P E T I T I O N

Jan. 25, 1924

To the Honorable Board of Supervisors
of San Diego County, Calif.

The undersigned residents and property owners of lands within the San Dieguito School District, San Diego County, California, wish to protest to your honorable body, the proposed annexation to the Aliso School District or the formation of a new district of certain lands now a part of the San Dieguito District, as designated in an application now on file in the office of the County Superintendent of Schools, for the following reasons, to-wit:

That it will without question increase the tax rate for the remaining property owners and residents in the San Dieguito District. Approximately double.

That said petition is being presented by persons that are holding office illegally and are not property owners or were not when this petition was filed, either in the Aliso or San Dieguito School Districts. And that the majority of the permanent residents in the San Dieguito District are not represented on this petition.

That a portion of said lands are less than one and one-half miles of the present San Dieguito School but would be from three to four miles from the proposed school. That the travel and natural trend of travel is toward the San Dieguito School and not toward the desired school.

That said lands are now on the market or to be soon placed on the market in five to forty acre tracts and it should be left to the new owners of these lands to decide as to the location of the boundaries of a new district if one is formed, and not to any one man or Company.

That the value of the lands remaining in the San Dieguito District will be so much less with all these more valuable lands taken away that the bonding capacity will be too small for any future development

which may require bonding.
