My dear Mr. Pitassi,

Thanks so much for your letter of the 21st. Don't bother about making a drawing of the window. I am having the picture enlarged but have found an artist in Richmond who can copy it from a blue print.

I am sorry that you did not get to Richmond as you had planned for the 21st of January. The windows are in and are superlatively attractive. I am inclosing your check for \$600.00 which makes even.

Will be glad to see you when you <sup>come</sup> in the middle of next month. If you want to send me a drawing of our baptistery windows, which ought to follow our plan of Our First Parents, The Baptism of Christ and the Ressurrection even if they are not exact miniatures of the

large aisle windows, I shall be glad to see them. Any kind of a window with upright figures, similar to the aisle windows will do. I think that you understand.

My booklet is now being printed with a statement in it that these small baptistery windows will follow this schema.

Cordially yours,
