Bernice,

I have not heard back from the cemetery regarding damage to the Wm Calhoun gravemarker in the Dunovant Plot ... Have you? When I called in, the lady stated (gave a name I do not remember) would be calling me back as I wanted to know what was going to be done to repair the marker and if necessary our group could see what it could do to help ... Since they didn't call me back, we still do not know what we can do to help ...

Also, finally received information on the two photos at UT of Dunovant's grave ... they want \$40 for each photo for 4 x 5 print ... I can't afford that ... so, if the cemetery wants to buy copies, I'll be glad to share the information with them ...

Lynna Kay

Lynna Kay,

I apologize for not calling you. The receptionist (Mary Ann) told me you had called to inform us of the damage, but I did not realize that I was to call you back.

I noticed the damage for the first time the afternoon of Friday, November 18. I was on that road several times earlier that week and I would like to think I would have noticed if the cross was down then, but I can't be sure. I think you said you saw it on Saturday, November 19. Do you remember how long before that you last saw it standing?

We will have the cross repaired. When I have a firm handle on the price, I will let you know and any contribution your group wishes to make toward it will be gratefully received.

Please do share the information on the photos at UT with me. I don't know if we can afford them either, but I'd like to try. Are they ones you have seen? Can you describe them? Do you know the vintage?

Martha,

I am working on a project related to Adelia A. Dunovant who was the founder of the Oran M. Roberts, Chapter 440, United Daughters of the Confederacy ... We will have our 105th Anniversary in Feb 2006 ...

When I began working on this research, I had no idea who she was ... I have found an amazing woman who was dedicated to history ...

Our UDC Chapter is hoping to place a UDC emblem on her gravemarker as well as add her dates of birth & death ... there is plenty of room to add this information on the vertical face side of the marker

I have ordered a copy of her brother, Capt. Dunovant's military service records in order to order a Confederate Gravemarked from the US Govt for his grave ... again, the large marker does not give his full dates of birth & death nor his, rank & unit of service which will be included on the go! vt. marker ... We are planning to order the flat granite maker which would be ground level, not vertical ... Of course, we will bring the completed form to the cemetery office for approval / signature by the cemetery as required on the form ... I am sure you are familiar with the process of ordering these markers ... This is also similar to what they are doing at Washington Cemetery but we are not getting the vertical as it was be "too busy" in this small plot with the other large markers ...

There are no descendants of this family ... Adelia and William never married and while their sister Margaret did, she never had children ...

I was at the cemetery on Sat, Oct. 15th and took photos so I would have them to show at our next meeting ... the marker was not laying on the ground at that time ...

I had returned on Nov. 19th, after our meeting, with another member who wanted to see the mark! ers to get an idea of the size of the urns so that we can put flowers in them for the dedication ceremony ... We will be planning a marker dedication ceremony in the Summer 2006 to dedicate her UDC emblem and his Confederate gravemarker ... again, as we get things in place, like emblem and marker from govt., we will have a better idea of dates to approach you with to coordinate the short ceremony which is similar to a graveside service in length and similar to what was done at Washington Cemetery but not for numerous graves, just this one ...

I visit the cemetery all the time as my best friend, Phyllis Gough Huffington, is buried there ... I have new Christmas flowers that my dad and I will place on her grave this weekend ... I worked as her personal assistant for abt. 4 years at her home before her death ... I still have dinner twice a week with Roy (Tues & Thur) at the house and work on continuing her genealogy research and other projects ...

When Roy and I had dinner on Nov. 22nd, I shared with him what had happened and showed him the photos I had taken ...

I had asked the recept. to get back with me so that I would be able to pass along to our members the status of this damage and to see if it was intentional or what exactly caused the damage ... I did not see any tree limbs so I do not have any ideas about what could have happened to cause this massive amount of damage ...

Wm Dunovant grave photos at UT ... I have a friend who is a researcher in Austin who does my "leg" work there for me since I now work full-time for the City of Houston Legal Dept. ... I found the entry of Dunovant material in the on-line

12/2/2005

finding aids and asked him to check it out for me the next time he was in the library ... he reported back to me this week about the price ... I will ask him about the vintage of the photos and get back with you! ... and I will ask him if he can get photocopies of the photographs ... I had asked him to check to see if the sword in the photo was damaged or whole ... as you probably know, it is missing as are several fingers of the angel ...

Thanks for getting back with me ...

Lynna,

I, too, am very troubled by how the damage occurred. Bonnie Ambrus here at Glenwood swears that monuments have "blown over" and left a pin standing in the base and no damage around the pin hole in the upper piece, but I couldn't understand how so long a pin could be unbent and no stone broken off around the pin hole – it almost looked as though the cross would have had to be lifted off. However, I had some contractors out looking at it this afternoon and they think it may have been possible for it to blow over because the pin hole is fairly large. A cool front came through early that week that caused a short period of strong winds, but it's still hard for me to believe it would blow over. On the other hand, it's unlikely vandals would attack that one piece and do nothing else, and I can find no other damage. I guess the important thing is to get it repaired. The men who will do the work will be occupied on another project for about two weeks, but we will schedule it as soon thereafter as possible. I'll keep you posted.

Don't impose on your "leg man" any further with respect to the UT photographs. If you had seen them, I was going to use your description in requesting the money but that's not really necessary. If I can spend the money, I'll be in touch to find out how to handle the transaction (check payable to UT, or reimbursement of your friend, etc.).

Martha

Martha,

I am so excited you are going to be able to get the photos ... I hope you will consider adding it to the cemetery's website as well ... these old historical photos are a nice addition to a cemetery history ...

My friend, James Williams mailed them to me over the weekend from Milam County where he lives ... I should have them this week and will fax to you upon receipt ...

My dad and I were in the cemetery on Sunday afternoon and it looked so festive with all the holiday flowers ...

To Lynna Kay:

I don't know when the photos were taken. They are some type of brown tone. It seemed that the statue was undamaged. Statues on other graves can be seen in the background.

I am sending the forms that I picked up yesterday along with a card showing the name of the person to contact about photos (Steve Williams). I don't know if they will make photostats of the pictures.

Sincerely,

James E. Williams

Martha,

I am so excited you are going to be able to get the photos ... I hope you will consider adding it to the cemetery's website as well ... these old historical photos are a nice addition to a cemetery history ...

My friend, James Williams mailed them to me over the weekend from Milam County where he lives ... I should have them this week and will fax to you upon receipt ...

My dad and I were in the cemetery on Sunday afternoon and it looked so festive with all the holiday flowers ...

Martha,

- 1) Did you get info on ordering the Dunovant photos I sent? Are you going to be able to get the copies?
- 2) We were by the cemetery today and the Wm. Calhoun marker is still broken. What is the time-frame for getting it repaired?
- 3) Today (1/31) my friend, Rita Crabbe, went into the office to report another broken marker ... Henry Phillip Roberts ... he is a Confederate Vet ... she spoke to the Recpt. who was very flippant and really could not care ... she said it was too expensive to fix these old broken markers ... there is no need to "fix" his marker as we can or Bernice can get a new replacement marker free from the VA ...

Thanks ... Lynna Kay Shuffield

GLENWOOD CEMETERY

To: Monument Restoration File
From: Martha Peterson
Subject: Damage to Calhoun Cross on Dunovant Lot (E-147)
Date: April 24, 2006

On Friday, November 18, 2005, while giving Joanne Seale Wilson a driving tour of the cemeteries, I first noticed the cross has fallen from the Calhoun monument and broken into several pieces.

On December 2, 2005, Bernice forwarded me a message from Lynna Kay Shuffield complaining that she had reported the damage to the Glenwood office and had not had a response. Mary Ann had not told me I was to call Lynna Kay. I wrote her immediately and apologized, reminded her that there are many projects awaiting funds and manpower, but promising to do all we could.

I began searching online for supplies to repair the cross. Finding little, I finally ordered something in early December that proved not satisfactory for our purpose.

When Lynna Kay continued to complain into late January, 2006, I spoke to Dick and he agreed to let Freeman make the repairs. I explained to Freeman that I had the small pieces of marble in my office, but he forgot that and made the repairs without them at some time after January 31, 2006, when Lynna Kay complained that it was still broken, and April 12, 2006, when the repaired cross appears in the background of a photograph of the Longcope lot.

I have not yet seen Freeman's invoice that the work.
