Subject: Estimate for Hammond Coping Repair
Date: November 20, 2007

As you know, Mrs. Hammond requested an estimate for realignment of the granite coping on the south side of H-124. I've attached photos.

The Estradas have looked at it and estimated they can complete the work in two days (eight manhours). They plan to remove the central marker, which is resting against the coping, remove the excess sod and dirt, realign the two coping pieces, reset the central marker and smooth and level the dirt.

I have doubled their estimate to sixteen manhours @ \$12/hr (gross + overhead), for a total of \$192. Materials and equipment expense, if any, will be negligible.

Mrs. Hammond also wants us to set a VA marker for her husband when it arrives, and you had told me to add \$100 to the coping repair to cover that. Accordingly, our estimate is \$300, plus any markup you wish to add.

Do you want to contact Mrs. Hammond or would you prefer that I do so?
