Dear Miss Pitassi:

I have your letter of October 15, and at the same time Mr. McElroy received one and he, I believe, telephoned you last night not to bother about the small sketch which had been asked for at my suggestion.

I was prompted to make the suggestion because others had come in and some of the Vestry, not the Committee, and probably some of the congregation, had thought that they could get just as good a window as yours for a lesser price. Frankly I do not agree with them and have said so, but I had hoped to be able to demonstrate to them through a comparison of sketches, the difference in quality.

As it is, we will, I believe, be able to take care of the matter in another way. You will hear from us further in due time.

With all good wishes, I am

Yours sincerely,
