COMMUNITY MEETING

MONDAY, MAY 26, 1969 - 8:00 P.M.

Musical Program: San Dieguito Up With People Group
Information Regarding Junior High Feasibility Study

Dear Fellow Residents:

At the request of a number of parents, this Governing Board during the past 18 months has conducted a study of the feasibility of extending the present elementary school program to include grades 7 and 8.

Such feasibility studies have, from time to time, been conducted in prior years by the Board or committees appointed by it. On the last such occasion, 1964, it was the recommendation that such a move would be ill advised due to the additional costs involved.

During the past two years, however, the financial picture has changed, for the high school district has levied a junior high override tax (about \$100,000 per year) in addition to the tuition charge (about \$800 per student) previously - and still - collected for the approximately 75 students we usually have in grades 7 and 8.

By law, the Board cannot enter into any activity which would influence the vote of Rancho Santa Fe residents should an election be held to decide the question of withdrawing local 7th and 8th grade students from the high school.

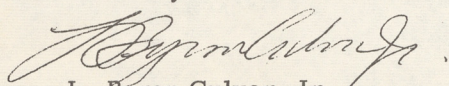

At the same time it has the responsibility to determine, and to make local residents aware of, the ramifications of such a change - including any financial demands on local taxpayers which are likely to result.

On Monday evening, May 26, 1969, this Governing Board, together with the Rancho Santa Fe Parent-Teacher Organization, is sponsoring a community meeting so that it might provide information regarding the junior high study and to encourage and receive your comments regarding it.

The first part of the evening will be devoted to a musical program provided by the San Dieguito Up With People Group. These outstanding young people will share with you their enthusiasm for life and for the opportunities it presents.

We hope you can be with us for this important meeting.

Sincerely,

L. Byron Culver, Jr.
President
