Glenwood Cemetery was established in 1871. In 1999, Glenwood assumed permanent responsibility for the operation and maintenance of adjacent Washington Cemetery (established in 1887). Together the cemeteries comprise approximately 84 acres. Lots are available for sale in both Glenwood Cemetery and Washington Cemetery.

Availability of all items included in this Schedule and all prices in this Schedule are subject to change at any time and without notice

Purchase of Burial Spaces

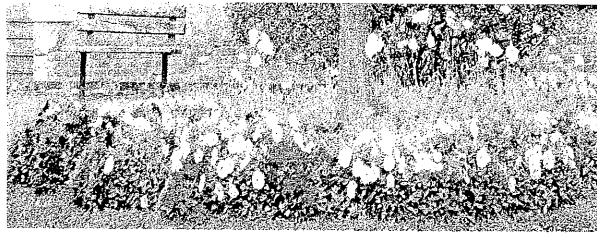

A single space will accommodate one casket and two ash burials, or it can be used for three ash burials. Any number of single spaces can be combined into a family lot. Single spaces are priced from \$3,500 to \$8,250.

Double-depth burial privileges may be purchased for sixty percent of the cost of the space (\$2,100 to \$4,950, plus the cost of the space). Double-depth burial privileges allow for the burial of a maximum of two caskets *[plus four ash burials???*].

Twenty percent of the sale price is deposited into the Glenwood Cemetery Permanent Trust Fund, and the income from such Fund is used exclusively for the perpetual care and maintenance of the cemetery. There are no annual assessments for care and maintenance.

A Memorandum of Sale is issued at the time of purchase and serves as evidence of the purchase. A Certificate of Ownership, evidencing the purchase of the burial space(s), and a Deed of Perpetuity, evidencing the deposit to the Glenwood Cemetery Permanent Trust Fund, are sent to the purchaser following the transaction.

Burial Services

Glenwood does not offer funeral or cremation services, and no chapel or other indoor facility is available. Persons seeking such services should contact a funeral home or mortuary.
