GLENWOOD CEMETERY HISTORIC PRESERVATION FOUNDATION

To: Dick Ambrus
From: Martha Peterson
Subject: Restoration of Mary MacDonald Lots on West Avenue
Date: May 3, 2007

*Cost
not fixed*

The two lots plus walkway comprise 900 s.f., all of it surrounded by a heavy, rusticated gray granite coping. The beams are approximately 12" x 12".

All but the west side is relatively intact and level and will require only minimal realignment with no foundation work.

The coping on that side is partially buried and badly misaligned. It will have to be completely removed and some type of foundation supplied.

The old fence between Glenwood and Washington was on the western boundary of the lot, and there is a change in ground level along that line. The land and turf on the Washington side of the fence was almost a foot higher than on the Glenwood side. Since the rest of the coping is leveled with the Glenwood surface, to achieve a good result the grass and excess dirt on the west side of the lot should be removed to produce a gradual slope from the Washington side to the Glenwood side. The grass would then have to be replaced.

There are fourteen flat, gray granite markers on the lot that will require minimum leveling and straightening.

The only obstacle to a successful result is a large pine tree that abuts the coping on the west side. The coping is intact up against it (though buried), but it will not be possible to align the coping properly when it is reset. The best option may be to omit that section of coping, burying it instead on the lot where it can be found and reset if the tree should ever be removed. There is a bed of nandina inside the lot at that point and it would hide the missing coping.

My not-too-conservative estimate of our cost is \$5,000, based on the following:

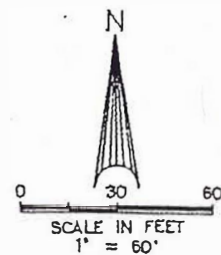

Labor: The Estradas' estimate of their time to complete the job range from \$1,500 to \$2,500, depending on what is encountered underground. I would raise that to \$4,000.

Equipment: Tractor (\$300); pressure washer (\$100).

Materials: Concrete (\$100); dirt (\$200); grass (\$300).
