

Belmont Abbey  
BELMONT, NORTH CAROLINA

May 22/35

Mr A. Petassi  
Fgh. Pa

Dear Petassi;

Mr Gallivan is sending order for the Art Glass for the Clemson College. S.C. Catholic Chapel. He will be delayed in sending exact measurement.

Please note that the sacristy has been changed to the opposite side from that shown on Blue print; this will place the two Sacristy windows on the other or left side of Sanctuary -

We have no symbol of the Holy Ghost or of the Blessed Trinity - so change the subject of Christ blessing in the round window over altar to one of these or try to get a combination of the two - or perhaps you may get one of these in the center of the front rose window

Mrs Gallivan's name is Susan Canceled perhaps you can arrange the figure of St. Cecilia in window near organ space in rear in place of St. Agnes.

I hope you will be able to produce these windows in a reasonably short time and make them as brilliant as possible with good glass without making the Gressaille too dark

Belmont Abbey

BELMONT, NORTH CAROLINA

Mr Gallivan is including 57<sup>00</sup> for the 17 vents which includes those in Sacristy windows, these latter need not be more than 12' high.

The mason who is making the jambs is holding back the work his measurements are not very exact, so there may be a small variation in the width etc of the side windows.

The round window over altar will be in wood sash pivoted, no ~~metal~~ vent needed.

The small circle in middle of front <sup>rose</sup> will require a circular metal vent.

With best wishes

J. Michael O'SB

Note here:

The extra room along side of sacristy has been left off and some small window put in back of toilet. all of these sizes will be sent and all will have vents at bottom.
