Hi Loy,

Attached is the invoice and maintenance report for Washington cemetery. I included the last row and the other scattered stones throughout and the materials for the rust on the Cudlipp plot. Would it be too much trouble to send me the check in the mail? Im normally really dirty when I come to get it and I hate to walk in the office with crud all over me. Let me know and I will send you my address.

Also, I sprayed those small spots on the right side looking at the Cudlipp monument again after we talked last time and it looks like it lightened some more. I still have some more im saving to try is one more time. Hopefully this works. If it doesnt, I will need to poultice the stone to draw the rust out if that what yall want.

Things are going good with the rest of glenwood. We have a few sections left and some touch up. Im starting to take the after pictures for the sections and am going to finish F-2 last because of the three brittle and one broken stone in the Historical Marker plot and also the Crain Carter monument. Ill be asking for the key to Howard Hughs soon too so I can get his cleaned also.

Also, we got a lot of invitations back for not enough postage, so we resent. Just letting you know I didnt forget about yall. :)
