

The
Harris County
Tree
Registry

FOREWORD
THE PARK PEOPLE-1992

Trees, the silent, stately monarchs of the landscape, have welcomed generations of settlers to the Texas Gulf Coast and Harris County. Trees still present in Harris County witnessed the first arrivals among our ancestors.

Subsequent generations of trees and settlers, the "second growth," now have matured and stand as majestic reminders of our history and heritage.

Along with the pleasure we derive from viewing such trees, we also experience a feeling of stewardship—a responsibility and desire to recognize and protect these invaluable sources of beauty and sustenance.

The Park People, Inc. has created The Harris County Tree Registry in order to identify and celebrate the largest and most distinguished trees in the Houston area. It is our hope that by recognizing and publicizing these trees, we will increase the public's awareness of their unique value and thus ensure their preservation.

The tree registry concept was originated by the American Forestry Association, which for fifty years has maintained a registry of America's most distinguished native and naturalized trees. More recently the Texas Forest Service has issued annually the Texas Champion Big Tree Registry.

The Park People, Inc. joins with pride these distinguished organizations and shares their commitment to further our common objective.
