| <b>Work To Be Completed</b> | <p>The badly damaged stucco coping must be replaced or removed. A smaller marble coping in the southeast corner should be salvaged and reset on a new foundation.</p> <p>The base of the central marble monument is tilting 5° east and 1½° south. The shaft has fallen from the base and is lying on the ground. The base must be leveled on a new foundation and the shaft must be reattached. During excavation, an attempt should be made to find the missing finial.</p> <p>All headstones on the lot must be leveled and reset on new foundations. <u>Note by reference to the photographs that the headstones for Courtney Taylor and Frank Taylor are not where they are drawn in the bank book diagram (copy on p. 2).</u></p> <p>A small, stuccoed brick cradle in the northwest corner should be restored.</p> <p>The lower limbs of the magnolia tree on the lot will have to be pruned and the lot planted with new grass.</p> |                           |                 |
