- Experiences in homemaking and the industrial processes
- Programmed materials and private learning areas
- Ready availability of resource materials
- Mini-classes, opportunity for involvement in particular areas of interest
- Program supported by teacher preparation center
- Provision for future technological advances

ARCHITECTURAL CONCEPT

Middle School is designed architecturally to fit pleasantly with its surroundings and to provide both a learning program and facility that reflect the community. In terms of the historic scope of Rancho Santa Fe, Middle School maintains the Spanish atmosphere through its low, casual profile, red tile roof, arched windows, and multi-use courtyards and patios. In brief, Middle School is in harmony with the community and people it serves.

RANCHO SANTA FE SCHOOL DISTRICT

P. O. Box 809
