Subject: revised brochure and map

Loy- attached is the brochure revised to 16" wide (4 panels instead of 3)

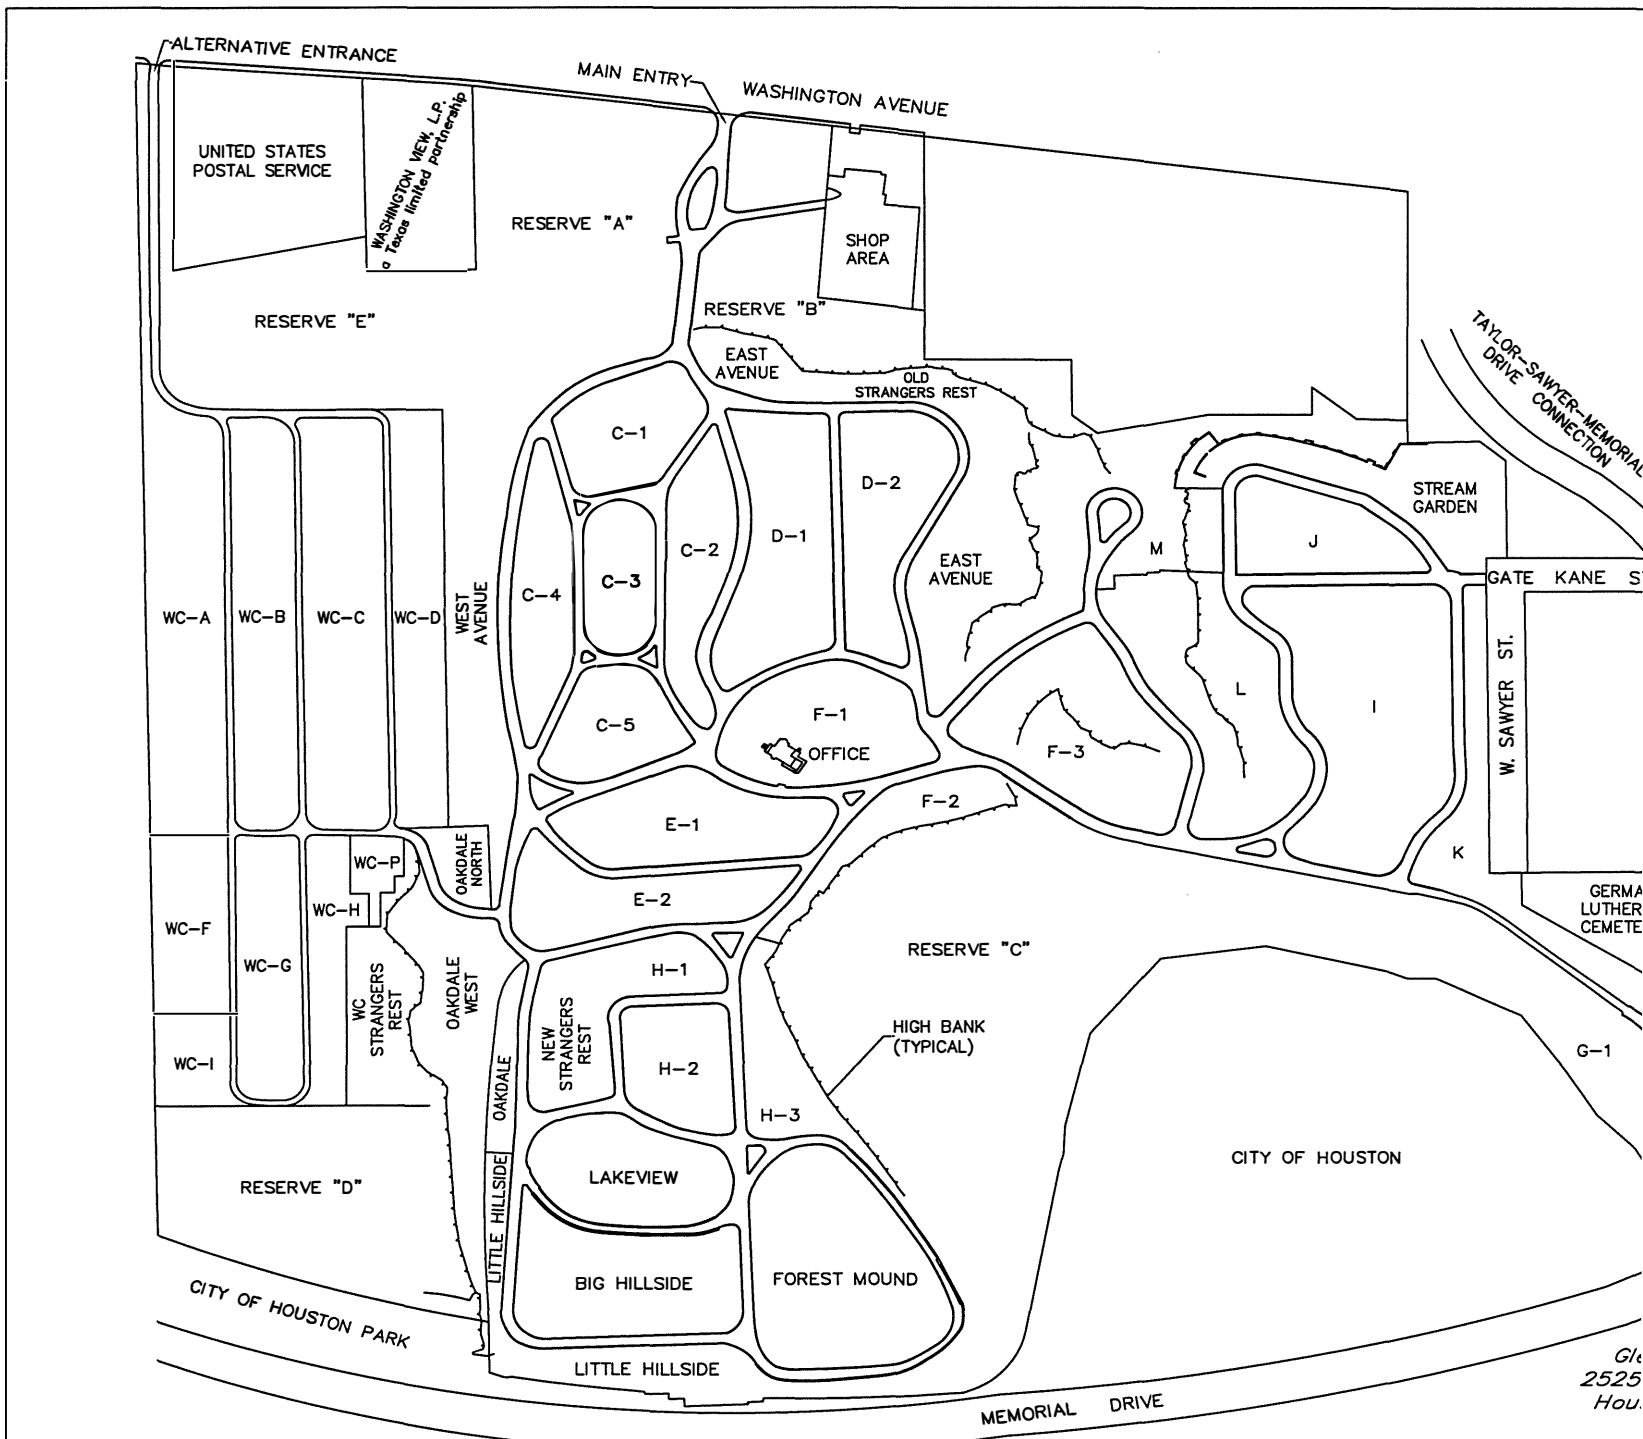

Please check the map numbers.

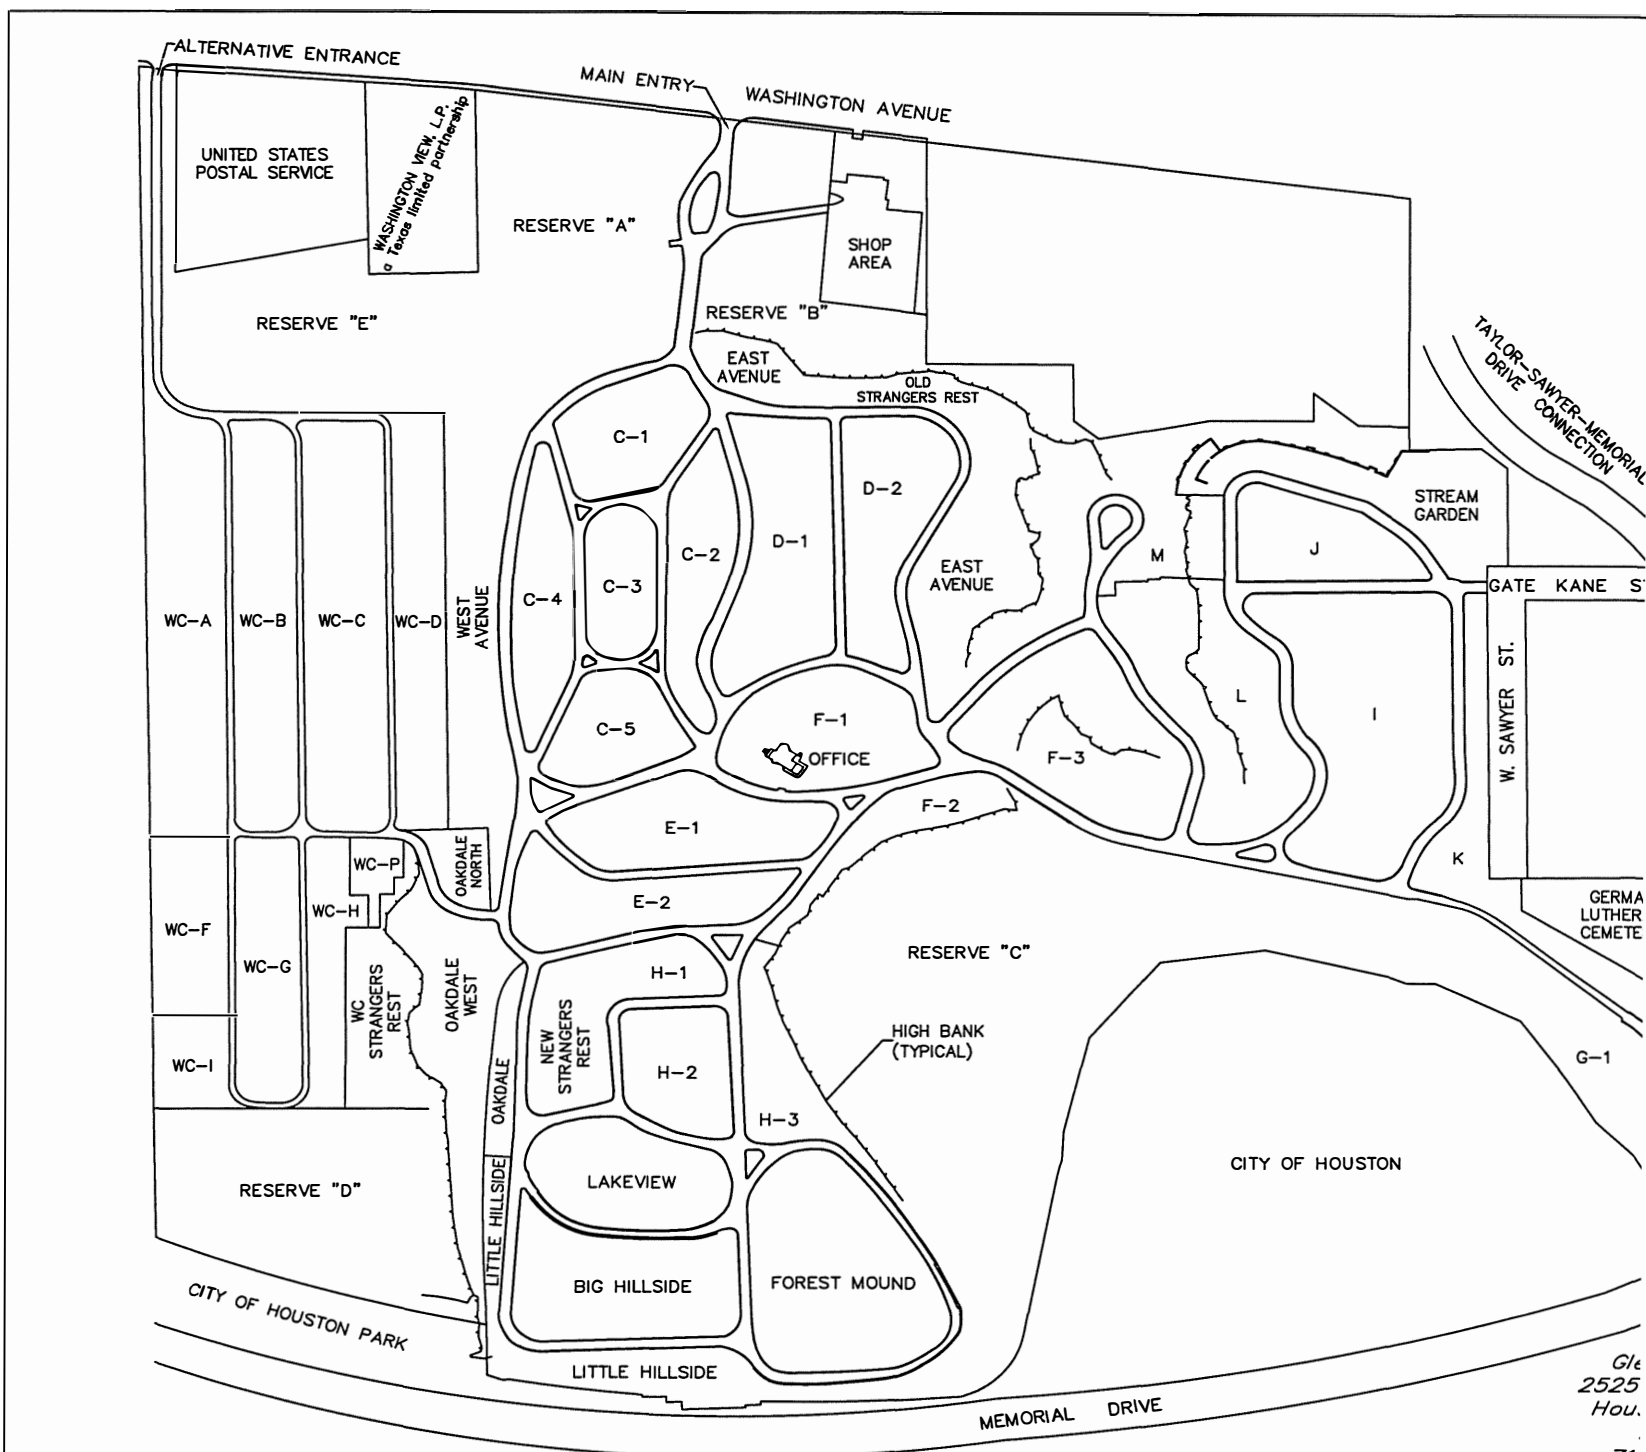

I transferred all from the original map but I think some of the numbers are missing - for instance - I do not see #1.

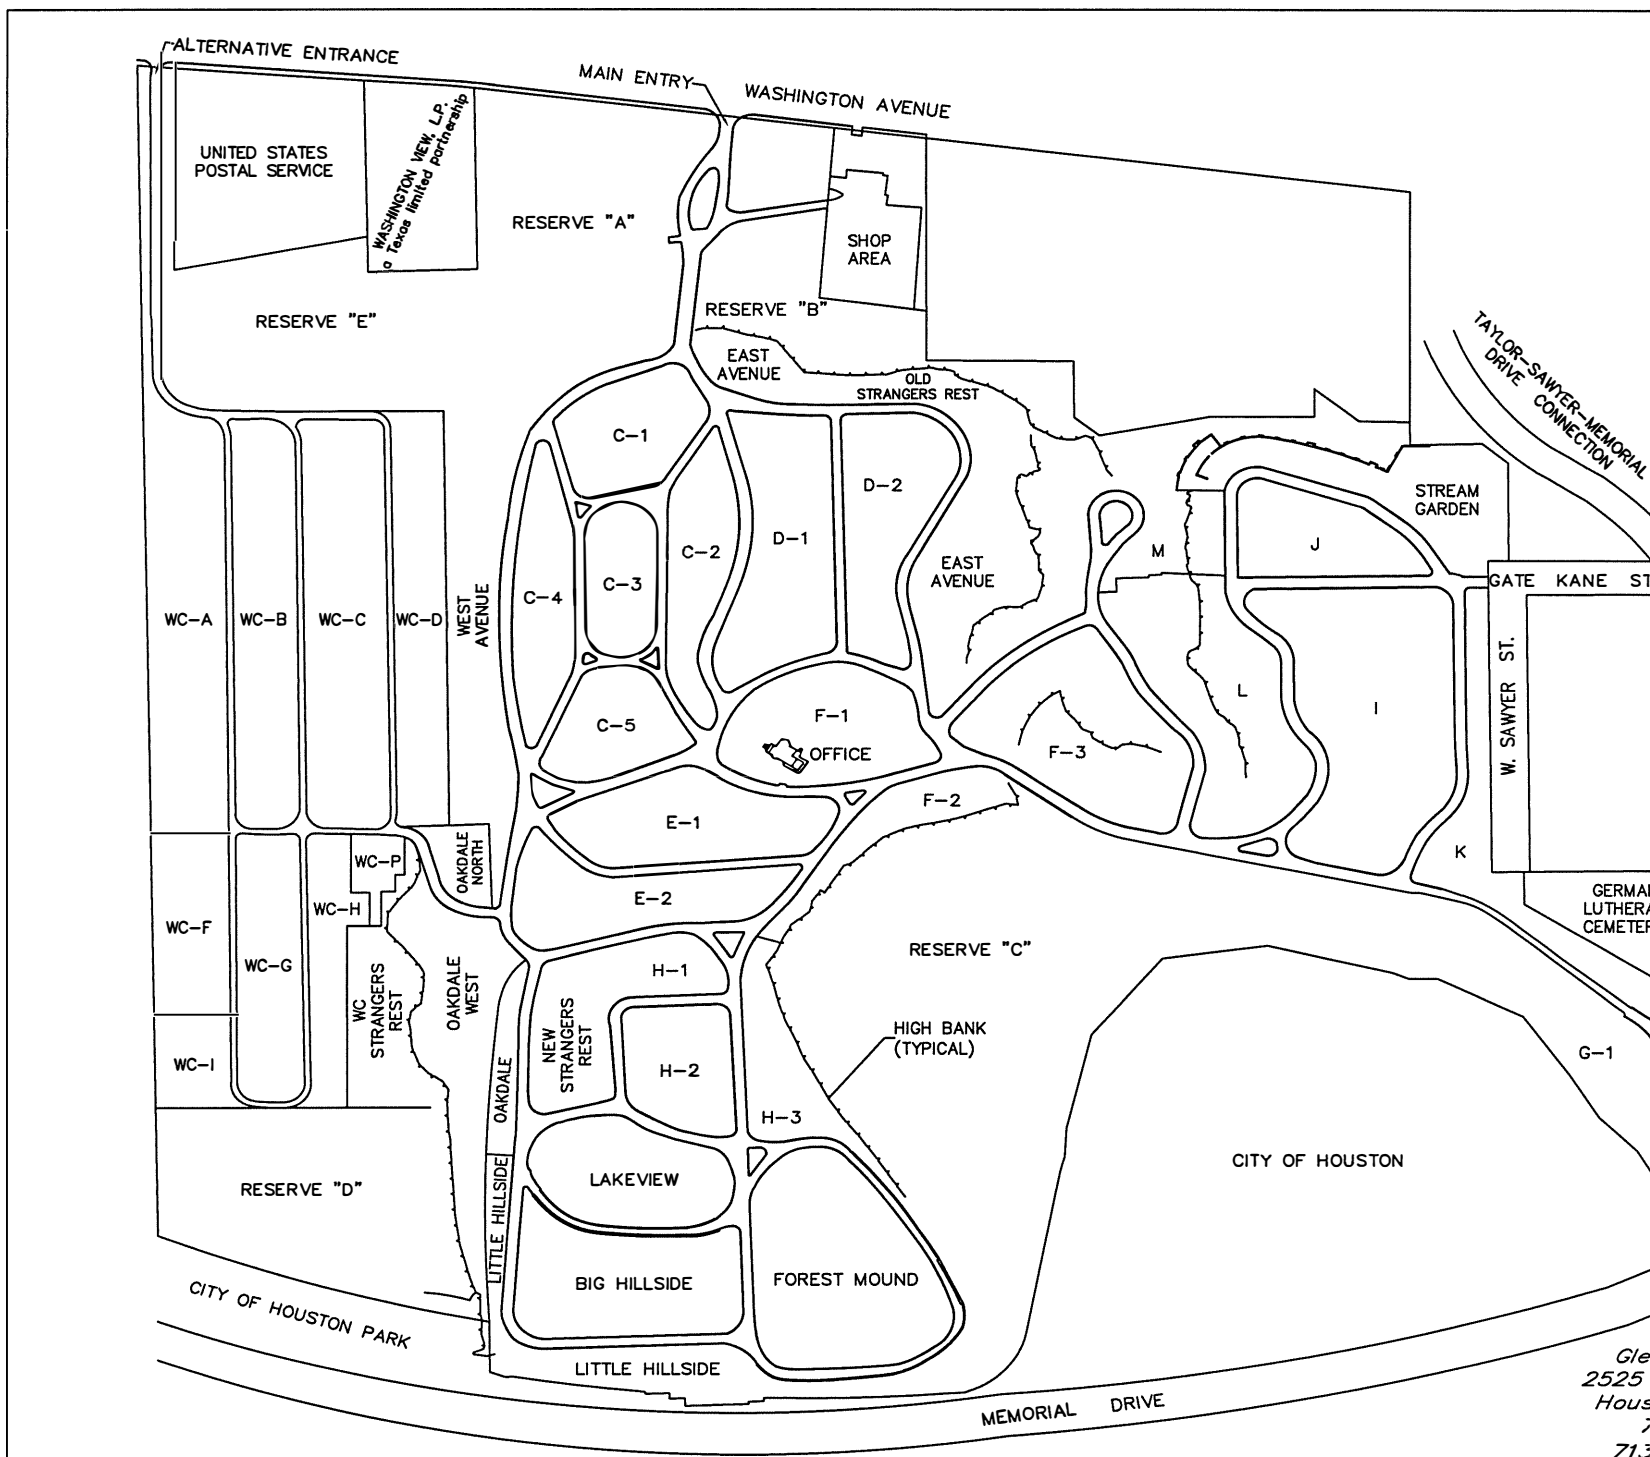

Let me know of any other changes.

Thanks

On front panel, should read 85 acres in lieu of 84.

On front panel: Lots are available for sale in all sections of... (these two lines should be bold or darker type)

On the map, numbers 1, 19, 41, 21, 40, 20 should be moved to just touch the line as was shown on previously issued brochure

On the map, number 2 should be moved more into the corner

Nice job by the way. As of right now these are the only changes I am aware of. Need a proof and I believe we will be set to go to print.

Thank you so much.

GLENWOOD CEMETERY

Glenwood was established in 1871. The grounds were laid out in the tradition of other romantic rural cemetery parks of the 19th century, and newspaper accounts of the day compared Glenwood to such prominent cemetery parks as Laurel Hill in Philadelphia (1836) and Green-Wood in Brooklyn (1838).

Glenwood Cemetery comprises approximately 85 acres, of which 18 acres are reserved for future development ensuring that Glenwood will continue to serve many generations of Houstonians with dignity, respect and compassion.
