

Prof Sends 'KONGRATS'

University of Washington
School of Communications
Seattle 5

August 22, 1962

Dear Joe:

Monte Strohl tells me you are to be the editor of their new publication, KZAM Kazette, and I hope I am among the first to offer "Kongratulations" on your new assignment, which may be something of a shock to Hugh Harrison and Dr. Ames, as you know.

But I believe most of our advertising majors are capable of wearing several hats, and I am sure your third KZAM bonnet will fit you as neatly as the other two.

Best regards and good luck.

Sincerely,

Daniel S. Warner

Mr. Joe C. Jones
Radio KZAM

Seattle 11, Washington

JOE SAYS--
to it that the articles are informative, educational, timely and entertaining.

The Negro, like any other citizen, likes to read about his neighborhood, and to see his own name in print. It is the firm belief of the Kazette staff, however, that one's private life is one's own affair and we will not try to run a gossip column.

The Kazette will become a part and parcel of Negro life because it will be performing a needed community service in an effective and efficient manner.

It is indeed a pleasure to be associated with a needed and growing publication.

Larry Braxton, the "Hon-eydripper" to his loyal fans, will continue as assistant manager of K-ZAM Radio.

Republican Notes
By Bill Plunkett
The 37th District Republican Organization has opened an election office at 1426 E. Madison St. (at the Pike St. intersection).

Henry E. Perry, district chairman, announced that Mrs. Earl Mann, well known Republican worker, is managing the office. "This year we have an outstanding field of Republican candidates running for office," he said. "I know there are many good Republicans in our district who would like to help these candidates at this important time."

Everyone is invited to visit our headquarters. Information and literature on all Republican candidates is available there.

The new office will be open from 10 am to 5 pm six days a week until Labor day. Thereafter, it will be staffed during the evening. The office telephone is East 3-2242.

The 37th District Republican Organization will meet Thursday evening at the Professional Building at 2304 E. Madison St.

All legislative, county, and Congressional candidates will be on hand to address the meeting.

"We have the best slate of Republican Candidates in years," Mr. Perry said. "Here is an opportunity for Republican to see and hear the candidates before making their choice for the primary election. Refreshments will be served."

Mrs. Wilbert Ponder, 523 22nd Avenue East, is the new vice chairman of the 37th District Republican Organization.

Mrs. Ponder has served Republican interests in the 37th District faithfully and well for many years, according to Henry Perry, the District Chairman.

Mr. Perry said, "We are fortunate to have the benefit of her leadership as election time approaches."

Mrs. Ponder is President of a Republican Club with more than 100 members. Watch this column for more Republican notes.

GARFIELD GYM READY
The Garfield Gymnasium will be open when school starts September 5, though the paint will be barely dry and a few details unfinished. Delivery of lockers has been delayed, apparently due to the iron workers strike. At present the last minute plumbing, wiring and tile laying is being rushed to be finished in time.

Wash. State Bar Association

Both candidates for the office of mayor were well qualified. Each had waged a hard fought, well managed campaign. When the votes were counted, John Smith was declared elected by the narrow margin of 10 votes.

After the election it was discovered that in one voting precinct 18 qualified electors were turned away from the polls due to a mistake on the part of the election officials who thought that these 18 persons were not qualified to vote. The election officials were wrong, but they were honestly mistaken.

Dick Jones, the defeated candidate, sued to contest the election. He offered to prove that the 18 persons who were turned away from the polls would all have voted for him. He argued that these votes should now be counted, and that he should be declared elected.

Smith contended that only votes actually cast at the election should be counted, and that since he had a majority of these votes, he was entitled to the office.

Do you think an election, honestly conducted, can be overturned because of a mistake on the part of election officials?

The court held the election was valid, and it could not be overturned. The exclusion of legal votes--not fraudulently, but through an error in judgment--will not defeat an election.

It would be dangerous to allow electors to say after an election how they would have voted. An election honestly conducted ought generally to stand, even though mistakes that conceivably could have changed the results may have been made by the election officials.

PATILLO PROMOTED

The promotion of Thomas Patillo, to vice principal at Madrona Elementary school was approved by the school board. Patillo has been serving as administrative intern at Madrona during the past year. He came to Seattle in 1950 after 4 years of military service. He has a Bachelor and Masters degree from Central Washington College of Education.

Canavan

Warns on Traffic

"Shopping Centers can create more traffic problems than they solve", warned Joseph A. Canavan, Seattle realtor and investment advisor, in a talk to members of the Lynwood Chamber of Commerce. To avoid the problems and obtain the many community benefits of a shopping center, Canavan advised his audience to work closely with professional city planners and developers.

Joseph Canavan

"In the not too distant future Lynwood will have 500,000 people living within a ten mile radius, if numerous growth studies prove correct", stated Canavan. "Statistics showing the effect of shopping centers have on growing communities points up the hazard of creating traffic jams the center is trying to avoid. If business people and informed citizens take an active interest in these projects, so politicians do something with studies of professional planners, the results are beneficial," he asserted.

According to Canavan, Lynwood faces the same problems many other cities, large and small, face in shopping centers. Unless local residents recognize that the center is only part of area development for the convenience of the people, the professional planners, and developers of the center cannot hope to achieve maximum advantages for the community.
