

June 1st, 1938.

Mr. B. S. Fahy,
234 Broad St.
Rome, Ga.

Dear Mr. Fahy,

During this last month I have been kept on the go most of the time, having spent most of it away from town. This accounts for the delay in answering your last letter. I hope that this delay will have not inconvenienced you to any great extent. As to your query to what type of window I was going to supply, I will answer the painted one. It is the one originally considered for your church and you have a sample of it in there now, with the only variation that your window would be in full color and thereby richer in scheme.

As to the question if you will receive the proper value for your money I must again refer you to Father Michael for reference whow will supply all information in that respect

If you will write to him, I am sure you will receive the assurance you are looking for and beyond that I cannot suggest anything else to you.

Very sincerely yours,
