Providence Medical Center Introduces Area's First Out-Patient Cardiac Rehabilitation Program

Getting people back to work sooner and preventing recurring heart problems are the goals of Providence Medical Center's newest effort to reduce the effects of heart disease and the cost of hospital care.

The Phase II Cardiac Rehabilitation Program is designed for people who have recently been diagnosed or hospitalized for heart attack coronary artery bypass surgery, angina pectoris, or hypertension.

The cardiac rehabilitation clinic also wants to work with people whose doctors have determined they are likely to have a "heart disease event" if they continue on their current path - smokers, diabetics, and people who are over-weight or have a family history of heart disease.

Providence has been working with heart patients while they are recovering in the hospital since 1977. Nurses received special training in teaching patients about their diseases, getting them up and walking as early as judiciously possible after surgery or heart attack, and coaching them about the recovery process. "That's Phase I of the Program," says Patty O'Hearn, R.N., M.A., Cardiac Rehabilitation Director. "Phase II gives our patients an exercise prescription and guidance to get them started and keep them going after they've gone home." Participants come dto the clinic two or three times a week for up to three months after leaving the hospital. "Changing lifestyle habits - what you eat, how it's prepared, your daily activities, and attitudes about working and living - is difficult," O'Hearn said.

Joe Corrigan, 61, was one of the first patients to benefit from the out-patient cardiac rehabilitation pilot program. He had coronary artery bypass surgery about a year ago. With the help of the cardiac rehabilitation staff, regular exercise, and changes in his diet, Corrigan returned to parti time work three weeks after his surgery.

Corrigan and others participating in the cardiac rehabilitation program will be guests of honor at the clinic's Open House on Tuesday, Feb. 14, noon to 7 p.m.

aThe cardiac rehabilitation staff and the program medical director, Peter Albro, M.D. Cardiologist, will also be present. Members of the press are invited to attend the Open House, tour the facility and interview patients. If you would like to specifically arrange an interview with a patient or medical staff, please call Sandra Smith, Director, Public Relations, **(326-5641.)**

Expanded Dental Services

We would like to announce to parents and guardians of patients of the Odessa Brown Children's Clinic, we are expanding our dental services to include patients up to eighteen years of age.

While we remain committed to giving first priority to our younger patients, we have become increasingly aware that dental needs of our teenage patients have largely gone unmet. It is our goal that by expanding the dental services, we will more fully serve the needs of both the young and teenage patients.

Odessa Brown Children's Clinic also provides medical care for our teenage patient population. Clinic hours for both Medical and Dental Departments are from 8:00 a.m. to 5:00 p.m., Monday through Friday. Appointments may be made by calling 329-7870. We ask that a parent or guardian accompany any patient (child or teenager) on his/her first appointment. The Odessa Brown Children's Clinic is located at 2101 East Yesler Way, Seattle, Washington.

SEATTLE PUBLIC SCHOOLS SELECT A NEW SUPERINTENDENT

Native born Seattlite Mr. Robert Nelson has assumed the position as Seattle's new school Superintendent. Mr. Nelson has worked for the District for several years. Formerly he served as the Deputy Superintendent. In assuming his new position, he brings with him many years of experience in educational administration.

Local residents have been impressed with Mr. Nelson's conciliatory jesters toward Seattle's growing minority communities. This past Sunday, he was a guest speaker at Mt. Zion Baptist Church. Mr. Nelson has promised to bridge the gap and work toward building a stronger public school system for all students.

During the past few months District Administrators have been in tumult while under the former administration of Dr. Donald Steele. Many parents welcome the change. Although, I do not, personally, know Mr. Nelson, I hope he is able to run an effective school system devoid of many of the former problems which plagued his predecessor. The education of our children should be foremost on the minds of District Administrators.

GOODWILL BAPTIST CHURCH (126 - 15th Ave.) PROCLAIMS "NORM RICE DAY"

Sunday, Feb. 19, Norm Rice will be recognized for his many personal and public achievements. It is a honor to have him in the Greater Seattle area.

Norman B. Rice was born in Denver, Colorada in May, 1943 and moved to Seattle in 1968. He is married to Dr. Constance W. Rice and has a son, Mian, age 13. Rice earned a bachelors degree in Communications and a Masters of Public Administration from the University of Washington.

Rice was first elected to the Seattle City Council November, 1978. He was re-elected to the Council in November, 1979, receiving one of the largest pluralities in local and state government history. He has continued that trend, receiving an 80% plurality in the November 8, 1983 general election.

Rice has established himself as a leader for innovative and intelligent fiscal and environmental policies for the City. He has chaired the Finance and Budget Committees since 1980. During that time, the Council rewrote the City's financial and debt policies, thus protecting Seattle from the debacle which took New York and Cleveland to the brink of fiscal ruin.

Under Rice's direction, Seattle's budget was balanced despite the worst economic conditions since the Depression. Rice has consistently led efforts to proect the City's investment in its libraries, fire stations, parks and other facilities which enhance the quality of life for Seattleites.

Rice is currently President of the Seattle City Council, Chairman of Seattle's Capital Preservation and Improvement Citizen Committee, and is President of the Northwest Conference of Black Public Officials. He is also a Board member of the Paul Robeson Community Theatre.

THE FRUIT OF THE SPIRIT

THE FRUIT OF THE SPIRIT IS JOY.....

As we turn our thoughts to the subject Joy, we are mindful of the fact that "fruit of the Spirit" is contrasted with the "works of the flesh" as to emphasize the effect of Spirit of God working in the life of an individual. Therefore when we consider Joy as the work of the Spirit we immediately see that it has very little to do with the circumstances of life from an external viewpoint. The apostle Paul talks about this kind of joy a lot in the book of Philippians. Notice what he wrote in Phil.4:4: "Rejoice in the Lord alway: and again I say, rejoice." The Christian does not find the source of his joy in the circumstances or events of life but in the Lord. How else could the apostle Paul, considering his sufferings and imprisonments, etc. (Romans 8:16-28; II Cor. 4:8-18) encourage others to rejoice?

Like agape, Joy is a quality and not an emotion. In other words it is not just feeling good. Regardless of how a person feels on the outside (physical condition) if that person is in the right relationship with God, that person can and should experience this aspect of the grace of God. Joy from the Lord is not dependent upon having a Mark IV in your garage and your freezer (s) filled with meat. When we live righteously we will have Joy in the Holy Spirit: "For the kingdom of God is not meat and drink; but righteousness, and peace, and joy in the Holy Ghost" (aRomans 14:17). God allows his sun to shine upon the wicked as well as upon the just, but instead of trying to find joy in material things the Lord's command is to "But seek ye first the kingdom of God and His righteousness; and all these things shall be added unto you." (Matt. 6:33). He knows what need and can handle. Some christians would not know what to do with a lot of money, etc. it would cause some to go astray. The Bible tells us that "all things work together for good to them that love God, to them who are called according to his purpose." (Rom.8:28). All things are not good, but they will work together for the good of those who love the Lord. And if we love Him we will obey Him (John 14:15).

So we find that those who live godly lives have no promise that they will be free of possible persecutions (cf.II Tim.3:12; Rev.3:10).

MANN'S Bits and Pieces

by DAVE MANN

Sports Editor

Surprise, surprise, surprise! Warren Moon wake up Saturday morning as just the average rich man, but by the time the ex-Canadian football star went to bed he was a genuine Millionaire. Signing for a reported 6 million dollars over5 years (over 80 percent of contract was guaranteed) with the Houston Oilers made the ex-Husky Quarterback the highest salaried professional football player of all time. Not bad for a youngman who just a few years ago was continiously booded by the Husky fans, and if it wasn't for a strong and resolute coach in Don James, things may be different for Mr. Moon today. Moon's preference was definately to play in Seattle for the Seahawks, but the guarantee of Houston was just too much to overlook. Rookie of the month — Ralph Sampson, the oustanding center of the Houston Rockets who ranks among the leaders in scoring, redounding and blocked shots, was named the NBA/Miller High Life rookie of the month for January. The big man from the campus of Virginia ranked 18th in the league in scoring at 21.2 PPG. Fifth is rebounding at 12.3 RPG and third in shotblocking at 2.66 blocks per game.

The hot Sonics are on a roll. They have won nine straight at home. They are 25.20 overall. Their one weakness, is on the road where they are 7-14. Lenny Wilkens became the eighth man in NBA history to achieve 500 victorious on January 18th in the Tacoma Dame vs. Dallas. At 46 years old, Lenny became the youngest man ever to obtain his 500th win. Fred Brown is still out for the Sonics, nursing a broken nose. David Thompson is out with a muscle pull in his leg. Young Clay Johnson is proving his worth since Fred and David is out of the line-up. The hustling young guard is reminiscense of Slick Watts.

What beautiful days we are having. The golfers are getting ready and leading to their favorite tee-off areas. Has anyone see Al Hairston around?

Bulldog Boxing Club

Under the professional guidance of head coach Walter Dumas and the staff of the Central Area Boys and Girls Club, the Bulldog Boxing Club is off and running. Our first boxing show was sponsored by the Seattle Parks and Recreation Department and was held at the Delridge Community Center. The Central Area Boys and Girls Club entered five fighters and came home with two first place winners with a total of four making it to the finals. In late January the Kirkland Boys and Girls Club sponsred the Novice Championship. Central had six fighters: Willie Davis, 125 pounds; Bobby Joe Credit, 139 pounds; Mathis Aill, 165 pounds; Charles Marlin, 80 pounds; James Credit, 90 pounds; and Darryl Williams, 139 pounds. Also in late January the club gave a boxing show which was a tune up for the 1984 Olympic Trial competition in the Pacific Northwest. Coach Dumas says, "out of all the fighters at the Club, Bobby Joe Credit may be the best light weight fighter to come out of the Pacific Northwest in the future. Coach Dumas says he is running a boxing school not just a boxing club and with the help of the Boys and Girls Club and his assistant coach John Riggin he feels he can build a strong program at Central.

So come out and support the boxing shows that we will be sponsoring in the future and visit the club.

by Joe West

Hi Boxing Fans! — Last Saturday, I missed the biggie on the tube between Don Curry, the WBA welterweight champion, vs. Marion Starling. The reason that I missed it was because of the Tacoma Golden Gloves. I wish that some of you fans could have been there, the bouts were terrific. The winners really had to go full bore to win as there were some very good boxers aspiring for the trip to Las Vegas. The winners all get airfare and hotel expenses for the National Golden Gloves. There were so many boxers that the association had to bend the rules a little and okay the young men boxing three times in one day. There is a rule that no boxer is allowed to box in more than two bouts in one day. This being an Olympic year, this rule was waived for this tournament. All of the fights were very close and the young men that did win really gave over one hundred percent effort.

There was one thing that happened that could have been very bad, the contestants for the 165-lb. crown were dressed and ready to go when one of the young men got sick. He complained of a stomach ache but wanted to go on. His ache was acute appendicitis and the medic team sent him right to the hospital. Can you guess what would have been said and written if he had started to fight and his appendix had reptured while he was boxing? I can, and it would have been real bad for boxing in this state the way things are going here.

Back to the bout between Curry and Starling, I received a call from Atalantic City Sunday morning and the word that I got was that Curry really pressured Starling all through the bout and never let him get started. I was told that Curry fought one of the smartest fights of his career. I wish that I could say the same about his brother, it was reported he came into the gym after losing his fight and fired a few shots at his trainer and manager, Jesse Reid. It was never reported what it was all about but as soon as I hear you know you will know too.

That's it for new, more next time. — CI BON.

Computer Tutor & Programming Class

Rainier Vista Boy's and Girl's Club is offering classes for Basic Computer Instruction. The purpose of the program is to provide an opportunity for youth and education in various computer fields with emphasis on supplementing the educational development of youth through tutorial service and skills development.

Computer Tutor Class or CTC as it has become to be known, stresses self respect and pride. Two very important elements young people should concern themselves with today. The program is divided into four basic areas: (1) Computer Tutor Classes; (2) Computer Programming; (3) Community Data-base Systems; and (4) Communications Resource Network.

Ron Price, instructor, teaches students basic computer programming techniques, using the T I 994A computer by Texas Instruments. Monday through Friday, Vista Club youth use the computer for home work problems and practice; and techniques learned on Saturday. Computer time is limited to students who attend the class. The next class is Saturday at 2:00 p.m. when a program will be written that will play the music of Michael Jackson's "Billy Jean." The classes are free with a Boy's and Girl's Club membership of $5.00 which is good for one year.

At Club Vista, students who are enrolled in the classes, display creative and imaginative thought planning revolve around the plans for them to be able to take their ideas and turn them into useful projects for themselves and others in the community by creating programs that range from simple math functions to more complexed, problems, at Vista. Students are forced to exercise his or her imagination in such a way never experienced before.

In addition to learning basic computer skills, students at Vista Club can learn that self respect and pride will take them along way with self confidence to prepare them for tomorrow's world.

In a recent survey the results showed THE FACTS Newspaper as the number one weekly with more community news than any other weekly in Seattle!

Fir State Golf News
by R. Silas, Jr.

WEARIN THE GREEN.....

There comes a time in life when we over achieve from no obvious reasons, it's often un-explainable. Now is just one of those times in the body of the FIR STATE G.C. membership. Last week the applications poured in, and there was no reason for it except heeding a quest and rallying to the cry. We all can stand a pat on the back, for an effort well executed.

The members who continue to make excuses (there's a million of them) - the president has decreed that you will be delinquent from dues in 1984 after Feb.20, 1984 - hear ye, hear ye, hear ye!

The list of the guys Wearin-The-Green is as follows (look in their cars rear windows): Hampton Allen, Fitzgerald Beaver, Eurydice Burnettk, Sheldon Ellis, James A. Hendrik, Frank Jackson, Aaron Jones, William Lunch, Harvey Potterk, George Reynolds, Roosevelt Silas, Ike Stallworth, Willie O. Simmons, E. J. Shaw, Thomas Suggs, John Valley, Ulyesees Ward, Jewell Williams, Jeff Woods and two "JR" golfers, Danielle Gentry and Landon Jackson.

If your name is not included on the list you can fix that immediately - send your application and check to the FIR STATE G.C., 3418 Martin Luther King, Jr. Way South, Seattle, WA 98118. Hurry, Hurry, Hurry beat the deadline and get in on the GREEN!

The weather break has offered alomost spring temperatures that have stirred the restful! The driving ranges are almost at peak capacity and there are games and rounds of golf being played now that otherwise wouldn't be played - by some of these guys.

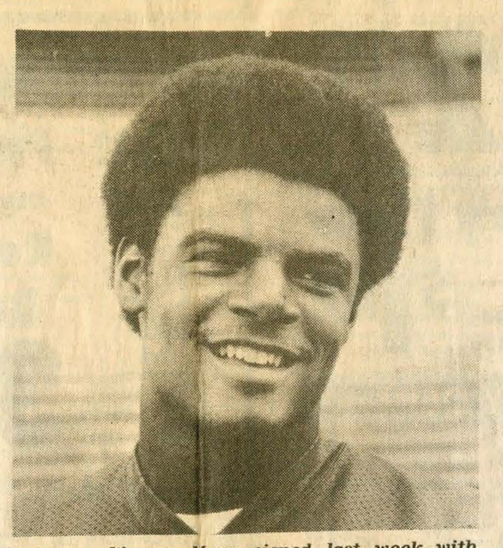

Wednesday night will be the next meeting of the club (general membership) 8:00 p.m. The date was changed from the usual 2nd Tuesday of the month to take advantage of a visit by Sylvester Marshall, the WSGA area representative that will be here to bring the club news from WSGA and what's happening come out and hear him.

Ulyesees Ward and Chuck Pressley will be awarded their championship trophies that night, there will be snacks and refreshments served and the beautiful GREEN CAPS will be available for those who have claimed them all of this is free and planned for the members of FIR STATE G.C., come on down.

After watching the "Clambake" at Pebble Beach Sunday, with all the luck that Hale Irwin had (with a couple of super strokes); it's no wonder he carry an umbrella but on the other hand Jim Nelford has been doing something very wrong apparently. It was almost too much to take; rocks kicked Erwins ball onto the fairway from out of bounds - the ball hit the stick on 18 or it would have gone down the hill (to get him into the play off). Then, on the 2nd hole of the play off, he missed his tee shot landed in a trap 200 yds. from the green. A superb two iron from the trap ends up 8 ft. from the hole and the best shot of all. He sunk a sidehill curler for a birdie!!

Most of us are relieved to know where the "MOON" will shine in 1984. Some thought it was over Miami, others thought it might be Seattle, but Houston is the place where there is money - oil and cattle (where's Zorn??).

The Richest Of The Richest!

Ex-Husky Warren Moon signed last week with the Houston Oilers to guide their fortunes.

By: Dave Mann

Stand up and be proud University of Washington. You graduated a few years ago the most highly paid football player in the world. By signing with the Houston Oiler for a reportedly six million dollars, the ex-Husky Quarterback went to bed Friday night as an average well to do athlete, but by time he awaken late Saturday, he was an instant millionaire.

Warren took his show to Canada after graduating from the University of Washington where he was booded mercilessly, even though he lead the Huskies to a Rose Bowl victory over Ohio State.

Warren and his family plan on maintaining their home in Kirkland, Washington, and return after the football season ends.

Warren admitted that his preference was to sign with the Seahawk, but the difference of a guaranteed contract swayed him over to the Oilers side.

Notice From U.S. District Court of

SETTLEMENT

TO: ALL **BLACK APPLICANTS FOR EMPLOYMENT** AND ALL **PRESENT AND FORMER BLACK EMPLOYEES** OF THE

BURLINGTON NORTHERN RAILROAD

This notice is to inform you that a settlement between the Burlington Northern Railroad Company (BN), and the United States Equal Employment Opportunity Commission, and counsel in a class action has been reached in a race discrimination employment practices case (1) on behalf of **black applicants for employment who were not hired** by BN, and (2) on behalf of **black present and former employees** of BN. Thirteen international unions representing BN employees are also involved in the case and the settlement. The Court has preliminarily approved the settlement consent decree, and will reach a final decision as to its fairness and adequacy after class members have had an opportunity, if they wish, to comment on or object to its terms.

Black persons who applied for employment to BN **or** were employed by BN at any time between March 1, 1970 and November 21, 1983, are members of the class and may be entitled to cash awards or other relief as part of the settlement.

Cash awards will be made to class members who file claims out of settlement funds provided by BN amounting to $10 million which will be used solely to pay those claims. Any excess remaining after those claims are paid will be used to promote the interests of black people. In addition, you may be eligible to be considered for future vacancies at the Company on a priority basis, to transfer into certain vacancies or to otherwise benefit from agreed upon changes.

To be eligible to share in this $10 million fund, **you must obtain and file a claim form.** Claim forms, with filing instructions, and a summary of the settlement, may be obtained by supplying in writing your name and current address by mail to:

Or, if you **call toll free 1-800-223-9001 or in New York state only (1-212-245-3151),** and supply your name and address, a claim form will be sent to you. All completed claim forms must be postmarked on or before **May 15, 1984.**

You may view a copy of the settlement consent decree itself and the full record in the case at any office of the EEOC or at the office of the Clerk of the United States District Court for the Northern District of Illinois, 219 South Dearborn Street, Chicago, Illinois 60604, file reference **In Re Burlington Northern Employment Practices Litigation,** MDL 374, 78 C 269.

The Court will hold a hearing at 9:30 a.m. on April 2, 1984, at the United States District Court for the Northern District of Illinois, 219 South Dearborn Street, Chicago, Illinois. At that time, the Court will hear comments and objections, if any, from class members regarding the consent decree. You need not be present in court to file a claim or receive money from the $10 million fund or otherwise benefit from the settlement. You will be represented there, as you have been throughout this litigation, at no cost to you by class counsel. If, however, you want to comment on or object to the settlement, you must file your comments in writing with the Clerk of the Court by March 16, 1984, and you may then appear at the hearing with an attorney of your own choice, at your own cost. You will, however, be bound by the judgment of the Court, whether or not it is favorable.

It's easy to neglect one's skin, putting off one routine or another will only damage skin cells. it is necessary to develop a complete skin care regime, that works into one's schedule with ease. Regional Black Studies Council Presents Awards And Opposes Consolidation Efforts!

Dr. Maulana Karenga

The Pacific Northwest Regional Council For Black Studies held its Third Annual Conference over the weekend at Eastern Washington University in Cheney. Under the theme of "Black Studies and Public Education", the organization sponsored a number of workshops aimed at teachers and administrators in the various public school districts of the State of Washington.

Among the oustanding speakers at the conference was Dr. Maulana Karenga who shook the rafters with his keynote address entitled "The Black Studies Paradigm: Human and Social Implications" at a banquet attended by 200 people from the greater Spokane area. In his inspiring and sometimes cutting oration, he pointed out that Black Studies poses an alternative paradigm (or model) to the European educational model, which distorts the truth about world history and civilization, and the European social model, which distorts the concept of Humanity. He stated that, "we do not believe that human diversity is the cause of human division, but rather the source of human richness."

Dr. Karenga spoke out fervently against the attempts of college administrations to consolidate Black Studies with other ethnic studies programs because of the negative effects it has on the ability of such programs to accomplish its educational and social mission.

In keeping with its motto of "Academic Excellence and Social Responsibility", the organization presented four awards, two for professional leadership in the development and institutionalization of Black Studies in the region, one for student servicer in the area of Black Studies, and one for a member of the community who has provided valuable support to Black Studies. Dr. Wayne R. Williams and Dr. Felix Boateng received the faculty leadership awards, Mr. Wallace Weaver received the student award for his efforts in the Black Student Union at Eastern Washington University, and Mr. Bernie Foster, Editor of the Skanner Newspaper, received the community support award for his enormous contributions to Black Studies in the Portland area and in the region.

A Report To The People

by ISAIAH EDWARDS

This is True:

The U.of W. administration attempts to consolidate the Afro-American, Chicano, and Asian studies programs into a new Department of American Ethnic Studies is being met with strong resistance, not only from Black, Hispanic, and Asian students, but from the Community leaders as well. They contend that such action would only result in the under funding of the Department, but also a denial of ethnic individual studies, internal conflicts, and in-fighting that would weaken and paralyze the Department. They further contend that such action is, but a manifestation of the Reaganite strategy of crippling programs that benefit oppressed ethnic groups in America, through budget restrictions and re-organization, while shifting our tax dollars from education to the production of weapons of destruction for the Pentagon. To further emphasize the seriousness of their concern, a large number of students - Blacks, Hispanics, Asians and Community leaders - on last Thurs., Feb.2nd, embarked upon a relentless, but peaceful sit-in, in the University of Washington Administration Building. They later gained admission to the office of President, and met face to face with the U of W President, William Gerberding, and warned him, that the Universities attempt to lump the Ethnic Programs into one Department was racially motivated, and "would be opposed by all appropriate means, and would ignite student activism, reminiscent of the 1960's rebellions." They further pointed out "that budget cuts are the result of political decisions made by racist whites in power, and that these same whites have the power to increase budgets, and to make courses in Ethnic Studies a mandatory requirement for graduation for all."

The protest ended when President Gerberding agreed to meet with them Feb.24, on which date, the Community advocates for Quality Black Education invite a large segment of our community to support and sit with them at this hearing. For after all such student activism, is responsible for many ethnic faculty jobs at the U of W and other public schools throughout our community. They without question deserve our support.

Until then, This is True. Will see you next week.

Facking With McCrackin

by Jody McCrackin

THE CONSERVATIVE MIND IS A DANGEROUS THING

This writer long ceased giving the conservative mind credit for a great deal of rationality or objectivity. Over and over down through history, conservatives have displayed a tendency to be anti-public in their thinking. This has been true of both their public and private lives. Conservative thinking largely results from selfishness, especially, in the area of personal rather than public financial matters. Most conservatives are willing to invest unlimited amounts of public money on the pursuit of friverlous matters such as opposing gun control and abortion.

In contrast to many liberal thinking people, conservatives are generally thought to be excellent communicators. Many of them are also considered to be good salesmen, derived from qualities of being fast, persuasive and impossible to ignore. In this way, they are much like the criminal mind that would have us believe that it is more intelligent, better trained, and works to dominate others around him.

Many of us will long remember the magnificant selling job done by President Reagan on behalf of Richard Nixon when he competed for the presidency against John Kennedy over 20 years ago. He did a no less magnificant job in selling us on himself a few years ago. He almost had us see him as our real savior by presenting himself as an angel of love and a crusader for peace while all along devising plans for putting race against race, heating up the cold ward with other nations, and enriching his friends at the expense of the public, the poor in particular. Both elections in which he succeeded, 1968 and 1980, resulted in a national shame. In the case of president Nixon, it was the criminal minds with which he surrounded himself. In the case of President Reagan, his greed and lack of respect for the public that created his problems. His budget deficits has cost each person in this nation several extra thousands of dollars, causing increased poverty and dissaray among all nations.

Certainly, Prayer in public schools, abortion and school discipline, while important to many, are not really the kind of issues that should be dominating political discussions as the president has made them. How should these subjects rank in the order of priority with such others as Nuclear War, Budget deficits, Hunger. Yet, conservative minds like the President's, Jesse Helms, and Jerry Falwell would have us believe that these little issues are the most important things going on in America. It is because of such things that I have considered these little minds dangerous.

Stay with us.

CHERRY STREET TALK by THE PHUNTIQUE LADY: BARJA NAZARETIZ

WHO'S IN CHARGE WHERE?

Every once in a while we need to sit down and look at who is in charge of what and where. Let's look at Congress - a bunch of basically elderly men. How do they think? We can't read their minds, but we can look at what they fund to get a picture about their outlook. What they fund now is probably consistent with what they have funded in the past. Would you wager that the two big ones are cancer and the military? They support the best minds and the best bodies. What does this mean?

A cure for cancer means that they are interested in prolonging their lives. It is close to inevitable that cancer hits a large proportion of the elderly population.

In order to insure that they can sit in peace and vote for cancer, they vote unbelievable monetary support to the military. There is a concerted plan to allow the healthiest young stock of the U.S. population in this club where members fight, lose their lives, etc. in protecting their countryland.

They assume that their will always be healthy stock to enroll. Once they discover that the elderly are slowly moving to a majority of our population and that there may not be enough young for the slots that make for an ongoing society, the elders will start taking an interest in developing healthy stock at conception—if it is not too late.

If the elders start looking at the funding of social service programs for young mothers, they can start making more sense in terms of nurturing a surviving populous. The Republicans have had their turn and you see what has happened. We need a group of elders who can relate to the majority of the people and not subconscious personal needs. If there is such a party, let's change elders.

BLACK-ON-BLACK CRIME
Part II

One of the most awesome effects of Black-on-Black crime is the effect on our youth. They see, hear and live our relience on violence. Kids today can discuss a movie filled with sex and violence the way our parents used to discuss Howdy-Doody.

Those youth who enter the criminal justice system receive harsher punishment than whites. The criminal justice system turns juvenile offenders into adult criminal. And from what I read, seened and experienced about prisons they just make good prisoners.

The weakening of our family structure does not help, either. Many parents have forgotten about role models. Our thoughts are only about survival. We tell our children not to lie but our children see us lie. We tell them not to drink but they see us drinking. Or, we tell our children not to smoke pot but they see us firing-up.

We must give Black children positive role models. Instead of the self-defeating and self-destructive models whose lifestyle reflect the hopelessness and powerlessness that accompanies being Black in America.

We need strong role models, like Jesse Jackson, which show Black children how to stand proud and firm and face their oppression head on, instead of turning their frustration inwards and against their fellow Black.

MDA

(From last week) Physical Effects and Hazards: Existing information about the effects of MDA is inconclusive and incomplete. Experienced LSD users have confirmed clinical evidence that MDA produces LSD-like effects without the occurrence of hallucinations. The drug appears to produce a sensation of joy in the user. Feelings of peace, tranquility, tenderness, and gentleness are also experienced without accompanying despair or remorse. Also absent are the visual distortions or misperceptions common to hallucinogents. Reactions such as anger, aggression, confusion, disorientation, paranoia, loneliness, and isolation occur infrequently. This suggests that MDS might safely function as a bridge between mentally distrubed individuals and therapists.

Physiological effects include increased pulse rate, fluctuating blood pressure, and dilation of the pupils. Overstimulation, loss of appetite, and insomnia are also common. The average street dose (100-150 mg.) takes effect within an hour after ingestion of the drug. Peak effects are usually reached in the first two hours and effects may continue for as long as 12 hours, depending upon the dosage and the user's state of mind.

There are no accurate studies available of either high dosage or long-term use of MDA. Research into physical effects and hazards from continued high doses is needed.

FROM THE FRONT

NATIONAL BLACK UNITED FRONT
MALCOLM X: AFRICAN-AMERICAN FREEDOM FIGHTER

The Life of Malcolm X is one of the most inspiring in the history of African-American struggle. Malcolm rose from the very bottom of society, to the leadership of the African-American struggle in America.

Malcolm's early life was filled with tragedy. His father, along with four of Malcolm's uncles, were skilled by white racists, and his mother had a nervous breakdown. This devastating attack on Malcolm's family led to his separation from his brothers and sisters in childhood, but also revealed to him with astounding clarity, the violent racist nature of American society.

Systematically discouraged by racist white teachers from pursuing an academic career, Malcolm, despite his obvious superior intellectual abilities, wound up hustling and selling dope in the streets of New York. Finally Malcolm ended up where so many talented African-Americans are — in jail.

But in jail Malcolm joined the Nation of Islam and his great self-discipline led him to study an enormous amount of subjects, including African and African-American history. It was here that Malcolm found out who he truly was—an African and a descendant of a great people.

When Malcolm X got out of jail he joined the struggle of African-American people for freedom. Malcolm took our struggle to our brothers and sisters in Africa and explained to them that African people were all fighting the same enemy worldwide. Malcolm was respected throughout the world as an African-American and world leader.

Oba T'Shaka, Professor of Black studies at San Francisco State College and author of "The Political Legacy of Malcolm X" will be touring Seattle Feb.12—14th. This 23-year veteran of the African-American struggle will be speaking on the life of Malcolm X.

NEIGHBORS HELPING NEIGHBORS

Winter is not over yet. It is not too late to make your home warmer and save money on your heating bills. Most of the heat in your house either goes out the roof or out the windows. Call us for a weatherization inspection and we can tell you what needs to be done and how to get it done. There are programs in this city that provide complete weatherization services for little or no cost for low income families.

One thing that is guaranteed to make your home warmer by keeping the heat inside in storm windows. You can make your own nice-looking and long-wearing storm windows for very little money. Come to the storm window workshop at C.A.M.P. on Thursday, February 16, from 6:30 to 8:30 in the evening. For more information on the workshop and or a weatherization inspection call 324-0500.

The CAMP Inner City Self-Help Program also invites you to join our Labor Exchange and trade labor with a neighbor. Through the Labor Exchange we facilitate neighbors helping neighbors. You can get assistance on your home repair projects by helping other labor Exchange members on theirs. You trade labor on an even hourly basis. By joining the Labor Exchange, you can meet many of your needs with a minimum of cash. You can also learn skills and teach others the skills you have. And in the process, you can become better acquainted with people in the community. For more information, call our Tool Bank/Labor Exchange Coordinator, Robert Wade at 324-0500.

Another Point Of View

by GEORGE BURNEY

THE ROLL IS BEING CALLED ON DEATH ROW

For convicts on death row, it has been increasingly overcrowded. With years of court appeals and stay's of executions, the courts now are denying appeals and in the future plan to make more room on death row.

The latest prisoner to be executed was 66 year old Anthony Antone, who was convicted of arranging the contract killing of an organized crime investigator. Antone is the 12th man electrocuted since 1976. What the courts are doing is enforcing the law. It is also doing what the public wants, according to nation wide polls in which Americans favored capital punishment.

Most prisoners will try to get a stay of execution only hours before they are executed. Many are granted, but in some circumstances they are turned down. Many cases may not get the best reviews because of pressure upon the judical system. The prisoners themselves often become victims of circumstance and become just another part of the system.

If it's money that the courts are worring about, perhaps, more programs for first and repeated offenders should be considered rather than to wait until someone would wind up on death row though he could have been helped long before. It's often said that the prisoners - could have, should have, would have - the courts say it's the prisons' problem. The prisons say that we don't want them here in the first place. For the police, they can only say: we are trying to help them. What about the public? "I'm sorry, but it's not my problem." - And so it goes.....

"LIFE IS A LEARNING PROCESS"
By: Colleen Patrick
Extension Program Assistant

"Life is a learning process, so you should be open to new ideas. Everyone you meet has something to offer." This is part of the philosophy that motivated Eva Henderson-Ward to become an EFNEP (Expanded Food and Nutrition Education Program) Nutrition Aide for the King County Cooperative Extension Service.

Eva has many interests such as cooking, collecting recipes, working in the Boy Scout program and singing in her Church choir. Her number one responsibility is her family, whom she is very proud of. She has 5 boys and a daughter ranging in age from 24 to 4 years old. One son just graduated as an electrical engineer; her daughter is studying medicine, one son is becoming a chef and another a photographer. And she still has two boys at home. Her husband is employed by United Waste and he is a Real Estate broker and investor.

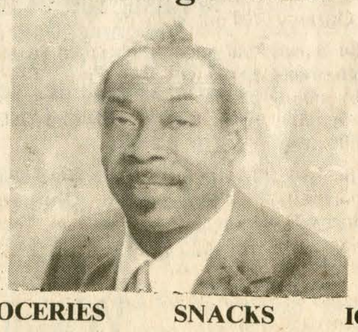

As an EFNEP nutrition aide in the south Seattle area her goal is to help homemakers improve their quality of life by teaching them about nutritious and healthy food and helping them to get the most out of what they have. The EFNEP Program is a free educational program of the King County Extension Service to help you with better cooking; buying; meal planning of good looking, good tasting, low cost meals. This program is available to expectant women and limited income families who still have children at home.

Another goal of the EFNEP Program is to work with youth of EFNEP homemakers. They are organized into 4-H groups where they also can learn about nutrition and good health. Adult volunteer leaders are always welcomed to help with this program.

"My feeling is you learn through teaching. And what you have is no good unless you're willing to share it with someone else....EFNEP is a good program that all people can benefit from." If you are a limited income homemaker with children at home and are interested in participating in this program or becoming a volunteer leader to work with 4-H aged youth, you may call the King County Cooperative Extension Service at 344-7683 for further information.

Seattle Resident, Gloria R. Leonard, Talks About Challenges Of Motherhood In New Essence Feature

Gloria and James Leonard and Gloria's daughter, Melanie, now tell a humorous tale about a once serious situation. Says Mom: "She learned a lesson, and so did I."

Seattle resident, Gloria Ratliff Leonard, tells a humorous but trying experience about raising her teen in a new feature, "Mother-to-Mother," debuting in the February issue of ESSENCE Maganize. The column will deal with real-life examples of coping with the challenges of motherhood. Tips on making childrearing easier will be a focal point.

Newly remarried, Ms. Leonard talks about a grumbling 14-year-old teenager driving her crazy. As a result, daughter Melanie's wish to live with her dad in Spokane becomes a reality. There's lesson, however, to be learned when Melanie discovers her dad's home isn't a paradise where dishes never get dirty and rooms never have to be cleaned.

But it's a happy ending for mother, daughter and stepfather, James Leonard, when a relieved Melanie returns home. "It doesn't hurt to let your kid have some hard knocks when they will be so much better off for it," affirms Ms. Leonard. "She learned a lesson, and so did I."

The February issue will be on newsstands starting January 24.

ESSENCE is one of the fastest-growing women's magazines in the United States. It has a monthly circulation of 700,000 and over 2.9 million readers. Its parent company, Essence Communications, Inc. (ECI), co-produces "Essence," the magazine news and service TV show airing in the New York tri-state area, and has introduced a line of intimate apparel for women and children bearing the ESSENCE name.
