

Congratulations To The Graduates

A CAREER IS MORE THAN A JOB

In the Seattle Department of Parks and Recreation, we know that. Our 700 employees are dedicated to a tradition of excellence that began in 1884. Our community recreation centers—fieldhouses—were the first on the West Coast.

Seattle is and has been a leader in parks and public recreation for generations. Our employees know their jobs well and have access to in-service training and promotional opportunities.

As we celebrate our 100th birthday this year, we invite you to take part in the many ongoing and special events brought to you by the Park Board and the Mayor's Centennial Park Commission.
