed by Prof. Dorothy Merritt.

The art of horseback riding and the handling of horses will be offered at a nominal cost of four dollars for ten weeks of instruction. Each semester will probably be divided into three ten week periods, so the girls will be able to transfer to other sports if they wish to do so part of the time," said Mrs. Merritt. She adds that it is possible that the horses may be had for more than an hour at a time for the same cost if enough girls take up the course.

A regular girls' hockey class or classes and perhaps an inter-collegiate team will be equipped by the college, at no small cost for next year. However, there will be no additional charge to the students, as the college will supply all the equipment.

Besides these two new sports, corrective gymnastics will be added to the present physical education program for girls.

(Continued on Page Four)

Assoc. Students Entered by Faculty

Hidden Talent Comes to Light

A very interesting program was presented by the faculty in the associated student body meeting Friday, May 8th.

The first part of the program was given to a skit of the play, "Clarence," which was presented by Chi Delta Chi Friday evening at 8 p. m. "Chuck" Manning in presenting the skit told the story of the play. The short presentation as the part of the story in which the "returned soldier" is being questioned.

The faculty program was introduced by Vera Hoover who gave a musical reading, "Just Her Way."

"Flossie," a reading which in itself was good, but being presented by Mrs. Merritt was better, was the next number.

Prof. Cullen and Prof. Travis next appeared on the stage. Prof. Cullen was carrying a large group of solos from which, after he had

Why LaVerne College Place occupied by our Alma Mater in Education

By Prof. Crawford F. Brubaker

What is the place of LaVerne College in education in Southern California? We believe that LaVerne College has a very definite contribution to make in the lives of the young people that few other schools can make. It has been said that Mark Hopkins on one end of a log and a student on the other end made a university. What else is needed. True, physical equipment and a loyal alumni are essential aids, but the mutual understanding and mental curiosity of a student and his professor make a college or university. It is this personal, intimate, understanding association of student and teacher that is one of the genuine contributions of LaVerne College.

Another advantage lies in student friendships which are possible in a small college. Here there is more unity and genuine friendships that last through life: you really learn to know each individual in the entire student body. It is a college community in which every student is a vital part and has a chance not only to get but to give. This spirit of creative democracy, this chance for every student to develop a well-rounded life, this opportunity for the average student makes LaVerne College students boosters for their college.

In addition to a broad, liberal curriculum, there are activities to suit the needs of every student: athletics, forensics, music, publications, student-commission government, religious activities, dramatics, social activities, and various clubs.

LaVerne College makes a distinctive contribution in Christian Education. It offers every student the privilege of coming in contact with the philosophy of the Christ which makes all education meaningful—the greatest force for good in the whole world.

A student in LaVerne College has the opportunity of developing scholarship, religion, physical mastery, and social attitudes. How full of meaning, how delightful, how enjoyable does life become when such a well-rounded cultural education has been received! Then, and only then, has one become educationally mature.

Cheer up, Einstein flunked in math.

	Monday—Orchestra practice.

Seniors Celebrate Traditional Step-out Day, Thursday, May 7

Fifty-three Make-up Largest Graduating Class in History of the College

Annual Senior "step out" day occurred Thursday, May 7, during chapel period.

Taking the student body more or less by surprise, the Seniors filed down the aisle to take their places on the stage to the tune of a march played by Professor Travis.

The seniors, dressed in traditional caps and gowns, forced the rest of the student body to admit that this class is an honor to LaVerne College.

Doyle Montz sang a solo at the opening of the program. Devotions were led by Glenn Harmon, and then Orville Thomason, as Senior president, said a few words. President Studebaker also spoke to the Seniors and student body in commendation of the class. The Senior song was then sung and the seniors (not quite so solemnly) filed out at a little more rapid rate of speed.

There are fifty in the class, the largest number which has ever been graduated at one time.

Frosh Men Take Two Debates

Chance for Frosh Conference Championship

Thursday evening both Freshman debate teams came through victorious. These two wins certainly helped the percentage, which is now .750. Caltech was the loser in both contests. Fred Butterbaugh and Robert Walker met Caltech's negative team on the home platform and completely out-debated them from start to finish. Fred and Bob certainly profited by the Redlands debate, as is seen by last night's work.

Aubrey Calvert and Royal Glick won hands down from Caltech's affirmative team at Caltech. According to reports, various and sundry events happened to keep the debate from becoming too

(Continued on Page Four)

LAVERNE HOLDS HIGH STANDARDS IN FORENSIC ACTIVITIES

Mens Debate Championship Tie Last Year: Men and Women's Teams Both Second This Year

Athletics is not the only thing that can put L. V. C. on the map. If you just take a squint at the forensic winnings for the last two years you can plainly see that debate can do its share as well.

For instance, last year's men's varsity tied with Redlands for first place and this year's varsity tied with Whittier for second place, while the women's varsity scored second place by a victory over U. C. L. A. Furthermore, the Frosh men's debate team came back with three wins out of four encounters to their credit.

The purpose in putting these facts before you is not to brag, but to show by conclusive evidence that LaVerne College does have an A1 forensics department with an able and energetic director, Prof.

Crawford Brubaker, whose popularity as a judge at numerous prominent tournaments stands as a proof of his capability. Just last week Professor Brubaker was asked to judge at the Junior College Forensic Tournament, consisting of debate, extempore speeches, and oratory which was held at Redlands University, and three weeks ago he acted as judge at the California Province Convention of Phi Kappa Delta, a national forensics fraternity, to which four California universities belong: Redlands, University of the Pacific at Stockton; Caltech, and U. C. L. A.

With this kind of a director and a fine group of veteran and recruit debaters on hand for next season, there is no reason why L. V. C. should not have a prize winning debate department in 1931-32.

Regular Golf, Track and Swimming Teams Represent L. V. Next Year

Handball Court, 220 yd. Dash Straight-away and Jumping Pits to be Added

LaVerne Has a High Scholastic Standing

Large Variety of Courses Offered in Many Fields

The scholastic standing of LaVerne College is excellent, the school being accredited by some of the most outstanding universities on the Pacific Coast. The institution holds membership in the Pacific Coast and National Associations of Collegiate Registrars, the Association of Colleges and Universities of the Pacific Southwest, the Western Association of Colleges and Secondary Schools, and the Association of American Colleges. The school is also accredited by the State Board of Education for the training of elementary and junior high school teachers.

There are splendid opportunities for those interested in a liberal arts education, leading to the Bachelor of Arts degree, there being a splendid range of subjects in the following fields: Botany, Chemistry, Education, English, French, German, History, Mathematics, Music, including both theoretical and applied; Philosophy, Physics, Political Science, Religious Education and Bible, Sociology, Spanish, Speech, and Zoology. Students who are interested in the teaching profession should observe that those who have fulfilled the requirements of the college for the Bachelor of Arts degree, having majored in education, are eligible for the Elementary or Junior High School Credential. Those who desire to become teachers in the secondary schools may

Herbarium is Presented to LaVerne College

Mrs. J. Lengington Gives Lifetime Collection

Mrs. Julia Lengington of Pomona recently gave LaVerne College a herbarium which she has spent a lifetime in assembling. This collection represents a life of interest in plants on the part of Mrs. Lengington. The earlier ones are from the New England States, principally New York. There is a collection from Indiana and an exchange collection from Nebraska. Near Dallas, Texas, another collection was added including a collection of grasses of that locality. Probably the larger proportion is of California plants connected by

(Continued on Page Four)

OUTLOOK BRIGHT FOR 1932 FOOTBALL TEAM

The school year 1931-32 will see several changes and much progress in all athletic activities at LaVerne College. Taking football as a basis of all college athletics, L. V. C. is looking forward to her most successful season in many years. With practically all of this year's championship freshman team turning, several Jaycee transfers who have signified their intention of coming to LaVerne, and the turn of six of last year's lettermen and of several lettermen who have been out of school for a year, Leopards will be enabled to place a representative team on the field. With this wealth of material and Coach Lee Eisan coaching the second year at LaVerne, the team will be one of the largest and strongest in the conference and one which will make a name for itself in a sport which has been at a low ebb in our institution for long time.

Although the entire first team graduating this year, the basketball outlook is far from being dark and dreary next season. Five lettermen are returning and several C. basketballers as well as the turning frosh team (which finished second in the conference this season) will insure Leopard followers of a good strong team next year. The team will be better versed in the Eisan system of play because of the strong foundation already has from last year, which

(Continued on Page Four)

Former Prof. Speaks in Chapel

"Adult Education" was the subject of the chapel address by Mr. Ralph Detter Tuesday, May 5.

Mr. Detter, who taught in LaVerne twenty years ago, is now principal of the Polytechnic Institute and Evening School in Los Angeles. This is a fully accredited high school for adults, offering many worth while courses, so for credit and some of a liberal nature. A class of 120 adults will be graduated from the Polytechnic high school this year.

The advance of adult education in California was received, and point stressed that children have no monopoly on learning. Thorndike discovered the high point of the learning curve to be from 20 to 25 years, and people as adolescents. This discovery from 30 to 35 years may learn every gave an added impetus to adult education.

THE AIM OF LAVERNE COLLEGE

LaVerne College was founded primarily for the purpose of providing worthy young men and young women an opportunity to obtain a Christian education. No sectarian tests are required for admission to any department of the college and the institution is open to all persons of good moral character whose scholastic standing will admit them to the various departments.

A high standard of scholarship is maintained and due recognition is given to the value of the religious element in education.

It is the aim of the college to prepare for the largest service possible. Nobility of character, a proper evaluation of the individual, and an understanding of one's relation to society and to the church are ideals set forth in the arrangement of the courses of study, the instruction, and the spirit of the college.

What LaVerne College stands for is well expressed by William DeWitt Hyde:

"To be at home in all lands and ages; to count nature a familiar acquaintance and art an intimate friend; to gain a standard for the appreciation of other men's work and the criticism of your own; to carry the key of the world's library in your pocket, and feel its resources behind you in whatever task you undertake; to make hosts of friends among the men of your own age who are to be leaders in all walks of life; to lose yourself in generous enthusiasm and co-operate with others for common ends; to learn manners from students who are gentlemen and form character under professors who are Christians—this is the offer of the college for the best four years of your life."

Ellis M. Studebaker, President LaVerne College.

LaVerne is Located in Ideal Spot

Situated Among Orange Groves near Mountains

The city of LaVerne, in which LaVerne College is located, is a thriving town with a population of about 3,000. It has an altitude of about 1075 feet above sea level. Three miles to the north are the Sierra Madre mountains which, in successive ranges, rise to the height of 10,000 feet in Mount San Antonio, commonly called "Old Baldy," because it is snowcapped during the winter and crowned with white rock during the summer. The balmy climate, surpassed by no other citrus region in the state, is a constant invitation to tourists to spend the winter months here. Home builders, moreover, are coming to our city because it provides ideal opportunities for the

Miss Muir (during history): "The people of India pushed the English out."

Stupid Frosh: "Where did the Indians push them to? The ocean?"

ORCHESTRA GETS IDEAS ON DISCIPLINE

Walker Reports on Symphony Orchestra

"Bob" Walker gave a very interesting and helpful talk last Monday evening at orchestra practice. The report centered around the discipline of the massed symphony orchestra, which he attended in Santa Barbara a short time ago. He explained how, by a short talk at the assembling of the members, the director obtained almost perfect order from a group of almost one hundred students. At orchestra practices, in a school organization it is quite unusual, as all musicians know, to have quiet and co-operation—but more unusual to have absolutely no talking or disturbance between numbers.

A Human Interest Story

Grasping at straws, stray balloons, and feathers, in fact anything to save him, a young man from a serious and embarrassing position.

The young man, a student and cub reporter, had been detailed to secure a special human interest story. In vain had he hunted for newsy news of some heroic little dog or some small boy who had plugged the sink with his chubby hand so his little brother could sail his boat. In fact, anything which had the semblance of the qualities that would arouse one's sympathy, humor, interest, or even dandruff was as scarce as the old-fashioned girl. He even looked through the college library, but still no trace of the sought-for story. In desperation he began to do some plain and fancy thinking. As he began to embroidery his thoughts this little bit of fancy crept out of a remote corner of his hat box. Here is the little trick which saved his life and apple-sauce. He discovered how to tell you of his predicament and how he saved himself. Thank you.

PERSONAL OPINION

To whom it should go is unknown to most of us, but certainly an expression of appreciation is due someone for the many beautiful flowers which have added to the enjoyment of our chapel services since the Campus Clean-up Day. A number of students have remarked about it, and have felt that our school paper ought to make mention of the fact. Recognition should be given to those who do the little things to make life more enjoyable as well as those who do the big things.

To the Freshman class of LaVerne College: Let me take the liberty, or privilege (whichever it be), to speak for my class in regard to the nice party at Laguna Beach, which you planned for us.

I'm sure that all of us appreciated the invitation and the trouble your class went to in planning a good time for us. But there are always two sides to every situation, so please consider the other side before blaming us too severely for not being more whole-hearted in accepting the good time offered us, free without the asking.

Well, here are a few things to justify our side. First of all, some of our number have regular Saturday work which eliminates the possibility of their attendance, for you will agree with me that some students in L. V. C. cannot afford to sacrifice four or five dollars for the sake of a beach party or any other kind of a party.

Then, it seems to me, that our "return" party was greatly belated—why did you wait until the last month of school, when the school calendar is quite full enough, while you could just as easily have planned it earlier in the year. A school night would have done just as well as Saturday, too.

If your memory functions, you will recall that last week-end was the County C. E. convention to which some of your own class went. The spry Student Volunteer Conference of Southern California also was in session at Redlands University.

The question of "loyalties" has been quite prominent in the minds of L. V. C. students for some time, especially since "Dad" Elliot was here. Perhaps we have said, or simply thought, that students have not been loyal to the LaVerne spirit when they chose to attend a debate, a lecture, or a religious conference rather than an exclusively social gathering at school. In such a case it is well to remember that there is a certain "loyalty" above all other loyalties, to which each must be true, if he would be true to the real spirit of LaVerne College. I distinctly remember hearing "Dad" Elliot speak at length in one of his talks to us on this very thing. I have wondered several times whether this highest loyalty has been ignored by some of our staff who have so earnestly stressed certain loyalties to be observed by our students, and thus make for social unity on our campus.

I doubt whether there is anyone who enjoys a basket ball game more thoroughly, or is more eager to participate in and back class affairs, than I am. But there are times when these must give place to something which will ultimately bring the greatest good in my humble endeavors to fulfill my task in this great world and leave it a little better place because I have lived. And I am confident that the days which I will have spent in L. V. C. will help "guide" me to be true to that for which our "L" on the mountain stands.

In all sincerity to my "younger brothers" of the Freshman class,

A Loyal Junior.

Cy Nical Comments

It's too bad, Cy Nical, but your identity has to be revealed. You ought to be glad, though, because now you can receive all of those handshakes and slaps on the back that people have been wanting to give you for the fun they got out of your column. But on the other hand, maybe you should be sorry, for I wouldn't be surprised if there

were a few around who are holding a secret grudge at you for some of the things you have said.

Anyhow, you always filed your space and with something different every time. Your contribution has not only been a source of amusement, but it has also showed up some habits and practices around school that needed to be talked about and brought to the public attention.

And now, folks, I take great pleasure in introducing to you "Chuck" Manning, alias Cy Nical.

Faculty Entertains Stud.

(Continued from Page One)

conquered his fright, he selected one and sang it. He said that the faculty had requested "How Are You Going to Wet Your Whistle When the Whole Darn River Is Dry?" but instead he would sing, "Down by the Rolling Sea." The request was a modern classic of 1930. He was accompanied by Prof. Ralph R. Travis. In appreciation of his lovely contribution, or, I might say solo—Lee Eisan presented Prof. Cullen "with a few flowers," which were sent by the faithful faculty. But that wasn't his only gift. The students so enjoyed it all that they threw pennies to him, and one generous soul a nickel!

The next number was a debate between Prof. Brandt and Lee Eisan. Prof. Brandt, being the first speaker, took the affirmative side although he had no subject, due to Prof. Hollenberg's negligence. He said that the affirmative side was the right side because the negative side would be the direct opposite. "It isn't wise to be negative in character nor personality, so, since the affirmative is correct, I am right."

Lee Eisan, being negative, did not speak at all because he would be affirmative if he spoke; so, remaining silent, he won the debate.

Announcements

Leslie DeHart announced that the one semester students will have to pay \$1.25 for their annuals this year.

The athletic sweaters are in the city and will be here in a short time, so all those who have ordered them are to pay up immediately.

"The Book Store will have a sale of felt goods soon, and the prices will be reduced nearly half. Come down and buy that pennant you so much wanted!"

A request has been made that all those students owing bills at the Student Store pay up! Please!

"Tad" Davis presented seven young athletes with ribbons to reward them for their success in the Lambda athletic show held several weeks ago. Thanks to the boys, and also to the student body, for their co-operation. Plans are being made for a bigger and better show next year.

STAFF MEETING THIS WED. AT 10:25

Chuck Manning and Harry Thomas Recommended As 1931-32 Leaders

At a Campus Times staff meeting last Wednesday plans were made for the last three editions of the Campus Times for the school year, the present edition to be a poster publication, the next to feature the Junior class, and the last to be devoted to the Seniors.

This recommendation along with another one recommending Harry Thomas for the 1931-32 Campus Times business manager was given to the Commission. Action will be taken by the Commission on these recommendations this week.

The possibilities for an editor for the Campus Times of next year were presented and discussed. Following the discussion the staff unanimously recommended "Chuck" Manning as the surest bet.

The staff meeting for next Wednesday is to be the last one of the year, so let every member be in the Campus Times room on the dot at 10:25.

RARE VOLUMES ADDED TO LIBRARY

Rev. Dickey Donates Two Valuable Tomes

A book 129 years old, yet remarkably preserved and perfectly legible, has recently been added to the LaVerne College Library, the gift of the Rev. J. P. Dickey, pastor of the Church of the Brethren at Hemet, California. This rare and valuable old book is a volume of the Methodist Magazine for the year 1802, printed in Dublin, Ireland. Can you imagine someone yearly cutting leather covers and cardboard, pasting, sewing, and binding thus by hand, volume after volume? What has been the history of this book as it has been handed down from generation to generation? An exceedingly interesting commentary of the religious atmosphere of nearly a century and a half ago is suggested in the title page in the words "consisting chiefly of extracts and original treatises on general redemption." Of special interest to students of American history and literature are the accounts of the life and beliefs of Dr. Cotton Mather, and the description of Niagara Falls. LaVerne College is indeed fortunate in securing such a relic of an age that is gone.

Another volume of historical value presented by Reverend is a German Mennonite Song Book which was published at Lancaster, Pennsylvania, in 1848. This book is a later edition of the first German Song Book for the Mennonite church which was published in (Continued on Page Four)

STUDENT SOCIAL LIFE

LUMNI NOOS

Mrs. Hazel Studebaker Frantz, Mrs. Elva Shirk Brooks and Miss Alberta Maust gave a surprise dinner party shower for Miss Florence Long at the home of Mr. and Mrs. Russell Frantz Saturday evening. The table was beautifully decorated in the silver moon motif and the favors were decorated with tiny silver moons and a tiny lily of the valley spray with a bit of tulle.

A three course dinner preceded the presenting of gifts to Miss Long, bride-to-be, which proved to be most beautiful.

Those present who are members of the alumni were Verda Brubaker Carl, Helen Frantz, Harriet Woody Butterbaugh, Doris Welch Yoder, Ruth Wilkinson Lehmer, Cathryn and Aileen Rothrock, Verna Shirk Brownsberger, Olive Shark Bohn, Miriam Shirk Betts, Maurine Miller King, Pauline Miller Brooks, Eleanor Houdyshel Brooks, and Miss Wilma Long.

BEULAH EIKENBERRY IS HONORED BY SHOWER

BRIDE-TO-BE RECEIVES PLEASANT SURPRISE

Beulah Eikenberry, a bride-to-be in June, was pleasantly surprised last Tuesday by a linen shower at the home of her aunt, Mrs. J. R. Smith. Miss Eikenberry is to marry Charles Jordan of Wenatchee, Washington, in June, and a group of college friends arranged the shower for her.

All the girls had assembled when Miss Eikenberry arrived. She had donned her wedding dress and was interested in showing her aunt when the girls rushed in on her.

The evening was spent in embroidering dish towels for the bride-to-be. Many beautiful gifts were showered on her.

Refreshments of sandwiches, orange-ade, salad, potato chips and

NEWSETTES

Miriam Dickey was a guest at a fraternity dinner at the Roosevelt Hotel in Hollywood Saturday evening.

Glenn Vaniman spent the weekend in LaVerne. Esther Dickey and Glenn went to Long Beach Saturday. "A good time was had by all."

Jerry Deal had dinner in Pomona Sunday at the home of Edna Brubaker.

Beth Masterson and Naomi Whipple spent Saturday in Los Angeles—on business.

Adella Rogers and Gladys Ikenberry "baked" at Baldy Sunday. They say it was rather warm up there.

The Aeolian Quartet gave a program in the Church of the Brethren at Hermosa Beach Sunday evening.

Mildred Brubaker and the Calvert Brothers spent the week end at the home of the latter's parents in McFarland.

I rose and gave her my seat—
I could not see her stand;
She made me think of mother and
The strap she held in her hand.

Let off your excess steam in the Personal Opinion column vent right away!

Ice cream and cookies were served. Those enjoying the evening were Beulah Eikenberry, Geneva Suttle, Grace Gockley, Virginia Stern, Hazzel Barnhart, Mrs. Laura E. Haugh, Mrs. Beulah Brubaker, Evelyn Edmister, Grace Gans, Dortha Gans, Mary Holinger, Evelyn Deardorff, Arnelia Brubaker, Marie Pobst, Frances Saylor and Mrs. Smith.

CLARENCE MAKES BIG HIT AT FRIDAY PRESENTATION

Chi Delta Chi Deserves Praise for Splendid Production as Lambda Benefit

Tarkington Comedy is Well Attended

"Clarence," a rollicking comedy written by Booth Tarkington, and staged by Chi Delta Chi on Friday evening, May 8, was a wow!

Booth Tarkington is one of the most popular and one of America's greatest comedy playwrights, and Chi Delta Chi contains some of the finest college players, so these two elements worked together in furnishing a wonderful evening's entertainment. The play was well attended and well received.

Kenneth Deardorff, playing the role of the mysterious Clarence, the ex-soldier who could drive mules without having to "learn" to swear, was easily the star of the play. His ability to act extremely dumb when the time came, and extremely intelligent when the situation reversed, showed rare ability, and added many good sound laughs to the play.

Playing opposite him was the young governess of the Wheeler household, Violet Pinney, who added to the complications of the play and was the one who finally revealed the identity of Clarence. This part was beautifully portrayed by Frances Bishop.

Mr. Wheeler, a big business man, and the head of an almost uncontrollable family, was portrayed by Doyle Montz, and the part of his suspicious wife was played by Eleanor Shepp.

Two lovable kids in the Wheeler family, Cora and Bobby, were very cleverly played by Ruth Rothrock and Orlin Vaniman. These two kept the audience in laughter constantly with their silly episodes and exclamations, such as "Oh, Clarence," and "Aw, blub."

Hubert Stem, the grass widower, friend of Cora and enemy of Clarence, was played by Jerry Deal. The part of the housemaid, Della, and that of Dinwiddie, the butler, were played in unique way by Ruth Gibbel and Dan Stover.

This play is the first large production presented by Chi Delta Chi and the ability shown in this production is a fine representation of the talent of the club. Miss Beth Masterson coached the play and a great deal of the credit goes to her. Charles Manning served as an efficient stage manager and the advertising was cared for by Leslie DeHart, business manager of the Lambda.

This play was staged by the drama club for the benefit of the Lambda.

SUNDAY SCHOOL CLASS STAGES SOCIAL

Proceeds to Pay for Rug

The Freshman-Sophomore Sunday School class held a class party, in the form of a box social, at the Faculty Cabin, Tuesday evening, May 5.

Each girl made a lovely box decorated with crepe paper which she filled with the most appetizing eats, and each boy filled his pockets with pennies.

The first part of the evening was spent in playing games, contesting by chopping wood, and hunting for a lost watch. Ed Cunningham, the auctioneer, did his best to pull every penny out of the pockets of the boys. Considering all, quite a few pennies were collected. This money is to go to pay for the rug in the Sunday School class room.

After the delightful lunch from the beautiful box, and the thrill of having lunch with the creator of that precious box (or of the gallant hero who paid—well, so much for your box), and the sipping of coffee, more fun began. The rest of the evening was spent in snappy singing, readings, quartet numbers, a solo, and stunts (including pulling a Ford out of the ditch).

About ten o'clock the group of about forty, happy and still well pleased, made their way home, resolving to have another such party next year.

The group still has about eighty-five dollars to raise, which will be paid by pledges and regular collections. The class is growing,

MISCELLANEOUS PROGRAM IN Y. W.

CABINET REPORTS ON CONFERENCE

A prayer song was sung by the Sunshine Quartet in Y. W. Monday morning. Willie Long gave a reading. A report of the conference at U. C. L. A. was given by LaVonne Putnam and Mary Holinger.

Frankie Sandblom gave a talk in which she mentioned that there should be more discussions in "Y" meetings. Also, new girls should be put to work and in this way they would become more interested. In Mildred Smith's address, she mentioned that the Y. W. should be published thru contact around the school.

The cabinet acted out a song that they had gotten at U. C. L. A. at the conference.

LaVonne Putnam made an announcement about Asilomar, telling about the expenses, etc.

Frances Nix reminded the girls of the Hi-Jinks to be held in the gym next Tuesday evening.

Myrtice Butterbaugh led the group in singing Y. W. songs.

Y. W. C. A. JINKS TUES. NITE IN GYM

The Y. W. C. A. cabinet met Tuesday, May 5, at 3:45, to plan for the coming Hi-Jinks which is to be the peppiest affair that organization has yet staged. Means of advertising were discussed, so that as large a number of girls will turn out as possible. Plans are being made for a big turn-out to the affair.

Just to remind you—everyone is to come decked out in a costume of some sort. Be sure and dress originally, because a prize or two is in store. The fun will begin at 7:30. Every one (of the girls) be on hand Tuesday, May 12, in the gym for an evening of fun!

Broad Expansion Program Planned

Will Mean Expenditure of One Million Dollars

The expansion plan of the college for the next several years includes the following: The addition of a \$500,000 endowment; the erection of the following buildings: the third wing to Founders Hall, a library building, a science hall, fine arts building, a rooming house for men; the addition of equipment in the form of laboratory apparatus and library books as the demand requires; the increase of the student body as the facilities permit to the limit of 500. This expansion program will require the expenditure of more than \$1,000,000.

ENGAGEMENT OF GENEVIE PAGE AND CECIL JORDAN ANNOUNCED

At a bridge party given by Miss Mina Shirk at the home of Mrs. Ivan F. Betts, Tuesday evening, May 5th, the engagement of Miss Genevieve Page to Mr. Cecil Jordan was announced.

During the game a card was played at each table which revealed the secret.

At the end of a pleasant evening refreshments of ice cream, molded in the form of an engagement ring, angel food cake and coffee were served. Dainty favors of orange blossoms made of candy wrapped in cellophane decorated each place.

Those present were Mesdames R. R. Cullen, Rhea Patterson, Joyce Jones, Margaret Kelley, Lena Belle Sickel, Clara Vaniman, Letha Brock, Miriam Betts, Misses Ruth Price, Maybelle Moore, Mina Shirk, Genevieve Page.

Mrs. Merritt: "Frances, have you red 'Freckles?'"

Frances Nix: "No, mine are brown."

and has keen, snappy Sunday school lessons directed by a peppy teacher, George Hollenberg, and it wishes to extend a hearty invitation and welcome to any Freshman or Sophomore not in regular attendance.

Mr. Kuns: "Has the young man who has been calling on you given you any encouragement?"

Opan Kuns: "O, yes, father. Last night he asked me if you and mother were pleasant to live with."

Ony Leonard (in Phil. of Ed.): "Why do people get sick when crossing the English channel? Is it particularly rough all the time?"

Prof. Sarafian: "Of course it is rough all the time; everybody knows that!"

La Verne is Entering Swim Meet

Jones, Maley and Calvert in Conf. Meet Saturday

LaVerne College will be represented in the Southern California intercollegiate swimming meet May 28, at Glendale.

Jones, Calvert and Maley have so far indicated their desire to enter the meet. This is the first year that LaVerne has entered the swimming contest, and no record-breaking is anticipated on the part of the Leopards.

Jones may do the unexpected and come through with two firsts, and also two seconds. Jones was the star sprinter while at junior college and high school. He is topped by the leading aquatic stars to take a second in the 440 and probably a first in the 50 yard dash.

Calvert will also enter the dashes while Maley will enter the plunge and 440.

Jones should come through in the 440 as the record is 5:6 and he can better this mark if he has competition. Pomona College and Redlands will pres Jones, and much competition is being expected.

School to Have New Facilities

(Continued from Page One)

The second team was developed with next season in view.

There will be seven baseball lettermen returning for duty as a nucleus for Coach Glick to build a team around. Several lettermen of former years are returning, and also several J. C. men will be on hand. There was no frosh baseball team this year, but there are some former high school stars among the present frosh who are very proficient in the art of baseballing who will do much to raise the Orange and Green baseball standard.

LaVerne will be represented for the first time in its history by an organized track team. The present frosh team, several varsity men, and jaysee trackmen will form the basis of the track team next season.

The track is to be reconditioned, and a 220 yard straightaway will be a big advantage of the track next year. Jumping and vaulting pits will be constructed and are to be among the best. Taken as a whole the track and field activities are to be the most improved of any athletic activity in school.

Also for the first time in its history LaVerne is to have regular organized swimming and golf teams to represent the Orange and Green in these sports.

New handball courts are to be installed this summer for those who are handball enthusiasts. The shower and locker rooms are to be planted on the football field, making it one of the best playing fields in the conference. Taking all in all, the athletic activities and facilities of L. V. C. are being expanded and 1931-32 will, without a doubt be a banner year for all sports.

Scholastic Standing Told

(Continued from Page One)

To their four years foundation work at LaVerne and fulfill the undergraduate preparation for this field. Then, too, complete pre-medical work as well as excellent preparation for other professional fields may be had while pursuing a college education at LaVerne.

Frosh Take Two Debates

(Continued from Page One)

With these wins the fellows are all fired with enthusiasm and are preparing to tell Whittier where to get off next Thursday, which will end the season. If both teams win

SCRIMMAGE WITH SENIORS ENDS SPRING FOOTBALL PRACTICE

Varsity Looks Good in Practice Finale

Spring football practice ended with a scrimmage between the Senior "has-beens" and allies against the 1931-32 varsity as the grand finale last Friday on the Bonita High turf.

Due to the complexity of the little fray, the writer can hardly say which would have won in a real game with Coaches Eisan and Glick playing with the Seniors. However, it did look like the 1931-32 varsity is going to be much more powerful than any team in LaVerne's history. They showed this in the scrimmage time after time with their many touchdown plays. This does not belittle the Seniors, however, as they made several nice gains.

Since the writer has the opportunity, he will caution LaVerne students and fans a little regarding the 1931-32 football season.

There is no doubt that we will have a good team next year; but many fans are expecting too much. They seem to think that because LaVerne will have a strong team, Eisan's men should take the championship. This is unfair to both Coaches Eisan and Glick and to the men; for even if they did this, they would get more "I told you so's" than anything else.

Just get behind the team, boost for one or two conference wins and low scores in the other games. If they do better, we'll be able to shout about it.

Mrs. Merritt Directs Girls

(Continued from Page One)

Basketball, speedball, baseball, volley ball, swimming and tennis make up the remainder of the 1931-32 girls' athletic program.

Always of interest is the type of leader that will direct an activity, and especially is this true in the case of Prof. Dorothy Merritt. In her, the women students will have as snappy and inspiring a leader as can be found in the conference which is clearly shown by her popularity on the campus as an English professor. Also, she has the ability, knowledge, and the initiative to carry out a splendid program. Prof. Dorothy Merritt, wife of Coach "Fuzz" Merritt of Pomona College, has taken many hours of graduate work in the field of physical education and will head the girls in an attractive and varied program of sports next year.

Dickey Gives Rare Books

(Continued from Page Three)

America, this edition being entered according to the act of Congress in the year 1841. The binding is attractive and durable, being of pigskin. The covers are held together by the old type of clasp of leather and copper. The songs are taken from the Psalms and music suitable for chanting is set to them. They are unique, having numbers suitable for the following occasions: Easter, Pentecost, Penitence and Belief, Crucifixion, Mercy of God, and comfort in the sufferings of Christ.

from Whittier, the chances are that LaVerne will win the Frosh championship.

Punting Contest Held Thursday

Calvert and Forney Take 1st and 2nd; Contest to be Annual Event

The first Annual Punting Trophy Contest was held on Arnett Field last Thursday afternoon under the direction of Coach Lee Eisan.

First place was taken by E. Calvert with an average of 53 yards per kick and a 55 yard boot from the line of scrimmage for the longest one of the day. This netted Calvert a total of 116 points and the honor of being the first to have his name put on the new perpetual trophy.

Max Forney, halfback on the 1930 Leopard team, took second honors with a total of 108 digits. Forney averaged 50 yards per boot and put one out 54 yards for his longest one.

Brooks was third in the contest with a 94 point total, and Eshelman, Montgomery, and Jones placed fourth, fifth and sixth respectively.

Two points were given for each yard over the 25 yard mark for the longest kick, and the average kick, each having equal weight.

Mrs. Lengington Gift

(Continued from Page One)

Mrs. Lenington since her arrival in California in 1915. This includes plants from the Coachella Valley and from Yosemite as well as local specimens. The Yosemite collection was made by Mrs. Heath, daughter of Mrs. Lenington, with whom the latter is living. There is also a collection of mosses. This herbarium is a splendid addition to the department of botany and is highly appreciated by the institution.

Former Professor Speaks

(Continued from Page One)

education. "Last year there were more adults in educational circles than there were pupils in the junior and senior high schools together." Mr. Detter said, "If we assume the attitude of quitting learning, we are out of date, and not abreast of the times."

In Los Angeles this year there are thirty-two evening schools offering a wide range of subjects for adults. There are also many branch schools. Two hundred and twenty branch special day classes are in operation, offering courses largely in home economics for mothers who cannot attend the evening schools, and yet desire to learn.

Many adults also take correspondence courses to complete high school training or learn a vocation. There is no limit to the subjects that may be offered adults. Whenever sufficient interest is manifested in a certain field, a class is formed. Some of the latest of these are classes in the theory of television and of radio.

In conclusion, Mr. Detter stated that real progress comes by adults passing on to the next generation what they have learned in adulthood.

ENGINEERS WRECK LEOPARD NINE

Final Score is 6-1 Weybright Star at Bat

The Leopard horsehiders met the Caltech Engineers last Saturday afternoon and the result of the meet was a victory for the Tech men. The LaVerne men showed a good brand of ball at times, especially featured in Thomason's chucking. With the exception of one bad inning, Tommy pitched a real game. With several free passes to first base and several untimely errors, a cinch victory was turned into defeat. In the fifth inning, Thomason retired the side with three strike-outs and in two other cases he stopped two men in one inning. In short,, Tommy pitched a real game and he deserved to win.

The scoring of the day was started when Weybright came to bat in the second inning and clouted a home run. Although the Leopards threatened to score several times later on in the tussle, this resulted in the only run. Perhaps the greatest threat of the day was in the third inning when DeHart doubled to center field and went home on two overthrows by the outfielders. However, in rounding third base he failed to touch the bag and he was called out. The Leopards threatened to score again in the fifth and seventh innings when they had two men in scoring position and one man out. However, it seemed that the boys couldn't hit in a pinch and the side was retired.

The hitting of the day was featured by Weybright, who collected three hits out of four times at the plate, including one home run. The pitching of Wineland was commendable, allowing only six hits and keeping these well scattered. Thomason also allowed only six hits but being well connected by errors, each hit tallied a run.

The box score

LaVerne	AB	R	H	O	A	E
Howell, ss	4	0	1	0	2	0
Jones, lf	3	0	0	0	0	0
Thomason, p	4	0	1	0	1	1

LEOPARDS WIN IN PRACTICE TILT

After a ten-day vacation, the baseball team came back with a bang to beat the Citrus High team. Maybe it was the vacation, but for the first time this year the boys connected with the old apple like a team should. Citrus used three pitchers in the contest just to keep things interesting. The fielding was not so hot, but this can be improved with a little practice, and will be during the next week in preparation for the last conference games. Home runs seemed to be plentiful as the Leopards collected three in one inning. Hubbell started things and cleaned the bases with one on. Forney was next man up and duplicated the trick. Howell followed shortly afterward and cleared the bases again. Let's hope that this means something in the way of a change in scores for conference games.

Box score:

LaVerne	AB	R	H	O	A	E
Howell	4	1	1	2	3	2
Jones	4	1	1	1	0	0
Thomason	3	1	1	0	1	0
Weybright	2	1	1	4	1	0
Bessey	3	1	0	0	2	0
Hubbell	4	1	1	1	0	0
Forney	3	2	1	10	0	0
Deal	2	0	0	1	0	0
DeHart	2	1	1	2	2	0
Ferree	0	1	0	0	0	0

WEBSTER

Pulled This One

CLOTHES...Covering for the human body; whatever covering is worn, or is made to be worn, for decency or comfort.

Now far be it from us to argue with Old Man Webster; he was right...as far as he went. But if Webster were alive today he'd hafta change that definition...especially after taking a peek in the Campus Room. Boy, oh Boy...he'd need *pages* to describe what "clothes" are, after that. And even a whole chapter in the old dictionary wouldn't completely cover the subject...you just hafta barge in and look around for yourself.
