

CONSTRUCTION WORK ON BUILDING PROGRESSING NICELY

TWENTY-TWO SUB- CONTRACTORS WORKING

Work on the new Primary Building for the North Fork Union School District is progressing nicely under the guidance of Al Simpson, the architect for the job.

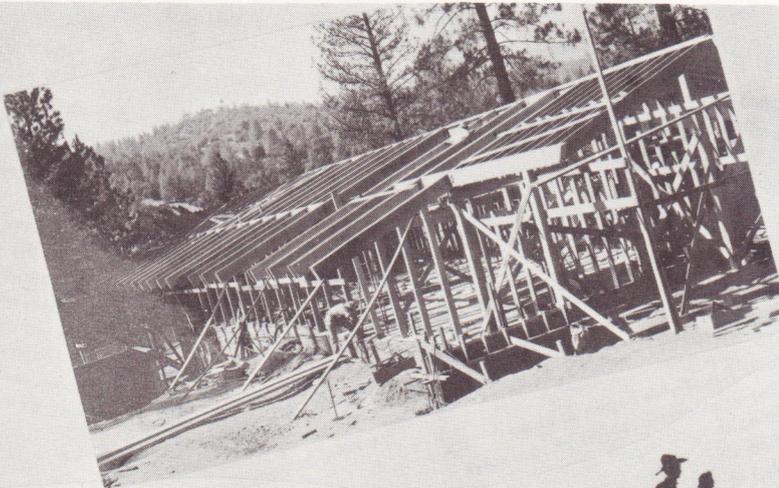

Fred Iby is the foreman for the general contractors, Mid-State Construction Company. The twenty-two subcontractors are listed on the back page of this Mono.

Dan Johnson of Bass Lake is serving as Inspector for the construction.

The picture in the middle of this page shows the type of structure that is being built. Rigid State requirements are followed to the minutest detail.

The project includes the development of a play area and sanitary facilities for the grades housed in the new building project.

The play area will be west of the present Boy Scout Building and south of the new structure. This new play area will be fenced in a manner comparable to the other part of the school.

*School Savings
On the Way Up*

The 1953 Deer Season ends in the Sierras.
