There is more to eating fish than you think.

1. FISH SAVES YOUR FAMILY MONEY...it is an economical buy in this time of inflated prices in your supermarkets. High quality fish is a good substitute for high costing meats.
2. FISH IS HEALTHY FOR YOUR FAMILY...compared to the finest cuts of high priced meats in body building protein by medical authorities.
3. FISH IS BRAIN FOOD...it has iodine which nourishes the thyroid gland and effects our rate of mental development.
