VARSITY TRACK MEN WIN THREE WAY TRACK MEET

LaVerne Tracksters Total 70 2-3
Points Against Pomona 61 1-3
and Pomona Novice 23

Last Thursday afternoon, at Pomona College track, LaVerne won the three-way meet with Pomona Junior College and Pomona College Novice. The winners totaled 70 2-3 points, to 61 1-3 points for the Jasons and 23 points for the novice team.

"Bud" Grady of Pomona Jasons led the scoring of the day with three first places, taking them in the 100 yard dash, the low and the high hurdles. Max Forney came second with 10 points, taking first in the discus and the shot.

LaVerne was out-pointed in the track events, getting 33 2-3 points to the Jasons' 40 points. In the field events the Leopards took 33 2-3 points to the Jasons' 24 1-3.

Although the various times and marks were not outstanding, the event produced several close contests. Jones of LaVerne took second in the 100, first in the 220, and third in the 440 yard dash, and the low hurdles. The Leopards won the relay, with Pomona J. C. taking second. The

COMM. OF WELFARE EXPRESSES OPINION

"Commissioner of Welfare takes charge of all social activities of the school and is an ex-officio member of the Honor Spirit," says the Handbook.

"That job's a snap"—so says you. No, it isn't a snap. Commissioner of Welfare supervises all social functions. They appoint all committees and see that the work is done and then take the criticism that comes after the parties. There is one large banquet to supervise, to plan, to worry over, and to make finance come out even.

LaVerne has an Honor Spirit. The Commissioner of Welfare is a member of that. Honor spirit is one of the things that must go. One must conscientiously believe in the honor spirit and sacrifice all others things for that.

When you as student body vote for these officers, keep in mind what will be best for the student body and not whether they are your personal friends.

IN SYMPATHY

Both the faculty and student body of LaVerne College wish to extend their heartfelt sympathy to Isabelle Sheller and her family in their bereavement at the sudden death of Mrs. Sheller.

DO YOU WANT THE LIBRARY OPEN OR CLOSED

On page one of this issue there is a ballot to be used by every student in ascertaining the student opinion concerning the library. The Commission worked hard the first of the year to secure the added library hours but the students seem to have failed to avail themselves of the opportunities thus afforded. Because there has been some seeming dissension the Commission is attempting to determine the opinion so as to judge whether to close the library entirely in the evenings, shorten hours, or keep it open just a short period before final exams. Use your rights and vote. Tear off the ballot and place in the box on the bulletin board.

SPRING FOLLIES PROGRAM PRESENTED BY SENIORS

The Senior class, under the direction of Russell Frantz, presented a very interesting program in student body meeting last Friday entitled "Spring Follies."

Two L. V. C. snapshots was the admission charge, but due to the fact that so many of the students did not have the required pictures, they were admitted by signing I. O. U.'s for two snapshots.

"Spring Follies" included four big numbers:

Folly I—Tumbling; punching bag exhibition (by RKO vaudeville circuit).

Folly II—Two readings by Esther Thomason.

Folly III—Cotton Blossom Singers.

Folly IV—"Mud Flats," by various members of the Senior class.

COMM. OF FORENSICS TALKS VERY PLAINLY

On page 50 of the Student Handbook are listed the duties of each commissioner. Due to either a slam at me, the forensic activities, or a misprint, the duties of the Commissioner of Forensics do not appear. The constitution reads: "The Commissioner of Forensics shall supervise all forensic activities."

It sounds simple but remember this commissioner must attend all Conference meetings, arrange the debate schedule, see that LaVerne is represented in all other contests, take charge of getting judges for home debates, get students interested in forensics, and most important of all, attend all commission meetings.

There are four candidates running for the office of Commissioner of Forensics. It's up to the student body to decide which one will be elected. They are all capable. Vote.

CHORAL UNION SINGS "SEVEN LAST WORDS"

On Good Friday at 8 p. m. the Choral Union of our college will present a sacred cantata, "The Seven Last Words of Christ" in the Church of the Brethren. This composition, which was composed by the French musician Theodore DuBois, is a very beautiful and dramatic musical representation of the events attendant to the death of our Savior.

The soloists for this work will be Edith Flory, Marvin Bolinger, and Doyle Montz. Mr. Haugh and Mr. Travis will function in their usual capacities as director and organist respectively, and Mrs. Haugh will be the narrator. The complete program of the musical numbers is as follows:

Introduction, "O All Ye Who Travail," soprano.

First word—"Father Forgive Them," tenor, baritone, chorus.

(Continued on Page Two)

CHUCK SNELL IS CHOSEN CAPTAIN OF B. B. TEAM

Snell High Point Man of Season with 347 Minutes of Play; Welty Honorary 1932 Captain

Charles Snell, star forward, was elected captain of the 1933 basket ball team last Wednesday evening when the squad of this year met at Coach Eisan's for an evening together. "Bob" Welty, star guard of this season and who also played his last season of basket ball for LaVerne, was elected honorary captain for the 1932 season, during which the Leopards had no regular captain.

Snell is a two year letter man, being the only man to break in on the regular Five Horsemen outfit. Besides being high point man of this

THURSDAY, MARCH 24, IS H. S. VISITING DAY

The Campus Times extends its heartiest greetings to the visiting students and hopes that some amount of enjoyment and entertainment will be found in the day's program.

7:40—10:10—Class visitation.
10:10—11:55—Student body assembly.

11:15—12:00—Social hour.

12:00—1:00—Lunch in city park.

1:00—4:00—Field events and open house at the dorm.

The student program at the assembly includes:

Violin trio—Bob Walker, Bob Harris, Bill Clinkenbeard.

Piano duet—Edith Florey, Elizabeth Lehman.

Vocal solo—Charles Snell.

School song and yells.

Play, "White Dresses," directed by Esther Thomason.

The program during the lunch hour will be composed of readings, vocal solos, music, and college yells, while the field events will included a track meet between the varsity and the frosh, and relays in which all may take part.

COMM. OF FINANCE OUTLINES PROGRAM

In the office of Commissioner of Finance, we are trying to work out a more practical system.

This year, it has been the duty of the Finance Commission to keep the finance books of the Associated Students and collect money for such. We want to work out a more accurate and efficient system of bookkeeping in order to make and have a more practical check on all debts of the Associated Student business, as Campus Times, Lambda, etc., and to make and keep these records with less work and more efficiency. It is the duty of the Commissioner of Finance to collect 5 per cent of all programs given in the L. V. C. auditorium, which goes to stage maintenance, to collect gate receipts of all games, co-operate with graduate manager, and help in all student activities possible.

Leslie Dehart,
Commissioner of Finance.

The University of Arizona may have to close down if economic conditions do not improve.

REV. OLIVER SPEAKS IN TUESDAY CHAPEL

Rev. John Oliver of the Pomona Trinity Methodist church, spoke in chapel Tuesday on the Psychological Value of the Objective.

The main theme of his lecture was that our ideals should be large enough for self-realization. The work we do and the things we accomplish depend on the bigness of our purpose. He closed his speech leaving the audience with this inspirational thought, "How much does your life mean to you and to the world; of how much value is your objective?"

Preceding the address the Harmony Quartet sang two numbers: "Remember Me, Almighty Oue," and "Oh King of Kings."

STUDENT PREXY ISSUES PROCLAMATION OF DUTIES

The duties of the president, as stated in the constitution, are in two classes. These, generally stated, are on the campus and in other college groups.

His campus duties are almost unlimited. He does not have any particular department to

work in, but he must be acquainted with all commissions. He is responsible to the student body for the functioning of these departments.

His duties off the campus are to contact students from various colleges and bring new ideas on the campus. He is a member of the Southern California Student President's Association and is privileged to attend all functions of that group.

Jerry Deal, President.

COMM. OF ATHLETICS URGES CO-OPERATION

Giving credit where credit is due, I think we have had a successful athletic year and from all indications we will do better next year.

Success to you, Lee. Now, getting down to less serious things. The duty of the Commissioner of Athletics, as everyone should know, is to direct with the coaches and managers. Here also it may be added that in turn he MUST have the co-operation of the entire student body. You are about to elect a new Commissioner of Athletics. By your vote you will show your confidence in him, but as well you must also be back of him.

Homer J. Kreps,
Commissioner of Athletics.

CANDIDATES OF 1932-33 ENTER ELECTION RACE

These Candidates Will Run in Student Body Elections to Be Held April 5

As election time approaches, one often wonders to himself, or out loud, what are the duties of the various commissioners. What qualifies one for the job? What should I consider when voting?

ROYAL GLICK
ARNELIA BRUBAKER
ELBERT EBERSOLE

COMM. OF PUBLICATIONS STATES OFFICE DUTIES

"The duties of the Commissioner of Publications shall be to supervise all student publications." I have been somewhat fortunate this year in that I was the editor of the Campus Times as well as commissioner of

publications. This has given me a more complete supervision than would otherwise have been possible. However, the duties of the Commissioner of Publications are to see that the policy of the paper and the Lambda is what it should be. If either publication is not a financial success, the Commissioner of Publications is as much to blame as the respective business managers. There is chance for more definite and thorough organization in this office than ever has been or than there has been this year. This office or any other office on the commission is never a snap, if the commissioners do their duty.

Charles S. Manning,
Commissioner of Publications 1931-32.

A new idea in band maneuvers was introduced at the University of California when the college band appeared at a night game recently with lighted instruments. Not only were all of the instruments illuminated, but the batons of the drum major carried lighted bulbs.

USE YOUR VOTE

Are we library minded, library conscious, or library indifferent? These three statements have come to be of exceeding importance to every student. The commission secured the privilege of having the library open from 7:00 to 9:00 p. m. four nights a week. Now the question arises, "Does it pay to keep the library open?" It has reached such a point that the library will be closed unless the students take some action or show some interest.

We can be library minded if we wish, know that the library is open and accessible and still not take advantage of it, and this condition is one thorn in the soup in the present situation. Our library consciousness is the thing that counts. What good does the library do unless we use it? This is the crux of the present situation. We can be library indifferent, and we are, and this is the reason for the vote we are taking in this issue. If you want the library open state when and why, but if not, say so. There will be a ballot box placed in a convenient place. Tear off the ballot and cast your vote.

CONCERNING ELECTIONS

What is at stake in the coming election? Are we staging an election for the election of student body officers just as a mere formality, to give students various offices, to see certain friends placed in office, or are we having a reasoned election with truly considered voting making the decisions? Do we consider that the persons we place in office for next year are going to determine, to a great extent, the nature and success of the coming school year?

This school is a small world within a world. We are a group of individuals living together and working together. We meet somewhat similar conditions here that we will in later life. We have the possibilities here of corruption politically, ruin financially, and moral degradation. We have the possibilities here of educational advancement, moral uplifting, financial advancement and betterment, and some political experience and development. If these possibilities are inherent in our student body, and I believe they are, then it behooves us to consider thoughtfully the person we place in office in the coming election. Let us ask ourselves if we are voting for a man who is more capable, dependable, trustworthy, conscientious, and original than any other candidate.

REGARDING POSTERS

In answer to a letter, printed in this issue, I wish to say that I am heartily in sympathy with Miss Deardorff in her righteous indignation. I feel that she or any other person who makes a poster is entitled to a first class fit of jitters when they see some of their work besmirched by childish markings. About two weeks ago I mentioned such playful little innocents in a short article, but it failed to register. Now I want every reader to stop long enough to consider some of the posters we have had on the bulletin board lately. They have been more than just mere announcements. For instance, Miss Deardorff has had two excellent posters announcing the Spring Follies program. They have been more than attractive, they have been artistic. She spent nearly ten hours on the two of them, yet some person had to add to them with some very poor taste and penmanship. What is the reason?

THE INK WELL

By Chalmer Faw
INFLUENCE

We hear persons spoken of as "men of influence," little realizing that we are all "men of influence" in a very vital sense. No two people ever come within the range of each other's senses without causing an interchange of influence. That influence may be small and consist of nothing more than a fleeting contact, or it may be great and mean a life-long companionship.

Influence is not only universal but also eternal. Two lives effect an interchange, whether great or small; they, in turn, influence others, thus setting in motion a never-ending chain of personal contacts. An influence, once set in motion, lives on with cumulative force through the lives it touches.

Cut a section across the world's life today and count the multiplied millions of strands of influence started by a Galilean prophet twenty centuries ago. Influence never dies.

Again, influence is either good or bad, for advancement or retrogression. It is seldom, if ever, colorless. Couple this with the fact of its eternal nature and it becomes a most inescapable power insinuating its way down thru the eons of time, the hearts and minds of men and the rise and fall of empires. It is fraught with mighty consequences.

Come back a hundred years hence and, with some super-natural spectro-scope (microscope also, no doubt) watch the line of influence set in motion by your life. Somewhere its vibrations are felt. What are they doing to civilization, lifting it, or helping it fall?

DR. EAMES PRESENTS FIRESIDE MUSICAL

Dr. Henry Pumort Eames will present his fifth informal fireside musical at the Little Theatre in Padua Hills, Claremont, on Friday, March

25, at 8:30 o'clock in stead of on March 31st as previously announced. The program will be devoted to Wagner's "Parsifal," a sacred stage festival opera appropriate in subject and spirit to Good Friday and the Easter season.

EDITORIALS and FEATURES

FROM A READER

Dear Editor: I think I have been "sweet" long enough—so consider that, in case I say some things that I have wanted to say for months. Can you tell me just what is wrong with some of these two-penny infants around this institution? Are they just learning to use a pencil? One would think so from some of the every day evidence.

Truthfully I cannot understand what ails some people! Perhaps you can explain it. Here is what troubles me. Several LaVerne students have been kind enough—yes, speaking for myself, too—to take hours—many hours—from school work and pleasure to donate their time to making posters. These posters are placed on the bulletin board and in fifteen minutes most anything can be expected to be written on them. Children! When will some people grow up?

In all my high school days—and of all the posters I have posted there—never once has anyone been quite so disrespectful! I don't like it.

Mr. Editor, I wish you could help impress this sentiment on our students. If such conduct is not discontinued, I promise I will never again accept such a task or spend from four to six hours on any sign.

I think there are perhaps some people owe apologies. Are the guilty parties too chicken-hearted for that, too?

Evelyn Deardorff.

College Calamity

The college is going into the hole by burning great kilowatts to light the library and paying the salary of our night librarians. Of course the value the students receive by having the library open at night cannot be measured by a money standard, if at all. Nevertheless the library may be closed at night unless the students show their appreciation for the privilege.

On page one of this issue there is a ballot upon which you may indicate the hours you wish the library to be open. The management urges your co-operation.

SCIENCE AND ALCOHOL

Popular Science Monthly says about science and alcohol

"The fact that there is a Prohibition problem at all is little short of ridiculous. The whole question hinges upon the effect of alcohol on the human system, and obviously this is wholly a scientific problem. Yet . . . its voice has been lost in the calmer. Let science definitely and conclusively solve this problem."

Here is the verdict of science in regard to alcohol

1. "Science defines alcohol as a narcotic, habit-forming drug.
2. "Science in biology proves alcohol a poison destructive to all living tissues.
3. "Science in pathology proves that alcohol as a beverage substantially lowers resistance to disease.
4. "Science in medicine proves that alcohol is a poison drug and not a food.
5. "Science applied in life insurance proves that alcohol taken even in moderation definitely shortens life.
6. "Science in military training proves that even under rigidly controlled moderation alcohol reduces human endurance and skill.
7. "Science in government must finally suppress alcohol as the destroyer of human life and happiness."

The policy of this paper is not held accountable for all student opinion expressed on this page.

SPASMS

To relieve the monotony of an ordinary school year, why can't we have elections and petitions circulate oftener. It is so much fun.

An eastern university had an interesting experiment to determine the result of political propaganda and speeches on voting adults. The experiment was conducted over several weeks preceding a presidential election, during which time several speakers of both parties whitewashed their candidates to a brilliant white. After each session, a ballot was taken on the candidates. After all this whitewashing and propaganda had been assimilated by this supposedly intelligent audience the final vote did not differ from the one taken before any of the stump speeches were delivered. All of which ought to indicate that a five-cent seegar and baby kissing is after all the greased slide to public office.

Anyone who is sap enough to stay up, or get up at three a. m. to see an eclipse of the moon, ought to have his head examined. Nevertheless, the sight of something covering the full moon is more or less spooky.

Library Similes

The Library is like a boiler factory.

The library is like a social hall.

The library is like a negro after nine—It's dark.

The library is like a muscle—you gotta use it to have it.

The library evening privileges may be taken away unless more students use it. The college is going broke paying for high salaries of the librarians, to say nothing of the kilowatts used for lighting. Use the ballot on page four to indicate the hours you wish the library to be open in the evenings—or forever study at home.

MANCHURIAN SITUATION DESCRIBED BY DR. KOO

Dr. T. Z. Koo, secretary of the World's Student Christian Association, spoke on the subject of "Manchuria and World Peace" Thursday in chapel.

Dr. Koo presented the situation in two ranges of facts: (1) the elements which underlie the trouble between Japan and China over Manchuria, and (2) the attitudes of each country. Considering first the fundamental issues, Dr. Koo stated that the railroads have a very vital part since there are three systems operated by three separate countries—China, Japan and Russia, which causes a great complexity of the situation.

The second fact we must note is the ownership of land. Since the Japanese living in Manchuria enjoy ex-government felt the necessity of re-territorial status. The Chinese restricting the Japanese to leases rather than land ownership.

The third issue which enters into this difficulty is that of treaty rights in Manchuria. It is an interesting fact that there is little real enmity between the common people of the two countries. What there is has come mainly between the governments.

The appeal China makes to the League is that it shall apply pacific methods of settlement, and thus avoid the formation of another trouble zone for the world which may lead to grave consequences affecting all civilization.

WHAT IS THE ANSWER?

By "Torchy."

Did you ever hear Elvin laugh all night long? Did you ever hear Mary snore at all hours? How come Max can talk from 9 p. m. to 9 a. m.? Do you know that Ralph Travis insists that he saw the Lindbergh baby? And I wonder whether Anita found her pajamas.

Can you figure this out? Was Max with Grace or was Elvin with Eileen, or was Opal with Charlie, or was it some other way? How come Prof. Brandt wears his pajamas around his head in really turban fashion? Did any of you ever see Arno's dainty little toes peeping out of the desert sand as he spends the morning running around barefooted, hunting for his boots? Do you know that Virginia is a great supply house? Do you realize that Peewee and Molly left LaVerne at 2 a. m. and arrived at camp at 4 a. m.? Do you wonder why Esther cried, as she cooked bacon over a camp fire?

Can you feature trying to sleep with Mr. Brandt giggling all night long? Did you ever see Johnny change the tire of Hazel's car by moonlight away out on the desert? Do you know that Torchy mended her hiking pants in the dark, sitting with her back against a cactus? And do you know that Jay can tell the best Indian stories? Do you know that Florence and Esther made enough chop suey to feed the gang twice around? Do you know how great it seems to be sitting around the camp fire with Anna playing the guitar? And did you ever see Shepp pulling Travis's shoes off? Do you know that Cleo held the canvas the kept the wind from the fire most of the time and that Hester can eat dozens and dozens of fried eggs? Do you realize that Evelyn is still combing sand out of her hair and that Sydney arrived home with a cracked windshield? Do you know that Emma Mae Neff was there?

The answer is this: The Junior class desert party at Palm Springs last aSturday and Sunday.

"SEVEN LAST WORDS"

(Continued from Page One)

Second word—"Verily Thou Shalt Be in Paradise," tenor, baritone, chorus.

Third word—"See, a Woman," baritone, tenor, soprano, chorus.

Fourth word—"God My Father," baritone.

Fifth word—"I Am Athirst," baritone, chorus.

Sixth word—"Father, Into Thy Hand," tenor, chorus.

Seventh word—"It Is Finished," soprano, baritone, tenor, chorus.

"WHAT MIGHT HAPPEN"

COMEDY OF THE DEPRESSION

With an opening scheduled for Easter Monday evening, Gilmor Brown announces a forthcoming presentation of an extravagant comedy about the depression, "What Might Happen," by H. F. Maltby, to be produced at the Pasadena Community Playhouse from March 26 to April 9.

Charles Levison will play a leading role—that of an aristocrat in rags, one of the amusing social developments depicted in the play.

The comedy is said to draw an absurd picture of our future life, manners, clothes and circumstances, the result of an endless continuation of the depression. Gilmor Brown plans to make the most of the comedy possibilities of the play and the Playhouse itself will take on a shabby atmosphere during its presentation.

"What Might Happen" will take the place of a previously announced production of a Biblical drama, "Jacob's Dream," which has been postponed indefinitely.

SPORT GOSSIP by EDE

If you can manage to get to a track meet a half minute before it starts you can get a seat. This is caused by the tremendous crowds which attend.

* * * * *

It sure was a thrill for LaVerne to win a track meet and this despite the fact that our men didn't hear the call for the mile and high hurdles.

* * * * *

Red Montgomery, bum knee and all, was able to take first in the broad jump with only two tries.

* * * * *

Kelly was a busy man between taking his turn at the high jump and then running to get in place for the hurdles.

* * * * *

What I want to know is, what in the world did Wilson think was chasing him while he ran the third lap in the relay. Lee wants to buy some for the squad.

* * * * *

By the way, the relay race was the most brilliant race of the day. Brownsberger, Kelley, Wilson, and Jones did themselves proud.

* * * * *

With practice, Calvert, Howell and Wilson should make a team of javelin throwers. They place 1, 3, 4 respectively.

* * * * *

Each track meet sees a new debut—this week it was Hobbs Adams, who was out in a suit.

* * * * *

For the frosh, Roy Smith again proved himself the iron man by taking first place in the 100 and the broad jump, second in the 440, and ran a good lap in the relay.

* * * * *

Although the frosh meet was a triangle one, it was really a contest between Whittier and LaVerne College to see who would figure second. Taking second to Covina in the relay, decided in L. V.'s favor.

* * * * *

Robert's form in the mile seems to be improving, and though he took first place, his time was far below his best.

* * * * *

The frosh have a good team now but are handicapped by the lack of "beef" in the weights. How about it, frosh?

* * * * *

The track team suffered a severe blow in the loss of Bert Jones, who was injured Friday in the baseball game.

* * * * *

For those who don't know it, and may be interested, LaVerne is now the proud possessor of a swimming team. Varsity men interested see the coach.

* * * * *

Although LaVerne lost a hard fought baseball game to Pomona J. C., 5 to 2, their showing was far from disappointing when you consider they had had only three days' practice.

(J.C.), fourth.

Broad jump. Distance 20 feet 4½ inches. Won by Montgomery (L.V.) Williams (N.), second; Adams (L.V.), Triplet (J.C.), and Smith (J.C.), tied for third.

High jump. Height 5 feet 4 inches. Keough (J.C.), Kelly (L.V.), Whaley (J.C.), tied for first.

Pole vault. Height, 10 feet 9 inches. Won by Kay (J.C.); Koller (J.C.), second; Calvert (L.V.), third; Welty and Brownsberger (L.V.), tied for fourth.

Discus. Distance, 111 feet 4 inches. Won by Forney (L.V.), Whaley (J.C.), second; Bessey (L.V.), third; Ellis (N.), fourth.

Javelin. Distance 144 feet 3 inches. Won by Calvert; Witherspoon (P.), second; Wilson (L.V.), third; Smith (C.), fourth.

EWARTS DEFEAT L. V. VARSITY CLUB 38-33

The Varsity Club lost a rough and tumble basket ball game Thursday night by a score of 33-38. At times the game had all the earmarks of a football game. The climax came when John Brooks made a flying clip of three opponents. Eisan and Weybright tied for high point scoring honors of the evening with 14 points each. In the absence of Mark Lehmer, Ivan Betts played a good game at center. Jerry Deal, Wilbur Jones and Alfred Nicoles turned in good games at guard, when they were in there.

CO-EDS WIN FROM CATHOLIC TEAM 41-23

In spite of the fact that four players and the coach failed to show up, the Co-eds were successful in defeating the Catholic basket ball team 41-23 last Friday night at the "Y."

This was the first game to be played in the second round. Next Friday night LaVerne plays Covina, in what is expected to be a game worth seeing as Covina defeated the Co-eds by five points in the last game.

Players Friday night were: Forwards: Eisan, Nix, Lehman, Warrington; guards, Rule, Roberts and Blickenstaff.

WORK ON LAMBDA IS PROGRESSING RAPIDLY

Work on the Lambda is progressing very nicely with a great deal of hard work on the part of the staff, who are neglecting some of their other duties to make the Lambda the best that LaVerne has ever published. All of those who signed the I. O. U. for snapshots please do not forget them. But don't stop with two. Make it four or five.

BERT JONES INJURED IN DIAMOND TILT

LaVerne's hopes for a swimming team, as well as a track team, were somewhat blasted last Friday afternoon, when Jones sustained a broken jaw, in collision with another outfielder while trying to catch a fly.

His jaw was fractured on the left side and it was necessary to remove him to Pomona in order to have it set.

The accident will prevent Bert from competing in track, baseball, and swimming.

Tough luck, Bert, but it's all in the game of life.

SNELL CHOSEN

(Continued from Page One)

last season, he played more than any other member on the squad, putting in 347 minutes of actual playing time. All the fellows on the squad, as well as the students, know that "Charlie" is always in there fighting, and can be counted on to deliver the "goods" when needed. If everybody gets back of "Charlie" and the team next year, LaVerne should have a conference winning team.

Bob Welty, also a two year letter man, put in 287 minutes of playing time last season. "Bob" held down the guard position in a manner that left no doubt as to his ability as a good basket ball player.

All of the Leopard Squad attended the social, in which a very enjoyable evening was spent by each member. Those attending besides Snell and Welty were Max Forney, Aubrey Calvert, Bert Jones, "Red" Montgomery, Elvin Wilson, "Hobbs" Adams, Cecil Brooks, Jerry Deal, "Shorty" Howell, Frank Saylor and Leslie DeHart, who was last season's manager.

The students of the University of Utah are staging a popularity and beauty contest for the men on the campus.

"Dates" are the least popular of all pastimes among the girls of Stephens College. Dancing and reading are among the most popular pastimes.

STUDENT SOCIAL LIFE

Y. W. C. A. CABINET HAS POTLUCK SUPPER

Tamale pie and delicious baked beans were only a few of the many good things which Y. W. C. A. cabinet members had at a potluck supper at Esther Thomason's home Monday evening.

The evening was mainly a social one but there was some discussion of plans for the installation service to take place on the morrow.

Those present were LaVonne Putnam, Mildren Smith, Blanche Klingaman, Marie Pobst, Elizabeth Lehman, Virginia Scarisbrick, Mary Hollinger, Anna Mesamer, Eleanor Shepp, Edna Samson, Bernice Brubaker, Harriet Hoke, Edith Florey, Florence Messamer, Kathryn Blickenstaff, Mary Throne, Ruth Gregory, Miss Muir, Mrs. Brandt, and the hostess, Esther Thomason.

Y. W. C. A. HOLDS SERVICE TO INSTALL NEW CABINET

New cabinet members of the Y. W. C. A. were installed formally Tuesday evening.

Mrs. Glick was in charge of the devotions in which the Lyric quartet also participated by singing a prayer.

Mrs. Merritt spoke about the courage it takes to be really free and she mentioned Christ as an example of perfect freedom and how he had to struggle to maintain it. In contrast are the weak persons who would rather secure a few meals and a bed in prison through the commission of some petty crime than earn it honestly.

The formal installation service was very sacred and solemn. Each member of the old cabinet carried a lighted candle and as she turned her duties over to her successor she gave light to the candle of the new officer.

The new officers are:

President—Mary Hollanger.
Vice - president — Virginia Scarisbrick.

Secretary—Anna Messamer.
Treasurer—Eleanor Shepp.
Chorister—Edith Flory.

The new committee chairmen, who were also installed in the same manner, are: Bernice Brubaker, Harriet Hoke, Kathryn Blickenstaff, Florence Messamer, Edna Samson, and Elizabeth Lehman.

DR. SHAFFER'S HOME IS SCENE OF PARTY

Mrs. C. P. Shaffer and Mrs. A. P. Neher were hostesses at a very lovely party in honor of the Student Volunteers last Wednesday night. About fifty-five people were present.

The evening's entertainment was under the direction of Mrs. Neher. The first part of the program consisted of peppy and hilarious games directed by Mary Throne. After this the group gathered for the devotional place. This consisted of the following: Devotions directed by Evelyn Deardorff; a letter from Mr. and Mrs. Fox, missionaries to India; a short play describing the lives of widows and the laboring class of men in India; some Indian songs by Mr. and Mrs. Eby; a review of LaVerne's own missionaries, and a challenge for the Student Volunteer workers in LaVerne College by Mrs. Neher.

The rest of the evening was spent in a great visit between bites of delicious cake, cookies, and hot chocolate. The whole affair turned out to be a remarkably interesting birthday party for "Fritz" Brunk.

COMM. OF FORENSICS (Continued from Page One)

ing is a personal matter, but let me say this: First, in voting choose the candidate who in your mind is first of all "sold" on LaVerne College and takes an active interest in the school as a whole; second, this person should have a definite and active interest in forensics, so that he will do the various jobs and do them right; third, he should be able to work with and cooperate with the forensic coaches, Prof. Laura E. Haugh and Prof. Brubaker.

Please keep these three things in mind when casting your ballot for next year's commissioner of forensics.

(Signed) Orlin Vaniman,
Commissioner of Forensics for 1931-1932.

DAN STOVER IN HOSPITAL

Daniel Stover, bass singer of the Apollo Four, underwent a minor operation at the Covina hospital last Saturday morning. He is doing nicely and will probably be able to be back in LaVerne in about a week.

The Apollo Four left for a trip through the San Joaquin Valley last week. They were forced to cancel three of their programs in order to return on Stover's account. At present he is in the men's ward in the Covina Hospital. Students remember that little acts of kindness and sympathy are always appreciated.

ASILOMAR STUCK-UPS

Eleanor Shepp, junior, has been chosen by the Y. W. cabinet as "stuck up" for this summer's Asilomar conference. Shepp is the newly installed treasurer of the Y. W. C. A. Virginia Scarisbrick, sophomore, is Shepp's alternate. Virginia is now vice-president and was last year's world-interest chairman of the Y.

Since LaVerne did not have a "stuck-up" delegate last year, it is quite evident that Shepp will be able to go as LaVerne's representative. A "stuck-up" is one who works either in the cafe or the dorm at Asilomar.

APOLLO FOUR RETURNS FROM NORTHERN TRIP

The Apollo Quartet, Albert Gnagy, Marvin Bolinger, Vernon Heckman and Dan Stover, the official quartet of LaVerne College, have returned from another trip after visiting various places in Southern and Central California. They sang at various clubs, churches, and schools, and helped to cheer all those who had the privilege of hearing them. The sickness of Dan Stover, bass singer, was the only unpleasant incident of the trip.

The Aeolian Quartet composed of George Berg, Orville Thomason, Doyle Montz and Russell Frantz, left Friday for a musical tour in Arizona.
