Subject: Work for Estradas

Date: March 10, 2008

As you know, I will probably be out tomorrow afternoon for chemo. The Estradas are nearing completion of the stone coping on F-1, 068.

Bonnie has two markers she wants them to look at in Section I.

If they need work to finish out the afternoon, I've attached notes on two small jobs.

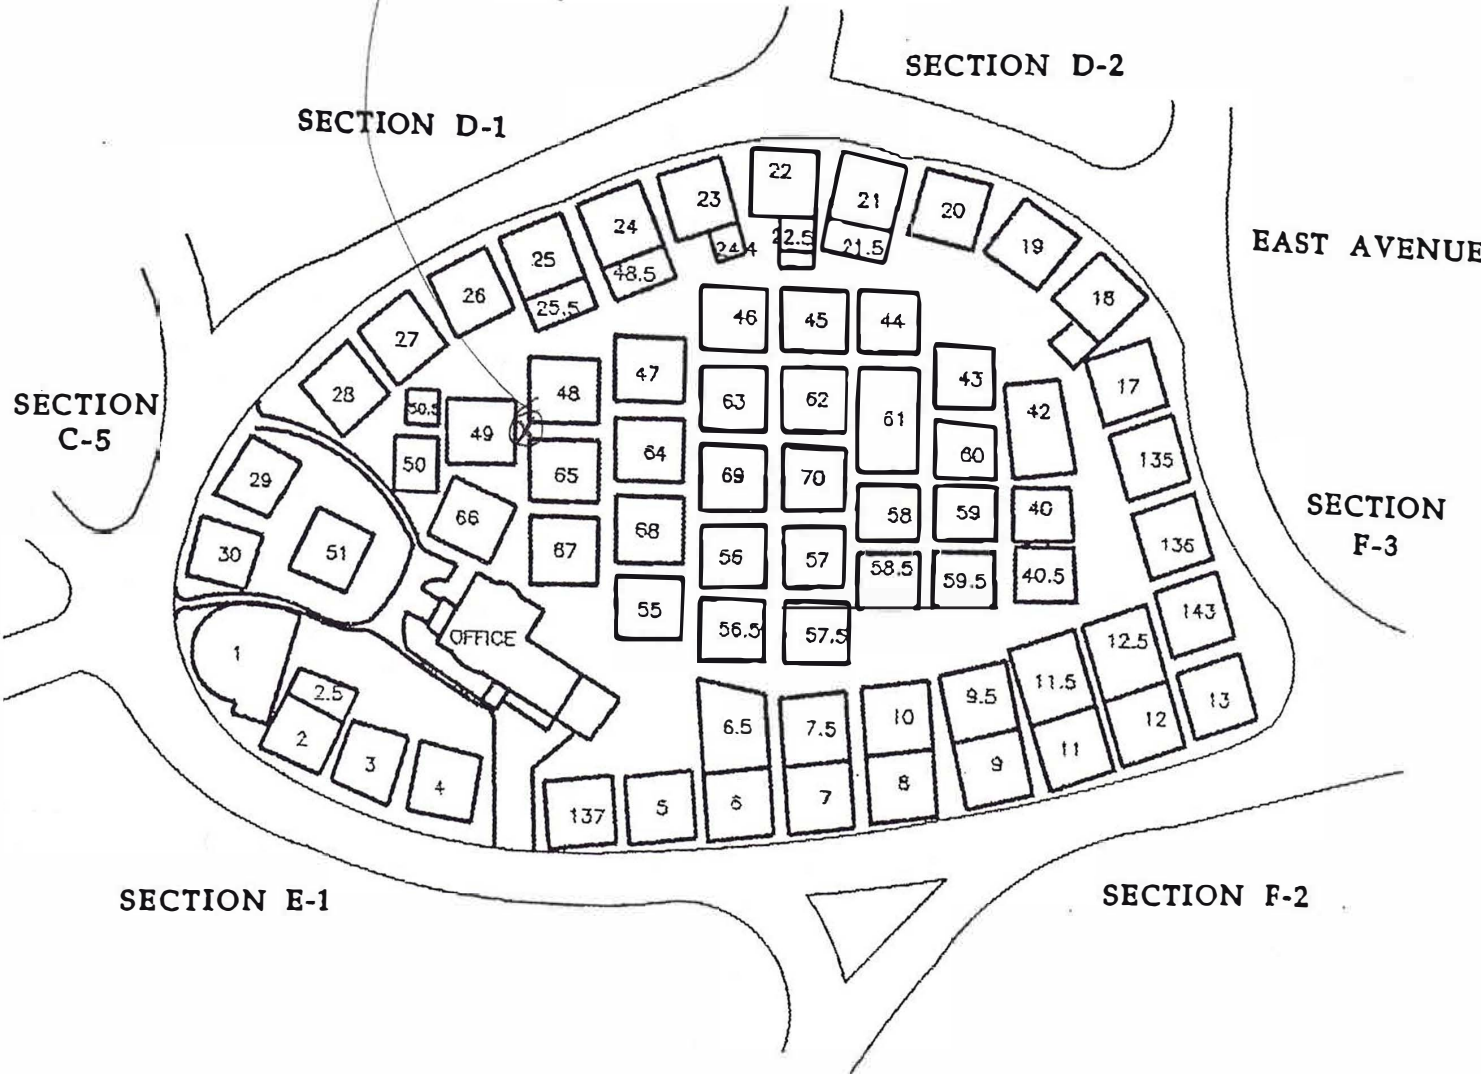

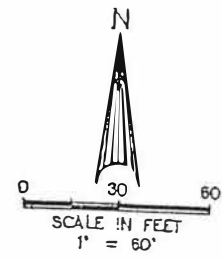

- The marker for Hugh Kelly is being used as a stepping stone at the entrance to the Lemke lot (F-1 049 S½). According to G-Systems, it should be on the Settegast lot (C-4 192). I've attached a photo of the marker, maps, pages from the bank book, and G-Systems reports on both lots. Note that we have a contact for the Settegast lot, but not for the Lemke lot.
- On the Reiler lot (F-1 023), the footstone for Karl Buchholz needs to be reset (see attached photos, records and G-Systems report). We have no contact for this lot.

Please do not hesitate to call me tomorrow on my cell phone (713-498-5972). I may not be able to answer, but I can return the call.
