Mrs. Dora H. Scott-Nichols, contact for the lot, has requested that we remove the large palm and fill hole. She asked that we not destroy the palm but reuse it somewhere in the cemetery. She offered to pay for the removal and replacement of soil. Mrs. Scott-Nichols has been a consistent donor to GCHPF for years. I assured her that you would attend to this. She asked for an estimate and then she would pay immediately. She said the palm is encroaching on family gravesites. Do you want me to take care of this? If so, do you want me to charge her and how much? I can have the Estradas do the work if you prefer.

We are short-handed at this
moment - Estradas not to
remove. KAA will make
arrangements to have it
removed professionally &
replanted. Cost - uncertain

The contact for lot has made a request as of December 2010. Willing to pay full cost. We need to follow up and make this happen, if possible. We need to obtain the information needed to give her the cost to march forward.

As Carmen suggested, I called Mrs. Dora H. Scott-Nichols regarding the huge palmetto removal to take place around the end of September. I explained to her that we are unable to give her a cost for removal at this time. She understood. She stated that her need to have it removed was for future burial needs for herself. She is 84 and has somewhat limited funds. I assured her that Glenwood would work with her concerning the cost of removal. She is donating the palm to Glenwood in hopes that we will relocate it. She was very pleased that we called her back today.
