New Garfield Gym Now Open

The Garfield gymnasium will be open when school starts September 5, though the paint will be barely dry and a few details unfinished. Delivery of lockers has been delayed, apparently due to the iron workers strike. At present the last minute plumbing, wiring and tile laying is being rushed to be finished in time. Some of the gym apparatus will not be installed the first week.

The former boys and girls gyms have been converted into one large, modern unit for girls physical education classes. The locker and shower rooms have been installed and refurbished.

In other remodeling, the new book room and teacher facilities are ready for use.

Democratically Speaking....

The tempo of political activity will reach its peak during this week and over the weekend. With the primary election on Tuesday, Sept. 11th, candidates of both parties are hard at work endeavoring to obtain their party's nomination. In the 37th District, one Senator and two Representatives will be nominated for each party. In the Final Election, November 6th, one Senator and Two Representatives will be elected.

Many votes cast their ballot for the man, not the party. Little do they realize that in the majority of cases, that 'man' will follow the party line and program. The Democratic Party has a long history of being concerned with the "little people", - the workers, the aged the unemployed.

In the State of Washington, the Democratic Party supports Youth Conservation and Development Corps, the Surplus Food Program, Consumer Protection Laws, increase in Minimum Wage and Disability Payment, vocational rehabilitation to put welfare recipients back to work, institutions program geared to rehabilitation instead of detention, helping Senior Citizens with medical and living needs, education appropriation including teacher salary increases, and full constitutional citizenship for all in employment, housing and recreation without regard to race, creed, or national origin. All Democratic candidates in the 37th support this program.

Our "SUPERIOR" candidates are the following:

FOR SENATOR: Fred H. Dore, INCUMBENT. Senator Dore has had 10 years of legislative experience, serving both in the House and Senate. Fred has been a sponsor and supporter of the New Justice Court Reform Act, the Metro Act, Judicial Council Bills, Civil Rights Bills including the expansion of State Board Against Discrimination functions to include Housing, Employment and Public Accommodations, the Off-Street Parking Act, the Budget and Accounting Act and equitable pensions for Senior Citizens and many other programs.

FOR REPRESENTATIVE: Samuel J. Smith, INCUMBENT. Rep. Smith has had 4 years of legislative experience, gaining the reputation of "A Proven Fighter." Sam has sponsored and supported the law to prevent Discrimination in employment of persons between the ages

Anna Steen Wins Iota Phi Lamda Award

Football Season

The 1962 high school football season will open Friday, September 21 at 8:00 p.m. with all teams taking part in two jamborees, one at Sealth stadium and one at the Shoreline stadium.

which include open housing, progressive income tax, billboard control, periodic redistricting, and many others.

We invite you to drop into our Headquarters at 1501 - 15th Ave. (15th & E. Madison) for a cup of coffee, where you will have the opportunity to read further on the candidates - their background, community activities, experience, and political platform.

We sincerely hope that you will cast your vote for the Democratic candidates. A vote for a Democrat is a vote for YOU! As one of a group that is "last hired and first fired," we should give support to the party that gave us Social Security, Unemployment Compensation extension, Surplus Foods Program, and we hope in the near future, Medicare.

Available at Democratic Headquarters are Absentee Ballots and Change of Address forms. Call us at EA. 4-0778 on Election Day if you need a baby-sitter or a ride to the polls. We will be glad to help you.

Senator Frank Connor Unopposed In Primaries

Although Fraser MacDonell filed against Senator Frank Connor in the 33rd legislative district for Senator, Judge Miffilin ruled in a suit brought by Cliff Stone, the parties district chairman, that MacDonell was not properly registered in the 33rd legislative district.

The suit had contested MacDonell's right to run in the 33rd district on the ground that his real residence was in the 34th district and he was illegally registered at his business address.

After many experiences with "carpetbaggers" the legislature in 1947 amended the present election laws which in effect prohibited a person filing in a district in which they did not maintain a regular

physical place of abode.

The county auditor, by Judge Muffins order, was restrained from placing Mac Donell's name on the ballot, leaving Senator Frank Connor without primary opposition for the second time.

FROM THE TWO YARDLINE...

by Joe Jones

Last week we took a peep at Husky prospects in general, now let's get specific and analyze the component parts of the 1962 Husky machinery. All but one of the last year's six leading ground gainers will be back. Kermit Jorgensen, last year's third leading ground gainer and first-string quarterback, graduated, leaving the quarterback spot the big question mark facing the Huskies. However, Bill Doublas, a very capable sophomore along with Pete Ohler should fill in the quarterback slot reasonably well. Ralph Winters up from the Frosh, Steve Maddocks, a 1961 redshirt, and Gary Price, a jaycee transfer will help out considerably.

When Coach Jim Owens was asked about the quarterback situation in a recent interview, he commented, "I'm just as confident of the personnel there as at any other position. We have real good potential and quarterbacking should give us no more trouble than any other spot."

One of the better manned spots in the backfield is the left half-back slot. We have such "swifties" as Charlie Mitchell, one of the fastest in Washington history, All-Coast and a player who is bound to come into consideration for national honors. Mitchell has compiled a 5.4 rushing average in his two-year stint. Nat Whitmyer, known to the football public as "Herky Jerky", lost a lot of ground to Bill Siler in his bid for the left half spot. An injured knee side-lined him in spring drills. When asked how he would do in the coming campaign, Nat quirked, "I was born ready, and I was born to play football, this coming season is what I've been living for." Nat, though born with a set of "bowlegs", has shown Husky football followers many times how valuable his bowlegs are in the Husky attack. Nat will certainly be a strong contender for top billing this fall.

We've taken a peep at the left-halfback spots and on the strength of his hard training all summer, we've chosen Nat Whitmyer our "Tan Terror" of the week.

'I can do all things though Christ which strenghtenth me.' Phil.4:13
Coming to grip with self

The language of faith resembles in form the language of boastful presumption. But the two are essentially dissimilar. So long as the ground of confidence rest not in ourselves, but in Christ, it is no remark of humility, but a definite sign of unbelief and ingratitude for one to make little of it. There is a legitimate boasting in Christ which is quite different from the boasting of the braggart in his own resources. "My soul will make its boast in the Lord." - - - this the humblest may say.

The true Christian is a strong soul. He does not simply pardon the failures of the past weakness, he is prepared to be successful in future trials. To face those trials, he is not merely protected by divine armour; he is undergirded by divine strength. God does not sim-

ply hide his children in the rock while the storm passes; He also prepares him with the might wherewith to face and conquer the storm, even out in the midst of it. This is what is meant by the poet's expression, "Yield not to temptation, for yeilding is sin, each victory will help you some other to win."

Each conflict, each encounter, each buffet, we successfully conquer, gives more strength to face and conquer the next.

Christian strength is derived through activity, it is not allowed to rust in idleness, St. Paul says.

Key To Fashion

"How do you do ladies"

I am Miss Merlie Ann Burton. In the following issues of the K-ZAM KAZETTE, we will talk to you about the Key to open the door to a more fashion conscious you.

Fashion awareness is not a new idea, the word fashion comes from the latin term "Facere", which means to make. The word fashion implies the manner in which a majority of people dress, wear their hair, behave socially, etc., at particular periods in history. This history is influenced by events local, national, and many times worldwide. Before the time of rapid communications, fashion changes were less widespread and frequent than now. But with the advent of these advanced communications and now the Space Age, fashion has a firm foundation behind it and a grand future ahead.

In the weeks to come, you and I will learn more about fashion and become better acquainted, so

Merlie Ann Burton

that we will be in a position to contribute to the history of our own Seattle and it's fashionable future.

So nice to have talked with you ladies.

JSCC NEWS

by Y. Philip Hayasaka

Congratulations to Monte Strohl and K-ZAM for publishing a new newspaper that will be as successful as their Radio Station. The Jackson Street Community Council appreciates this opportunity of telling of our activities to the subscribers of K-ZAM and will do so with much pleasure.

The story of the Jackson Street Community Council is a story of people with various languages, cultures, habits, and customs, organizing and working shoulder to shoulder since 1946 to improve their community, to make it a better place in which to live and do business.

The Jackson Street Council, a Good Neighbor Agency, was conceived in 1946, by and for the people in the Jackson Street Area dedicated to the principles of community improvements, physical and personal, for the welfare of all.

We serve a 278 block area that includes nearly 15,000 residents. Within our boundaries are large and small businesses, industrial properties, a large residential area, a public housing development and the International Settlement.

In this community are five cultural groups, five languages, and customs as different as thousands of years and the breadth of oceans can make them. So it is the job and the challenge of the Jackson Street Community Council to fuse these diverse groups into one great co-operative effort of neighborliness and of working together for community improvement.

The Jackson Street Council was conceived and organized to provide a way for citizens and their member organizations to participate in the shaping of their own community life.

Since the Council's start, many things have been accomplished to make the Jackson Street area a better place in which to live and do business. Through our committees and our board of trustees, projects such as the paving of streets, improvement of traffic control, clean up drives and Urban Renewal has been part of our program. But most important, we feel, that people of all races, nationalities and religions have been able to get together and work on common problems for community improvement.

New Teachers

For Our Schools

We hear of Seattle's teachers being drawn to California and to other states, but did you know that Seattle also attracts a great many teachers from out of state? Among the teachers in the Seattle schools last year were numbered college graduates from all states of the Union excepting Alaska and Delaware.

As is to be expected, Washington colleges provide the bulk of teachers for Seattle Public Schools... about 70% of them. Of this 70%, about half are graduates of the University of Washington, with Seattle Pacific and Seattle University providing about 10% each.
