

How to Navigate the Spungen Foundation HUB Collection – Printable Version

In its base form, the Nazi Scourge exhibit is organized into 10 Frames. You can think of these Frames like chapters in a book; each of the “Chapters” (Frames) has 16 Pages each, and when read in order, all these “Chapters” tell the story of the Holocaust.

The story the exhibit tells is in chronological order, starting in 1933 with the rise of Hitler, and going through the end of World War II in 1945. Each Frame will cover specific years and topics from World War II and the Holocaust.

You can read through the artifacts in chronological order, or jump in and start your deep dive with any artifact that interests you.

All of our materials on the CatalogIt HUB have a watermark; if you would like to request high-resolution, watermark-free versions of our artifact photos and materials for educational purposes, please contact our Collections Assistant, Caroline Walrich: caroline@spungenfoundation.org

ONE LAST IMPORTANT NOTE: To view any of the photos or additional materials in each entry, you will want to click on them to enlarge. Some of the supplemental materials included with the artifacts are PDFs; when possible, the full PDFs will be available, also by clicking on them.
