Neighbors say site not good for school

They fear gridlock near proposed campus

By Sherry Parmet
STAFF WRITER

RANCHO SANTA FE — Some residents angered by the Rancho Santa Fe School District's proposal to build a campus near their neighborhood say it would increase gridlock and lower property values, and their children would be unable to attend the school.

The school district wants to purchase 36 acres for the school at the southeastern intersection of Del Dios Highway and El Camino del Norte in Rancho Santa Fe.

The school would be in the covenant, the boundaries of the Rancho Santa Fe Association. It would be adjacent to the Hacienda Santa Fe subdivision, which has 126 homes that are outside the covenant and are not in the school district. Residents in the subdivision are part of the Solana Beach School District and do not want the school near their homes.

One proposed school entrance would extend toward Hacienda Santa Fe and could include a stoplight.

"Basically, we would get all their traffic, their fumes, their litter and their red light, which they don't want in the covenant, so they can have a school," resident Debbie Loesch said. "I'm concerned they're being snooty about their school, which our kids can't even go to."

Rancho Santa Fe residents have long opposed traffic signals in their community, saying they would ruin its rural character.

Kathy Stumen, president of the school board, said every location the district has looked at for the last two years has spark-
