

Washington Cemetery Quote

January 25, 2011

This quote is for the sections provided to me by Loy Anderson from Glenwood Cemetery on Sunday January 24, 2011.

The job consist of 27 Plots, 22 copings, 126 granite stones, 40 marble stones, and 27 cradles.

The concrete and granite on each plot will be pressure cleaned and treated with a safe/light chemical solution to kill any remaining algae. This will ensure that "zebra stripes" will not reappear on the stone within months. Water will be provided by tanks since there is a minimal source in Washington Cemetery.

All marble tombstones will be cleaned without the use of pressure to ensure that no stone is damaged in the cleaning process.

Before and after pictures will be provided on a disk of each stone, cradle, and coping cleaned on a disk at the end of the project. Also, a maintenance report will be provided detailing any maintenance that needs to be done to the stone, copings, or cradles. I will also provide a list detailing the amount of marble, granite, coping, and cradles in each plot assigned to be cleaned.

Sales Tax will be added to the total below if the organization paying for the project is not a 501(c)(3) organization.

The job will be finished by February 1, 2011 and all maintenance reports and before and after pictures will provided by this date also.

The quote is as follows:

1. Section C: 1-14 - \$2678
2. Section C: 15(Menger Plot) - \$184
3. Rest of Section C : \$1611
4. Section D: \$153
5. Section B : \$272
6. Section A: \$370
7. Section G: \$262
8. Section F: \$20

Total: \$5,550
