After calling several places, the closest matches I found for the specs of our equipment are as follows.

Air Compressor with Jack Hammer Attachment: The closest match to our Lindsay 80 was an Ingersoll Rand at Hertz, trailer-mounted and diesel-powered (they had no gasoline-powered ones). It rents for \$95 per single day, or \$235 per week (\$47 per day for a 5-day week).

Pressure Washer: Hertz rents a 3000-psi, trailer-mounted, gasoline-powered pressure washer for \$100 per single day, or \$400 per week (\$80 per day for a 5-day week).

Yellow Tractor: Lansdowne-Moody rents Ford 345C and 545C tractor-loaders (the models just below and just above our Ford 445C) for \$165 per single day, or \$495 per week (\$99 per day for a 5-day week).

Mixer: A 6-cubic-foot mixer rents for \$60 per day, and a 9-cubic-foot mixer rents for \$80 per day.

I don't understand Hertz's pricing of the air compressor and the pressure washer. The single-day rates are comparable, but the weekly rate for the air compressor is almost half less than the pressure washer.

I propose we charge the equipment as follows, unless you want more parity between the rates for the compressor and pressure washer. Note that these rates do not include the cost of gasoline.

Air Compressor: \$5.88 per hour (\$47/day divided by 8 hours).

Pressure Washer: \$10.00 per day (\$80/day divided by 8 hours).

Yellow Tractor: \$12.38 per hour (\$99/day divided by 8 hours).

Mixer: \$7.50 per hour (\$60/day divided by 8 hours, assuming ours is closer to six cubic feet than nine cubic feet).
